SERVICE—Is the keynote of the success of the "Galt" Car. Service is attained by skill in design—engineering science in construction—and the use of high-grade material.

SUPERIORITY—The superiority of the "Galt" Car lies mainly in the fact that it has newest improvements, full equipment and advance season features, many of which are only found in imported cars at double the price, and most not found at all in cars of the same price in Canadian-made cars.

PRICE—In a nutshell, the "Galt" car is a high-class car with a medium price. A glance at our specifications, perusal of our catalogue, and further investigation will conclusively prove the price of the "Galt" car gives the greatest car value on the market to-day.

A Few of the Reasons "Why."

Three-point Suspension.

Main Specifications. MOTOR—The general design of these motors, with their large valves, correctly proportioned combustion chambers, ample manifolds, sufficient and uniform cooling jackets, is largely responsible for their even, smooth and powerful running.

NOTE.—By means of a common double manifold we dry the gasoline vapor after it leaves the Carburctor. Consider these features in a medium-priced car and compare with any other car in Canada: Motor-Four-cylinder, four-cycle, 4 in. x 41/2 in.
