He later saw him jump on a sloven and in doing so break one of the stakes near the back of the wagon. He then arrested him. The defendant said he knew the man who was driving the sloven and jumped on it; the breaking of the stake was an accident.

A WONDERFUL FIVE REEL PRODUCTION AT EMPRESS

"In the Days of the Thundering Herd," a Great Vivid Portrayal of Old Western Days

From my view point, after viewing the picture twice I can say that it is the five reels taken with action and radiance with atmosphere of the old days with a vividness that has left one in a state of wonderment of modern days of the old Santa Fe trail and the long winding line of "prairie schooners" headed toward the setting sun. We see them making camp for the night, and the running fight between the Indian and the white man, who soon makes known to her people the presence of the white men.
