BOYS MUST NOT CUT INITIALS OR OTHERWISE DEFACE PEOPLE'S HOMES

A Warning in the Police Court—Case of Theft on Government Steamer

In the police court this morning Magistrate Ritchie said he had received several letters from people complaining of boys cutting their initials on houses and marking on walls and on the sidewalks with chalk. This practice was very annoying and he wanted to give fair warning that anyone reported for this would receive the full punishment which would mean that any boy caught defacing property would be sentenced to two months' imprisonment and, besides, the boy's parent would be fined \$8.

Moses White was arrested here in 1912, about seven o'clock charged with stealing a pair of trousers from a cargo of the government steamer, the Keweenaw. The arrest was made by Sergeant Finley and Policeman Watson. Mr. Kenney complained that he missed the clothing from his state-room and that he suspected White, who was one of the ship's crew. White was found in the clothing in the state-room and he pleaded guilty. He said he belonged in Maine, but had been here for about four years. The magistrate said he felt inclined to discharge the prisoner, as more care should be used in selecting men for the government steamers. The prisoner was remanded. Three prisoners were charged with drunkenness.

BRAY HEAD ARRIVES

Kwarra Taking More Than 100 Automobiles to South Africa—Other News of Steamers

The steamer Bray Head, of the Home Line, arrived in port this morning from Glasgow via Sydney and docked at the intercolonial pier, where she will load cargo for Dublin. She brought a cargo of ingot moulds and fire brick for the Dominion Iron & Steel Co., which was discharged at Sydney and the steamer came to St. John in ballast. The trip from Sydney to St. John was made in good time as excellent weather prevailed. Captain Butt is in command of the Bray Head. She will commence to load cargo this afternoon.

The cargo taken away by the Royal George, sailing last Thursday, was valued at \$221,046, of which \$85,986 was the value of the domestic shipments and \$135,060 foreign freight. Included in the cargo were 2,000 ingots of aluminium, 2,000 sacks of flour, 500 bags of flour, 500 boxes of cheese and 14,500 packages of lead.

Steamer Kwarra will sail this evening for tomorrow morning for South Africa with a full cargo, including a large shipment of flour and more than 100 automobiles.

LITTLE NEW YORK BLOCK OF LAND IS SOLD FOR \$2,250,000

Works Out at \$307 a Square Foot—Boston Parcel Worth \$300 a Foot

New York, Dec. 22—A new record price for New York city land is established in a transaction just completed for a plot of 73.4 feet by 100, located at Fifth avenue and Forty-second street. The price was \$2,250,000, which is equivalent to \$307 a square foot.

Statisticians figure that if this record value ruled throughout Manhattan Island its 21.9 square miles of area would be worth the stupendous sum of \$187,584,846,720. This exceeds by more than \$80,000,000,000 the total wealth of the United States.

The wealth of Great Britain, France and Russia, with an aggregate of \$183,000,000,000, would just about buy the island if that figure ruled throughout its entire area.

Boston, Dec. 22—The southwest corner of Winter and Washington streets, Boston, 1935 square feet, is assessed at \$899,000, or \$465 a square foot. The owners are said to have frequently refused higher figures than the city's valuation on the property.

ST. MALACHI'S HALL

School Plans Recall Old Days When Catholic Church Was There

The Times' announcement of the plans for a new school building in Cliff street and the remodeling of or replacing of St. Malachi's school by a new building has aroused much interest.

While the present St. Malachi's is not in itself a building of great historic interest, yet it perpetuates the memory of the building which it replaced and will occupy an important place in the annals of the city. The existing building was erected after the fire to replace the wooden structure which was destroyed with so much of the city in 1877.

The old building was notable as practically the first place of worship for the Catholic residents of St. John. It was erected between 1820 and 1830, several years being devoted to the work and was built to be used as a chapel. Several Catholic families were included among the Loyalists who landed here in 1783, and at the time of the erection of the chapel there were twenty-four Catholic families. This small number was unable to bear the whole expense of providing themselves a place of worship, and it is a tribute to the broad-mindedness which marked the people of this city that was the contributions of Protestants which made the building possible.

For many years it was the only Catholic place of worship in St. John and the surrounding district and the devoted worshippers were walking each Sunday from as far away as Mispece and Musquash to attend Mass, Carleton people crossed the barrens, Carleton people and the church became stronger and more wealthy the erection of St. Peter's and the Cathedral were undertaken and the old chapel building was given over for the use which mark the present building and became a centre for Catholic schools and societies.

When the old edifice was destroyed by fire the new brick building was erected and has played an important part in the social and educational life of the city ever since.

Boy Says He Saw Theft of Money From Dye Works

A boy, arrested on Saturday charged with stealing \$14 from the American Dye Works and also with obtaining under false pretences a ticket punch valued at \$2 from Robert J. Logan, was before Magistrate Ritchie this morning. The boy, who is fourteen years of age, pleaded not guilty to the first charge, but said he was guilty of the second. In answer to the charge of stealing the money he said he saw another boy take the money from the till. He was remanded till the other boy could be brought to court.

The boy told the magistrate that he attended Centennial school and was in the fourth grade. His father said that the boy had always been good until he met the companion who, he said, stole the money, and that since then he could not do anything with him and had tried frantically to keep from going with the other boy.

Magistrate Ritchie said that times had greatly changed since a few years ago when such a thing was never heard of as a boy going to school being arrested for theft, while today there were more boys in the Industrial Home than ever before.

This fact was the fault of the parents in nearly every case, as most of the fathers and mothers did not know where their boys were when away from home or what company they kept.

John Chapman and Orna Bishop, of Moncton, came to about twenty-one years of age, who were arrested on Saturday on charge of stealing small articles from the store of F. W. Woolworth & Co., in the store.

King street, were brought before Magistrate Ritchie in the police court this morning and were remanded. The men, who had been drinking, entered the store about ten o'clock on Saturday night and caused annoyance to the clerks and customers.
