LABOR WORLD

News and Views of the Ever Advancing Army of Workers.

BY EDWIN

Rev. Mr. Gilroy made one of the best addresses it was ever my pleasure to listen to. It was at a meeting in the interests of Mr. Jas. Simpson in the East Toronto campaign. Oh, that there were a few more divines built of like material. He has a thorough conception of the present condition of the human family. He has also the happy faculty of putting them in such a shape that his hearers can very readily understand. If I were to hear a few more such as he it would be a pleasure once again to stand up to the church that is supposed to stand up for truth and righteousness in all things. This world badly needs an increase in the number of such men as the Rev. Mr. Gilroy and Duncan Clark. If the pulpits were filled with such it would not be long before the bad influence of the moneyed few in the church would be destroyed and the workers would be only too willing to return again to what should be the house of refuge from the tyranny and greed of those who have crowned money as king in this world. These men were inspired by the pleasurable influence of nature over the mind of the writer while sitting under its influence on a beautiful Sabbath evening in the month of May, when, if things were not such as they are in the church he might have been one more in swelling the congregation of some earnest and conscientious divine. Does it not seem to you that there is a monstrous condition in the world when the arrangements are such that fully one-half of the people upon this earth of abundance for all are made to live such as no orator no matter how endowed he might be with eloquence, could find language to depict. Possibly one-quarter of the people live in comparative plenty, while the other quarter live in perpetual affluence by a systematic robbery of fifty per cent. of the people.

If the great packing concerns at the Union Stock Yards do not accede to the demands of the striking teamsters within a short time, it may result in a general stoppage of 40,000 employees at the yards. Already, several hundred persons have quit. The situation is becoming so involved that it is apparently, will be impossible for the union men to remain at work much longer, without violating the rules of the Chicago Federation of Labor, under which they hold a charter. A strike among the beef butchers or hog butchers or any other set of men, upon whom hundreds of others are dependent, would cause a complete tie-up in every branch. This is said to be not unlikely, because, in many instances, union men have been asked to do the work of the strikers, and have been discharged for refusing. Furthermore, union men are forbidden to handle goods that have been prepared by non-union men, and it is said to be nearly impracticable for the men to continue work without doing this.

The Journeymen Bakers and Confectioners' International Union of America is a body of bakery workmen which has been in existence since 1886, and has at present over 260 branches throughout the United States and Canada with a membership of over 12,000, constantly growing in numbers, strength and power. The objects, to quote from its constitution, are: The promotion of the material and intellectual welfare of all working people in the baking trade by organization and education; by reduction of the hours of labor, by gradually abolishing such evils as may prevail in the baking trade; by establishing labor bureaus wherever possible; by assisting members in legal cases in matters concerning the union and by the abolition of night work. A sick and death benefit fund has been created in connection with the international union, and in case of sickness a member is entitled to a benefit of \$3 per week; the death benefit is \$100.

The machine has taken an active part in almost every craft. It was even attempted in shaving. Realizing that a world of time is lost in shaving, a Parisian barber recently invented a patent electric quick-shaving machine, consisting of a number of safety revolving brushes and a small lathering brush, whereby shaves were effected that were really quick. All went well till a customer who had been operated on discovered that the whole of the lower part of his face had turned a bright blue. Some twenty other customers then appeared who stated that they had experienced the same phenomenon, which was due to electric burns. As a result the unfortunate barber has now been served with seventeen summonses for damages. It is now his turn to look blue.

The Central Labor Union, of Holyoke, Mass., at the request of the postal clerks' union of that city has passed the following resolution regarding trading stamps: "The Retail Clerks' Union after due consideration has taken a decided stand against the system of trading stamps, and calls upon all union men and adherents of home trade principles not to patronize any merchant giving trading stamps."

The T. Eaton Company Refused to pay Union Wages to the Printers employed in its Composing Room. It is a Union Crusher.

The Gurney Foundry Company is in the same class with the T. Eaton Company.

Workingmen, patronize your friends and never forget your enemies.

On May 1 the Clothing Cutters' Union, 26, of St. Louis, declared a general strike to enforce the demand for the 8-hour work day. The Schwab Clothing Company, Schmitz & Schroeder Clothing Company, A. Siefert & Company, and the St. Louis Pants Company signed the 8-hour petition. Seventy-one members employed in the other shops are involved in the strike. President Largent was on the ground, and conducted negotiations. The Marx & Hass Jeans Clothing Company settled its differences with the Cutters' Union, after failing to secure the injunction applied for.

