His worship now says he will oppose the granting of the application before a decision has been given as to the right of the city to expropriate the plant. Should this be granted, he would have the question submitted to a vote of the people, and should an affirmative decision be given, he would press for the immediate taking over of the plant-

This would dispose of the question of new stock, as the city could Itself carry out any extensions needed. The operation of the plant he would have placed on an independent basis. allowing the city council to have no

power to interfere. The mayor told The World he would apply this principle to every utility that might be brought under the control of the municipality, and cited the aldermanic interference with the water rates that had resulted in their being cut in two, while the service since been starved as a result. The mayor also gave the opinion that the time would soon arrive when members of the board of control should give their whole time to civic

## Two Million Dollars Thrown on the Dump.

That is approximately the value of lew-grade, non-shipping ore cast aside by the SHIPPING MINES OF COBALT during the past twelve months. Ore running less than 100 DOLLARS per ton in value cannot be

shipped with profit. TOO MUCH RUCK. The charges for freight, sampling, smelting and handling eat up the profit. Then too, there are good values in the vein reck in the drifts (tunnels), which is not removed for the same reason.

CONCENTRATION

All this rock can be treated by concentration; which briefly is simple process of crushing, grinding and separation of the rock from the mineral. IT'S NO EXPERIMENT. Concentrators are operated at all mining camps. The profits of a CUSTOM CONCENTRATOR ARE VERY LARGE. Ores from the various mines are treated at a price per ton or the DUMPS are bought outright."

WE HAVE UNDERWRITTEN AN ALLOTMENT OF THE CAPITAL

BAILEY COBALT MINES, Limited

WHICH IS NOW OFFERED TO THE PUBLIC AT 35 CENTS A SHARE

We recommend this stock to our clients and to the public in general The men who will have charge of the "Bailey" affairs are well known, successful mining men. Mr. R. Arthur Bailey, of Detroit, Mr. F. L. Cody, of Cleveland (connected with the Rochester-Codalt and Cleveland-Cebalt mines), Mr. D. F. Hulbert, of the Silver Queen, and Mr. Louis F. Newman, of New York. Property of the Company, 220 acres, including the well-known BAILEY mine (40 acres), adjoining the Big Pete; then the GLEASON (20 acres); the POWELL (40 acres), and an unnamed claim (40 acres) in Coleman, making-

140 ACRES IN COLEMAN TOWNSHIP

Also 40 acres in Lorraine, adjoining the Abitibi, and 40 acres in Bucke, near the Green-Mechan—A TOTAL OF 220 ACRES of valuable minng properties. THE BAILEY IS A SHIPPING MINE-having already shipped one car of rich ore. The Gleason and the Powell, as is well known, are proven rich. The public has never before been invited to subscribe for stock in a shipping mine in Cebalt at 35 cents a share-This is a most fair proposition.

COBALT SHARES ARE DOWN

It's a good time to buy. Buy Nipissing and Bailey Cohalt. They are the best things on the list at the price. Get in early on Bailey. The present price is only a little above underwriting figures. See circular for more particulars describing the properties and plans of Company. Call at our Office and see some silver from the Nipissing
