ONTARIUAND QUEBEC

MONTREAL, May 27.-Joseph Lesseri, chief inspector of public buildings for the province, visited the ruins of Metzire at St. Hyradinthe, where the recent disastrous fire courred. He says in 1895 he visited the building, and on his recommendation three separate staircases wave put in to meet such an emergency. He is of opinion that the persons who jost their irres first began by losing their heads in the excitement of the opinion that the fire was incondiary. A sanctuary lamp, which was supposed to have aused the fire, was burning as usual when the runs are exceented from any blance. The jury in the Hammond murder trial tonight brought is a verdict of guility. He was sentenced to be hanged on September list brought is a verdict of guilty. He sake entried and found guilty of murdering his wife by poicening, for the purpose, of obtains insurance.

vide barrack accommodation. OTTAWA, May 29 .- It is expected that next week will be a busy period in parliament. After Monday the house will hold morning sessions. The Drummond County committee will within a day or two submit a majority and minority report.

The public accounts committee will report upon the evidence in case of the Baie des Chaleurs affair, the circumstances of Killam's cows, the Lake St. John appropriation, the circular payments to Commisioner Wilson, now Judge Wilson, and the province of Manitoba bogus prosecution case. There will probably be no report in the Domville case, as he has not appear-

ed to testify, and the matter stand over till next year. BRITISH LUMBER MARKET.

diate regretted. ' Rev. T. H. Bler future, Grimsby-As reported in this correct factors in this movement, the adva-to along the West Coast is another most important of all is to be four fact, that stocks on the stocks of the factors in this movement, the advance in spruce along the West Coast is another, but the most important of all is to be found in it is especially the case with 24,57 whitewood factors. If shippers were to make proposals just now on a reasonable basis they would certainly flud buyers, at any rate among the Humber importers. Quebec spruce, and the better class Rigs stocks are being largely bought at the present moment in this size. These have been offered cheaply, and the Swedish battens are not worth much more in this market. Type-Business keeps very satisfactory, both in prices and volume. Both, too, keep well their excellent position, and while one can hardly expect any great and immediate advance in the latter, yet in the former there are signs of a probable forward movement, one might almost say all along the line. Cer-tainly the higher freights how, current must tend in that direction, spacially taking that together with the large consumption. night.

many. His nephew confirmed what western visitors said about the great advantage of the pork raising industry, and said that he could supply the Middleton factory with 150 hogs per year. Mr. Davison said pork raising was something of a task when the hogs had to be made fat enough to

suit a lumberman, but there had never been much trouble to raise lean ones. It ought not to be difficult to produce plenty of the kind of hogs re-ctired for packing, once the proper breeds are got.

In reply to the Sun's questions, Mr. Davison, who, like every wide awake Nova Scotian in that part of the province, has some interest in gold property, said that a number of mines being worked in his own and adjoining counties were yielding good. returns, as they have been doing for