The union of junior machinists recently formed in Chicago is proving a success more than 100 boys having already joined. Similar unions have been organized in New York, Pittsburg, Milwaukee, St. Louis, Kansas City, Omaha, San Francisco, Cleveland and Philadelphia. Boys of any age who have worked six months at the trade are eligible, and the older men say that the boys who join and take an active interest in organizing work are certain to become good unionists when they become journeymen.

An attempt is being made through the medium of the press despatches to alienate public sympathy from the striking miners by sending out false statements of the situation and the doings of the leaders of the men. This is the old tactics over again, and we hope the people will treat them as they deserve. Give no credence to them.

North American Life Assurance Company

To be out of work is generally considered a misfortune, as it frequently causes more or less discomfort in the home, but many a man can look back on his life with genuine gratitude for the chance or accident, resulting in his loss of employment. An active or energetic man who is thrown out of work will generally, if he is in earnest, be able to find something to which he can turn his hand, which will make up in part at least for the loss of his regular employment, and not infrequently it is found that the chance employment thus picked up has resulted in securing better and more permanent and profitable work than that which he thought himself unfortunate enough to lose. It is surprising how many fields of occupation are open to a man who is in earnest about getting work.

Perhaps no business has in its employment a larger number of well-paid and satisfied men, who have originally been mechanics or workmen, than the business of life insurance. The management of every company in this country can point with admiration to some of their best and most successful men, who joined the ranks of life insurance workers merely to fill in time while temporarily out of work, but finding the business pleasant and highly profitable, have entered into it with a determination to succeed and make it their life work in the Provident Branch of the North American Life Assurance Company, managed by the National Agency Company, such men are found in large numbers throughout Ontario and Quebec, and are counted among the most successful of the Company's Managers, Superintendents and Collectors. Any earnest intelligent man, who is out of employment, is urged to call at the Head Office of the National Agency Company and obtain particulars and information as to how he may profitably employ his time in the business of life insurance, on the easiest and most attractive plans, that have ever been introduced into this country, for insuring men, women and children for large or small sums. Men are paid right from the start in this branch of the company's business and several important positions can now be filled by suitable men. The Head Office of the Company is on the second floor of the North American Life Building, 112-113 King Street West, and any man wishing employment, may be sure of receiving substantial assistance from the company, that will enable him to get established in the business. If you are out of work or wish to permanently better your position, you are cordially invited to apply at the company's offices at the above address.

The National Agency Co., Limited
MANAGING AGENT
North American Life Building
112 to 113 King St. W.
TORONTO, CANADA

The Carriage and Wagon Workers are still fighting for their rights. They are making a grand fight of it, and should receive the support of all the workers in this city. Such conditions as they have been working under should not be tolerated by any class of men. Their wages were away down below the living rates and in this attempt to better them they are bound to succeed.

One of the old timers of old 91, Mr. J. B. Anderson, now of Toledo, was elected a delegate to the next I. T. U. Convention. His many old friends in Toronto will be pleased to learn that for the first time in the history of Toledo Union the delegate for I. T. U. honors was given the plumb without opposition and he was an old-time Toronto boy, at that.

The latest circular issued by P. M. Draper, secretary of the Dominion Trades Congress, has the following as the motto of the Congress: The Canadian laborer's hope—a central head seeking legislation, arbitration, conciliation and the enforcement of labor laws."

The Dominion Transport Employees, in Montreal, after going on strike were granted their demands this week by the company. They were asking for \$1.50 per day and the company conceded their demands after the men had gone out on strike. By the settlement the men are also given overtime rates for work after the regular hours.

Mr. Studholme is in Ottawa at the present time and reports that he is meeting with success all along the line in his fight for the Moulders, Polishers and Stove Mounters against the Gurney Foundry Company. This firm is feeling the effects of Mr. Studholme's work.

The International Painters' and Decorators' Union paid out to widows and orphans of deceased members the sum of \$125,000 from 1888 to 1902.

J. Ouston, the efficient Treasurer of the Stereotypers and Electrotypers' Union, was elected delegate to the International Convention of that body.

Trades and Labor Council

Interesting Meeting that was Fairly Well Attended—Pointers for All Workers to Remember.

