

Mothers are reaching out for the boys clothing having the very points we have incorporated in our fall stock. (To women of taste our clothing will appeal.)

It is masculine in style -not girlish. It is becoming to boyish figures -not clumsy. How many men can appreciate these

points? But all mothers understand and realize the superiority of our suits at a glance.

We've prepared some specially nice suits in Brownie and blouse style at 3.50 and 4.00 for boys age 4 to 9.
For the bigger boys 5.00 buys a handsome suit—plenty of lower-priced ones, too, are here for your selection.

Our two stores in the city, supplied with every modern convenience and gentlemanly clerks, are ready to show the latest fall styles, whether you are buying or merely taking a look around.

A Bullet in His Hip.

A shooting accident took place at Mount Hope this morning, when Leigh Curtis, aged 16, son of Ald. George Curtis, of Simcoe, received a 22-calibre ball in his right hip. The lad was brought to Dr. Kittson's surgery, where the wound was temporarily dressed. The injured boy was then taken to the City Hospital, and this afternoon Dr. E. B. O'Reilly and Dr. Kittson removed the ball.

Young Curtis was wheeling along the road, and was unfortunate enough to be the target for a young man who was shooting birds.

A New Industry. Contracts have been let for the construction work on the building to be temporarily occupied by the Edgerton Storage Battery Company. The structure, which is 75x125, one storey high, will be located east of the city limits, at the corner of Lottridge-street and the Grand Trunk Railway. The building will cost about \$6500. The contracts give but one month for the finishing of the work.

May. The building will cost about \$6500. The contracts give but one month for the finishing of the work.

As soon as the business is in running shape another building will be erected for a main factory, and this one will be used as a storehouse. The company will shortly be capitalized at about half a million dollars and has work now ahead sufficient to guarantee its success. It will employ a large number of hands. It is the intention of the company, which has a large factory in Philadelphia, to use the Hamilton works for its export business. Already orders are in hand for \$50,000 worth of storage batterles for the Argentine Repubilic, and these will be made here.

The zinc that will be used in the construction of the batterles will be supplied by the Hoepfner Refining Company, whose factory is located close by.

A Sign of Vigor.

This spirit of self-reliance, and of self-dependence, is the best and surest sign of the daily, increasing vigor of national manhood. History tells us that the British Empire has been created by war, and this fair Dominion of ours is the outcome of successive wars and long and weary struggles with antagonists' nature. It is a truism to say that we must be prepared to hold by the sword.

In the second place they exist as a means

als and nations successful and great.

Our Noble Pastimes.

Our pastimes, our cricket, our football, and our manly games may, and undoubtedly have, done much for the manhood of the Empire. There is, however, something greater, higher, nobler, in a nation's life which athleticism does not teach. It is the profession of arms when undertaken upon its true lines, which inculcates the spirit of discipline of mind and body, the subordination of self to a noble end, the love of country and honor to God. These are the qualities which constitute the warlike strength of a people, and become the true refiex of their moral and mental vigor.

Gentlemen, in conclusion, I shall always recall with pride and pleasure the manner in which you have received Mrs. Hutton and myself. I thank you in the names of my comrades, the officers and all ranks of the Canadian Army, for the honor which you have done my humble self to-day as their general and representative. I have much pleasure in declaring this Exhibition open, and pray that Providence may grant every success and prosperity to this, the 21st anniversary of the Annual Toronto Exhibition. [Cheers.]

The place is delightfully cool and will seat rany hundreds of people. Mr. Clegg says he is determined to make his place the most popular on the grounds, and judging by the crowds that dined there yesterday he is certainly going the right way about it.

A Popular Dining Hall. One of the most attractive and prettlest spots on the grounds is the lunch counter and dining hall of Mrs. Marshall. For eighteen years she has catered to the wants of the visitors, and a person has yet to be found who has not been more than satisfied after leaving her hospitable dcors.

"The many old faces that we see year after year in our dining hall is proof positive," said the manager of the Harry Webb Co., "that our effort to supply a high-class med is appreciated. This year we are better prepared than ever to give a good prompt service and have also secured the assistance of several additional chefs. All we ask is a trial and the result is bound to be satisfactory to the visitor."

The Doherty Organ Co. The Doherty Organ Co.

A decided feature on the grounds and one that is appreciated alike by lovers of music and others is the exhibit of the Doherty Organ Company. The instruments are spiendid types of Canadian workmanship, and from a musical point of view they are par excellence. The phenomenal success that these instruments have met with is due wholly to their superior construction. Skilled mechanics and musicians only are employed by the company, and the result is an article positively without a peer.
