Chicago Cattle.

J. P. Bickell & Co. say at the close:
Wheat—Higher. Better foreign cables,
both for futures and cash, and a
firm opening and higher market thru-
out the session, shorts finding it rather
difficult to sell, and only possible on
an advancing market, session closing with
a gain of about 1/2c.

Altho receipts continue liberal, domestic
cash demand remains excellent, and for-
eign interest is increasing, which all go
to create substance for the enhancement
of values.
The market will probably experience
profit taking and short selling, creating
temporary declines, but we continue to
recommend purchases at moments such as
these.

Barlett Patten & Co. (Beaty & Glasco)
wire:

Wheat—Market opened strong and re-
gistered another advance. While the mil-
lery and jobbers of flour remain un-
changed, the market will probably show
strength. We believe, however, that even-
tually our prices will have to be adjust-
ed to an export basis.
Corn—The market was dull with a small
trade and without special feature. Con-
ditions remain unchanged.
Oats—The market opened steady, but
the undertone was weak.
Rye—Lyman & Co. wired R. B. Hol-
den at the close:

Wheat—The action of the market clear-
ly confirms the opinions of the best pos-
sible traders that wheat is the dollar mar-
ket before long. They have tried every
hard for some days past to break the
market, but without success.
Corn—Shorts were the chief buyers. We
felt the long side on breaks.
Oats—Quiet. Cash houses principal sell-
ers.

a cent advance in wheat prices to-day
save evidence of the suspicion among lo-
cal traders that Chicago interests who
presented last week's bill movement were
again buying wheat. Sentiment was also
influenced by stronger outside markets
and final prices showed 3/4 net rise: Dec.

\$1.08 1/2 to \$1.09 1/2; closed \$1.08 1/2; May,

Montreal Live Stock.

MONTREAL, Oct. 6.—(Special).—In lo-
cal export live stock circles business has
been rather dull of late on account of the
continued discouraging advices from all
quarters of the world, and the sharp decline
in prices during the past three weeks for
American, Canadian and the prices
that were realized noted losses by ship-
pers of 10 to 15 per cent on their ship-
ments. The above has tended to check
the demand for ocean freight space to
some extent, but it is not an important
change. All the Liverpool sales for Octo-
ber have been engaged at 32s 6d, and 33s
per cwt. of London, and the Glasgow sales
are only being let from week to week at 32s 6d, and the Man-
chester sales at 32s 6d to 33s.

At the Canadian Pacific Live Stock
Market this morning the offerings com-
prised 1200 cattle, 400 lambs, 800 hogs,
and 900 calves. The feature of
the trade continues to be the weak un-
dercurrent to the market for cattle, on ac-
count of the large supplies coming for-
ward, and prices declined 1/4c per lb. As
the quality of the stock was generally good
there was a good demand at the above
Canadian prices. Choice steers sold at 45c
to 46c; good, at 44c to 45c; medium, at 43c
to 44c; fair, at 42c to 43c; inferior, at 41c
to 42c; good bulls, at 35c to 36c; inferior
at 34c to 35c, and canners, at 15c per lb.
Butcher's stock of sheep was not large
than they have been of late, and in con-
sequence a steady feeling prevailed in