The regular meeting of the Trades and Labor Council was opened on May 22nd with Vice-President Cox in the chair. The minutes of previous meeting were read and approved. Delegates Morton, Douglas and Gavan were appointed a Credentials Committee and reported the following credentials, seating the delegates named:

Metal Polishers and Buffers—Eugene Oakley, in place of John Fiddis. Trunk and Bag Workers—A. Stewart, J. Dunlop and J. Murphy. Press Feeders—Thos. Morton, James Shaw, J. Hinchcliffe.

The following statements were made by the delegates:

Delegate Wilson gave a statement of the T. Eaton strike. Everything was reported in favor of the Printers, who were in the fight for a recognition of the fair wage question. The Moulders delegate kept the Gurney fight before the delegates.

The Shirt Waist and Laundry Workers expect to have the label in use in a week or so.

Delegate Kennedy for the Cigarmakers reported on the Montreal strike. The Carnegie Cigar, made by J. Hirsch's shop is one of the strike shops and the name of the cigar should be enough to disgust any workman. They not only give us an unfair cigar, but they are also offering premiums with it. The retailers get something for selling it and the consumer is offered an inducement to smoke it.

Delegate Gardner for the Bakers reported the granting of their demands by the bosses and asked the delegates to still remember the label.

The Brass Moulders reported Dean Bros. on the unfair list.

Communications were received and dealt with as follows:

From Brotherhood of Railroad Trainmen, Queen City Lodge, stating that they would have delegates at the meeting on June 12th.

From Wainmore Bros. & Co., re trouble over unfair bottles was referred to the Label Committee.

From St. Thomas Trades Council, returning thanks for donation.

From Texada Miners' Union giving details of proposed importation of alien workmen and stating that arrangements were made at the hotels on Texada Island for their accommodation.

From Iron Moulders Union, No. 331, Moncton, N. B., appeal for assistance in their fight with the Record Foundry & Machine Co., Moncton, N. B. Referred to Label Committee.

From the Oakville Navigation Co., re unfair man reporting that he had joined the union. The management of the boats believes in unionism.

Niagara Navigation Co., to the effect that he had no objection to union men, but did not wish to coerce any man.

From the Marine Engineers stating that the White Star boat is fair and the Niagara Navigation Company is also on the fair list.

From Allied Trades and Labor Association of Ottawa, asking a copy of the Labor Day Association agreement with Exhibition. Referred to the delegates.

From Trades and Labor Council of Calgary as to the Tudhope Carriage Works being unfair. The answer sent was that they were unfair and had disrupted the union.

From the Trades Council of Peterboro, re Gurney Co. strike; was published in last week's issue.

From the Board of Trade submitting resolution sent to the City Council, re cutting down estimates of Technical School Board. Filed.

The Municipal Committee had no report.

The Label Committee's report was read by Secretary Kennedy and adopted as read.

The Educational Committee's report was read by Secretary Ward and adopted as read, after a motion to refer it back was defeated.

The Organization Committee's chairman gave a verbal report of their doings for the past two weeks. The Secretary by resolution was instructed to ask Controller McMurchie to move to reinstate in the estimates the original sum asked on behalf of the Technical School.

The Council adjourned at 11 o'clock.

If not misinformed, we understand that the city of Toronto pays Magistrate Denison \$333 1-3 per month as police magistrate, not as Lieut.-Col. George Taylor Denison, the self-appointed apostle of imperial federation, who is now tuff-hunting previous to the distribution of coronation honors. If some alderman who chances to wake up before the magistrate returns does not stop the payment of his salary you may expect some private individual to apply for an injunction to prevent its payment.

The city has the right to inspect meat and milk and report the results of the inspection. Why not inspect in a scientific way and have analyzed other foods—and drinks also? What alderman has enough nerve to take the initiative now? If none do all will have lost an opportunity. Speak now or don't seek re-election.

The man who takes another's life in the heat of passion is a prince from a moral standpoint compared to the low-lived, cold-blooded sneak that sells you ADULTERATED GOODS, which (represented as being pure and life-giving) will kill you as sure as the highwayman's bludgeon.

Why should a member of Parliament not be a member of Parliament? The real answer, so far as most are concerned, is that he is one now and has never done any good as such.

Why should "Canada's greatest store" that was, become Canada's greatest wreck? Because it ignores the rights of LABOR which PRODUCES ALL WEALTH.
