Then the Guns Began,

The mountain guns came up on their mules-a drove of stupid, uncontrolled creatures, you would have said, lumbered up with the odds and ends of an Iron works and wagon factory. But the moment they were in position the gunners swarmed upon them, and till you have seen the garrison gunners working you do not know what work means. In a minate the scrap heaps had flown together into little guns, hugging the stones with their low bellies, jumping at the enemy as the men lay on to the ropes. The detachments all cuddled down to their guns; a man knelt by the ammunition twenty paces in the rear. "Two thousand" sang out the major. THE CZARINA OF RUSSIA

It has been told that the Czarina of Rus sia is not as popular as she deserves to be among the people of her adopted country For all her gentleness the Czarina is woman of strong character, and she does not hesitate to show her likes and disdisapproval is due. And there is, to tell

of Hesse, and her aunt, the Empress Frederick of Germany, before her, the Czaring is somewhat of a reformer, and a Princoss's adopted people are always apt to resent the new-rangled ways of a foreigner. There are those Russians who speak of her impatiently as "The German," and others who call her "The Englishwoman." Fortunately, the Empress finds every happiness in her home life. The Emperor is simply devoted to her, and knows no happiness away from her side. To see them together you might imagine them an engaged couple. Their three tiny girls are very dear to them, and much of her time is spent by the Empress in the nursery. The flower of the flock, as far as looks are concerned, of the babies, is Grand Duchess Tatiana, the second child. She is a real beauty, with dark pathetic eyes, and wistful little mouth. But the Grand Duchess Olga, the eldest, is such a hearty, merry child, everybody loves her. I have often wondered whether she is destined to be our future Queen Consort. For I believe it is quite true that when she saw Prince Edward of York playing about the gardens at Balmoral with his Russian cousin, the Queen expressed some wish that a la belle Ladysmith, Nov. 16, via Mooi River, alliance might be made in years to come.
