MONTREAL PRODUCE.

MONTREAL, March 5.—Business in all
lines of grain over the cable was very
quiet again to-day, there being no im-
portment in the demand and prices bid
were generally out of line. The local and
outside demand for oats continues good.
The market for spring wheat flour was
strong, and prices were advanced for per
bushel under a good demand from all
sources, and stronger cable advices. A
stronger feeling has also developed in the
market for all lines of millfeed, and
prices were advanced \$1 per ton all round
owing to the continued good demand and
limited supplies available. Buttermilk firms
with a steady demand. Cheese is quiet.
Demand for eggs is good. Provisions
steady.

Increase in Visible Supply Caused Further Drop in Wheat

Sentiment in Bearish Mood in Chicago Pit, and Values Prove
Vulnerable to Pressure—Corn and Oats Easier.

CHICAGO, March 5.—Many wheat
speculators sold out to-day in prepara-
tion for possible surprises when the
government figures on farm reserves
are made known in latter part of the
week. Accordingly the market at the
close was ½c lower to a shade up.
Corn lost ½c to ¾c net, oats finished
½c off to a shade advance and hog
products wound up more costly by 2½c
to 2c.

Plenty of moisture all the way from the
Missouri River to the Colorado line
started the wheat market on the down
grade, the idea being that the snow and
rain would prove so helpful to the
growing crop, little attention need be
given to complaints of damage. Condi-
tions in foreign countries, however,
too, were generally favorable, and the
bearish effect was emphasized by a de-
cided increase of the world's available
supply total. Commission houses support
on a scale down caused some reaction
in the last hour, owing chiefly to re-
ports of cash sales at Minneapolis, St.
Louis and Kansas City. Between the
opening and the close, May ranged
from \$1.08 to \$1.02½, with the price in
the end firm, but ½c down at \$1.02½.

Corn Futures Weak.
Corn futures weakened in view of dis-
patches asserting that Texas buyers
had enough supplies on hand or on the
way to last until grass. It was also
believed apparently that the rural de-
mand for extra feed had been perhaps
discounted to an extent which the cir-
cumstances did not altogether warrant.
Altho longer so helpful to the
market, held relatively better than
corn or wheat. A leading firm previ-
ously on the selling side, however,
with considerable freedom. Upper and
lower levels touched for May were \$3
to \$3½ and \$2½, with the close \$2½
a net loss of ¼c.
Provisions advanced sharply late in
the day on account of an astonishing
lack of offerings.

Northwest Receipts.
Receipts of wheat cars at primary
centres were as follows:

European Markets.
The Liverpool market closed to-day on
wheat ¼d lower, and on barley ½d
and on unchanged. Buenos Ayres wheat
closed ¼c lower, and corn ¼d higher.
Paris closed 1c lower, Berlin ½c lower,
and Buda Pesth ¼c lower.

Winnipeg Inspection.
Winnipeg receipts of wheat to-day
graded as follows: No. 1 northern, 14
cars; No. 2 northern, 3 cars; No. 3
northern, 58; No. 4 northern, 57; feed, 40;
rejected, 12; no grade, 12.

World's Visible Supplies.
The visible wheat supply of the world
this week, according to Bradstreet's fi-
gures, is 2,820,000 bushels, an increase
over last week of 2,760,000 bushels. Corn
now, 12,000,000 bushels, increase 250,000.
Oats now, 20,500,000 bushels, increase
500,000. The changes are made up as fol-
lows: Wheat, east of Rockies, decrease
500,000 bushels; Canadian, increase 2,750,000
bushels; Europe and Africa, increase 2,
000,000 bushels. Total wheat increase, 4,
750,000 bushels.

EUROPEAN CROPS
IN GOOD CONDITION
Broomhall's weekly summary of for-
eign crop conditions is as follows:
United Kingdom—Crop outlook favor-
able, altho dry weather, would be bene-
ficial.
France—Crop outlook generally favor-
able except some complaints of the plant
being too forward, and infested with
weeds as a result of continued damp weath-
er. The weather is mild.
Germany—Crop outlook generally favor-
able. There are larger offerings of nat-
ive wheat than the foreign demand is very
poor. The weather is mild.
Russia—Crop outlook considered good.
Arrivals of wheat are generally very
small, but at the port of Novorossiok the

Chicago Gossip
Big Increase in Visible Supply Dem-
onstrates Current Grain News.

J. P. Bickell & Co. from Logan &
Bryan: The closing rally in wheat was
partly due to a little better firmness in
corn last half hour. Another snowstorm
over the southwest is regarded as helpful
to the growing crop. Northwest messages
express the belief that the comparison
with liberal receipts last year will be
lullian from now on. As yet the trade is
giving very little attention to such crop
damage news as comes to hand.

Why Central Station Power COSTS LESS

THIS is the age of big things—big shops, big factories,
big institutions, big men.

“Centralization” is the watchword of the hour. It has
become synonymous with “efficiency.”

“Efficiency” obtained by centralization means econ-
omy.

That is why Central Station Power is cheapest—It is
produced and distributed on a scale big enough to magnify
every detail—Magnified, details become important enough
for expert individual attention.

Scientific Management is possible under these condi-
tions.

“Efficiency” obtained by Centralization also means
“Reliability.”

The same attention to detail that eliminates waste pro-
vides insurance against mishap. The big plant is sur-
rounded by all the safeguards that science has devised.
It is reliable.

“Centralization” is responsible for power-service. Ex-
pert advice and assistance are now available to the con-
sumer of power.
You can call upon trained power specialists for aid in
obtaining the greatest efficiency for least money in your
institution.

You can know what your power costs, instead of hav-
ing to guess at it.

You can pay for what you use—no more—
You can be relieved of all power-worry—

You can increase or reduce your power-bill as your
business demands—and pay less.

Let our engineers give you specific reasons why Cen-
tral Station Electric Service is “The Power That Pays.”
