Radical Conditions Have Been Submitted by the Laborers' Organization—Immediate Release of Political Prisoners and Demobilization of Military Forces Insisted Upon by the Strikers.

Dusseldorf, April 6.—Radical demands have been formulated by the workmen's organization here in its political general strike. The demands include the immediate release of political prisoners, the elimination of class justice, demobilization of the military forces, coalition with the Russian Soviet Government and the surrender of the Ebert-Scheidemann Government to the Council of the Republic. The threat that the newly-arrived supply of food from the Entente sources would be withheld in the event of a strike is met by the counter threat that the men will not resume work until the food is forthcoming. Thus far the number of men here have voted to quit work totals 14,800, while the number opposed to stopping work is 5,300.

Advocates of Soviet Form of Government in Bavaria Are Meeting with Strong Opposition

Berlin, April 6.—There has been no doubt news here concerning the situation in Munich since the receipt of the early evening dispatches from a Soviet government has not yet been proclaimed. The Bavarian Diet, it is true, can scarcely meet on Tuesday, as had been the program, because it is not assured of the support of the troops in Munich, which were reported to have expressed sympathy with the Soviet cause, but to have declared their intention to maintain neutrality, although they would not protect the Diet building, which is armed with machine guns.

Proponents of the Soviet idea, however, have met with great opposition on the part of the bourgeoisie on the one hand, and the peasants on the other hand. The peasants hold the trump card in their control of the supply of foodstuffs, which they have declared they would refuse to deliver in case a government was proclaimed. The unexpected opposition to the establishment at present of the Soviet Bavaria's most radical independent, Dr. Levin, has not been without its effect, as he would great influence in certain radical circles. The peasants' league, likewise opposing the plan with increasing vigor, and it is both politically and economically a strong factor in Bavarian life.

BAVARIA MAY DECIDE TO SEPARATE ITSELF FROM MUNICH CITY

Paris, April 7.—The agitation of the extremists in Munich and other parts of Bavaria is arousing the opposition of the moderates, and the Bavarian democratic party and the peasants' league, according to reports reaching here, have appealed to the bourgeoisie and peasant officials to rally with the moderate workers and protect the conquest of the revolution against the arbitrary methods and violence of the communists. The appeal concludes: "If the hotbeds succeed in maintaining themselves in power, there remains but one solution for Bavaria—to separate itself from Munich."

EX-KAISER AGREED TO ABDICATE ONLY WHEN A CIVIL WAR SEEMED INEVITABLE

Count Schulenberg Tells of Conditions Preceding Wilhelm's Flight.

OUTLOOK WAS HOPELESS

Von Hindenburg Advised Former Emperor To Flee To Holland.

Berlin, April 5.—While admitting there was a difference of opinion among German generals as to the practicability of fighting to maintain the imperial regime in November, Count Schulenberg, commander of a guard regiment, maintains in an article on the abdication of former Emperor William, published in the Freiheit, that there were enough loyal troops to have marched on Alexander von Hindenburg and Gen. Groener, Prussian war minister, would not assume the responsibility for such a move, however, arguing that things had gone too far, and that only the abdication would avert civil war. The emperor, he says, was emphatic in declaring he did not desire a civil war, and he would not call upon the army to engage in such a conflict.

"We have had 40 years of protection, and all our progress has been made in spite of it," he said. "Now we think it is time we had our innings. I believe that a dozen commodities on the free list, including open market and free food, would satisfy our people for the present, anyway. The West thinks that if nothing is done this year, nothing will ever be done. The people think it is time for a show-down, and they are unanimous."

[Special to The Advertiser.]

Toronto, April 7.—The Toronto Star dispatches the following Ottawa dispatch: "There will be an election this autumn, and it will cause as general a commotion among the parties as the election of 1917. At that time conscription was the issue. Now it will be the tariff. This definite prediction was made today by a prominent figure in Ottawa, a public man of national reputation. Although his view is by no means accepted universally here, there is a growing feeling that the tariff struggle, as it is developing both in Ottawa and throughout the country, will run into the thousands of jobs which will be lost through the tariff struggle, and that sort of issue which nothing but an appeal to the country will open.

The section seeking to bring on a constitutional amendment is the "group" of the Provincial Conservative party, and they are working to bring the Legislature around to their way of sizing up the situation.

The resolutions will be presented to the peace conference on Tuesday.

On the other hand, the Canadian Manufacturers' Association, the Canadian Industrial Reconstruction Association and affiliated bodies are also stiffening their opposition.

Some people believe agriculture generally might be satisfied for the present with reductions or elimination of the duties on specified articles used in farming, without demanding a lowering of the tariff all around. Even if the duties on the tariff are lowered, it is determined in close order, as in 1911, to an "entering wedge" and to change the method of a single member of the Government, undoubtedly would be to arrange a compromise and present a budget which would be broadly acceptable, at least as an interim measure, but the possibilities of such a compromise are fading into the mist.

Sir Thomas White and the majority of the cabinet are not thinking of the death of Hon. J. H. Hanna, any changes drastic enough to appeal, even temporarily, to the low tariff men.
