## PEACE TALK TO CONTRARY CZAR IS STILL FOR WAR

It is Suggested That Togo Se Russia by Threatening to Invade the Baltic.

St. Petersburg, June 4.—The American embassy was the centre of interest yesterday on account of President Roosevelt's tender of his good offices in the direction of peace. Officials of the foreign office adopted a non-committal tone regarding the prospects of action on it, saying the decision rested solely with the emperor, who up to the present is firm for war.

In the course of a conversation between the Associated Press and one of the emperor's most influential ministers, the minister declared that the emperor had not yet changed his position with regard to the prosecution of the war. On the other hand, he said, the emperor's situation could not be made much worse.

In Manchuria, the reinforcement of Gen. Linvitch has been going on without a pause. Togo for the Baltic. Paris, June 4.—A novel method of influencing peace is suggested in high quarters, namely, that Russia permit Togo to have further occupation in the far east, may sail for the Baltic Sea.

Financial influences are again said to turn the tide towards peace. The far east, a banker who is a member of the syndicate which handled the recent Russian loan, has been asked to give his credit for it. It is believed it will compel her to make peace. The period of hesitation, whether it is peace or war, Russia must have more money, but it will be conceded that the condition to any further loan from here that peace be made. With peace assured Russia's financial position is at least equal or better than the last loan.

ONE BOX OF  
DOAN'S KIDNEY  
PILLS  
CURED DROPSY.

Dropsy is not a disease in itself, as many people believe, but is an evidence of very severe kidney trouble. Dropsy is caused by watery particles oozing through the walls of the arteries when they are distended by unusual pressure, which can only be caused by obstructions in the kidneys. The symptoms of Dropsy are puffiness under the eyes, swelling of the feet and ankles, urine changed in character and appearance, smothering feeling from exertion or excitement. The only rational method of treating this disease is to reach the kidneys and restore them to a healthy condition.

The most successful remedy for this purpose is Doan's Kidney Pills. Read what Miss Agnes Creelman, Upper Smithville, N.S., says of them:—"I caught a cold, which settled in my kidneys, and turned to dropsy. My face, limbs, and feet became bloated, and I pressed my finger on them it would make a white impression that would last fully a minute before the flesh regained its natural color. I was advised to try Doan's Kidney Pills, and found by their use that I was cured in a very short time. I have never had a very trouble with it since."

Price 50 cents, per box, or 3 for \$1.25. THE DOAN KIDNEY PILLS CO., TORONTO, ONT.

## HYDE AND ALEXANDER MEET ATTEST TURN OF THE EQUABLE

Unit to Build Up Insurance Business, Which is Dropping Off by Millions, Tis Said.

New York, June 3.—Overshadowing in interest all the other sensational developments in the affairs of the Equitable Life Assurance Society, attendant on the rejection by the directors yesterday and the publication to-day of the report of the Frick committee, comes an announcement that the controversy between President James W. Hyde and Alexander Meekins, who is at an end, and that these two gentlemen have concluded a defensive and offensive alliance. The basis of this agreement is reported to be that they in future devote themselves to the interests of the insurance and keep all Wall-street entanglements out of the affairs of the Equitable.

Mr. Alexander Meekins, who is in conference to-day with certain of their friends and advisers for more than two hours, is reported to have received the unexpected turn of affairs, the general inference being that it portends a very different effort to reconcile the interests of the warring factions and re-establish the direction of the society on a basis acceptable to all.

Counsel for Mr. Hyde issued late afternoon a long statement calling attention to the fact that Hyde had repeatedly offered to trustee his stock, and had for many weeks urged the board of directors to place it at the head of the society.

False Says Alexander. Mr. Alexander's statement declares the Frick report "in many respects untrue," and said it was based upon "incomplete and false information." He also accused of concealing from the board the irregularities of which complaint had been made. He defended the committee's report as "a fair and just statement of the facts." He also charged with having encouraged the practices which now are being followed by the committee. "I am charged with having encouraged the practices which now are being followed by the committee," he said. Platforms are Too Low.

One Reason Why Band Music in Parks Doesn't "Carry."

Bandmaster Waldron of the Grenadier Guards, in a letter to the Times, suggests in reference to a subject which, in fairness alike to the city bands and to the immense crowds which enjoy the music, is a very important one. He says: "I have no doubt it is substantially correct, the chief reason, apart from the fact of the music being played on a platform, is that the platform is too low, especially for men sitting. Raising the platform to about 5 ft. 6 in. or 6 ft. 6 in. would be a great improvement.
