UNCLE SAM LOOKS TO ARGENTINE NOW
Resolution in Congress For Reciprocity in Food Products Between United States and Argentine Republic.

Washington, D. C., Aug. 21.—Rep. J. M. Surley of Massachusetts today introduced a resolution requesting the president to direct the department of state to enter negotiations with the Argentine Republic to an agreement looking to the admission free of duty of all food products between the two countries.

Brother Britishers, do you want to get closer to Washington or closer to the Old Land?

New Brunswick Telephone Stock Wanted
We will purchase a limited quantity of New Brunswick Telephone Stock. Persons wishing to sell may obtain best price upon application to

The Government stood not upon the order of their going but went at once. And a good many people think that they can't come back. It's high time for a change, anyway.

CLOSING STOCK LETTER.
By direct private wires to J. C. Mackintosh & Co.

New York, Aug. 22.—Today's stock market was extremely irregular, movement being marked by a series of sharp declines and recoveries which were bewildering for the average trader. A fair volume of supporting orders appeared on the initial decline under which the market slightly above last night's average closing level. This advance was succeeded by heavy liquidation in U. S. B. & O. and Can. Pacific, which was said to be for the account of British and Continental holders, who were held to sell by the constraint which is now being placed upon the French press in connection with the negotiations with Germany on the Moroccan situation. The frequent periods of sharp declines which have lately developed in the market, however, have tended to magnify the significance of every adverse item of news and the speculative element is striving to find the cause of the mysterious liquidation which was resorted to in Union Pacific and other leading stocks at the beginning of the week. A pre-despatch from San Francisco stating that the Harriman lines were preparing to let out 6,000 employees by the first of September evoked a new theory as to the cause of the recent selling of those shares. According to some rumors the Union Pacific had got information of a secret agreement among the leading labor unions of the country designated to precipitate a situation like that which has arisen in England, and were taking the most effective means to elicit such a condition. According to unofficial reports current in the market, the liquidation in Union Pacific and other leading stocks is attributable to a falling off in tonnage. The absence of news to explain the continued liquidation in Union Pacific and the apparent indifference of the larger interests in the matter of rendering support, has repressed outside buying and until some more light is thrown upon the causes of the recent selling, the market is more languid and the willingness on the part of insiders to support the market, it will be hard to bring the price up.

CLOSING COTTON LETTER.
By direct private wires to J. C. Mackintosh & Co.

New York, Aug. 22.—Today's market was extremely dull and narrow, movement although this condition did not reflect a lack of interest. Sentiment as a whole has undergone little change, but a combination of adverse factors seemed for the moment to be offset by an admittedly large short interest and a growing fear, based on the recent agitation for a government report "more favorable to cotton growers" that the agricultural bureau will strive to control as nearly to this sentiment as the figures will allow. Reports of individual statisticians and those received from scattered private sources suggest the possibility of considerable crop deterioration since the publication of the last government figures and the weight of more recent private advice have been in favor of the bulls. A considerable degree of nervousness has developed among the shorts as to what the bureau figures may show. This accounts in large measure for the strength of the market.

JUDSON & CO.
By direct private wires to J. C. Mackintosh & Co.

At present the Canadian farmer has a home market which takes 80 per cent. of his produce. Reciprocity would deprive him of his monopoly and let in the farm products of the United States and a dozen other agricultural countries.

CHICAGO GRAIN AND PRODUCE MARKETS.
By direct private wires to J. C. Mackintosh & Co.
