

A Sale of Bedsteads AT COST And Why

We intended handling furniture, but on account of the amount of space required, which would interfere with our rapidly growing business in other lines, we have decided to sell off the bedsteads on hand (which consist of brass and white enamel) at cost --- the greatest bargain ever offered in this line of goods.

The sale will be short, but if you do not require one before May 1st we will store it free of charge. Come and examine at once before the best selections are made.

A Genuine Rupture Cure Sent On Trial To Prove It Don't Wear a Truss Any Longer

After Thirty Years' Experience I Have Produced An Appliance For Men, Women and Children That Actually Cures Rupture

If you have tried most everything else, come to me. Where others fail where I have my greatest success. Send attached coupon today and I will send you free my illustrated book on Rupture and its cure, showing my Appliance and giving you prices and names of many people who have tried it and were cured. It is instant relief when all others fail. Remember, I use no knives, no harness, no ties.

Pennsylvania Man Thankful

Dear Sir:—Perhaps it will interest you to know that I have been ruptured six years and have always had trouble with it till I got your Appliance. It is very easy to wear, fits neat and snug, and is not in the way at any time, day or night. In fact, at times I did not know I had it on, it just adapted itself to the shape of my body, and seemed to be a part of the body, as if clinging to the spot, no matter what position I was in.

Others Failed But the Appliance Cured

Recommend from Texas Farmer

Silenced But Still Surprised

The above is C. E. Brooks, inventor of the Appliance, who cured himself and who has been curing others for over 30 years. If ruptured, write him today

two weeks and doing all kinds of farm work with ease. While I was wearing it, I had lagrippe and coughed a great deal but it held all right. Words cannot express my gratitude towards you and your Appliance. Will recommend it to all ruptured people.

Child Cured in Four Months

Dear Sir:—Your Appliance did all you claim for the little boy and more, for it cured him sound and well. We let him wear it for about a year in all, although it cured him 3 months after he had begun to wear it. We had tried several other remedies and got no relief and I shall certainly recommend it to friends, for we surely owe it to you.

That ought to settle it satisfactorily to the masculine mind—the only party interested—Lowell Courier-Citizen.

ZAM-BUK IN THE HOME

Read How Useful It Proved in These Widely Different Cases:

Zam-Buk's strongest point is its effectiveness in all kinds of skin diseases and injuries. Just note how excellent these persons proved it in widely different directions.

Sore Heel—Mrs. C. A. Campbell, of Powassan, Ont., writes: "One of my heels was very badly blistered by a pair of new shoes and the poisonous dye from my stockings got into it, and made it bad sore. For a week I could not put on a shoe, and suffered great pain. I applied Zam-Buk and in a few days it drew the poison out and healed the wound."

Bad Cut—Mrs. J. Virgin, of Onondaga, Ont., writes: "Zam-Buk healed a bad cut which I sustained. I was hurrying across my yard one day when I slipped and fell heavily, my knee striking a sharp stone. At the moment I did not realize how badly I was hurt, but I found I had a bad cut about two inches long, very ragged and very deep. We bathed the cut and applied Zam-Buk. This stopped the smarting very quickly, and in a few days it had healed the wound completely. For cuts and bruises Zam-Buk is a splendid remedy."

Eczema Cured—Mrs. Antoine Arsenault of Maxville, P. E. I., writes: "I can highly recommend Zam-Buk to any person suffering from eczema. I had this disease and was under doctors' treatment for two years, without any good result. I then tried Zam-Buk and in the end it cured me."

Brown's Flat News
Brown's Flat, April 8—Miss Nina McKiel has returned home for the holidays accompanied by her aunt, Mrs. H. Palmer.

Ten Reasons Why YOU SHOULD SEND FOR BROOKS' RUPTURE APPLIANCE.

1. It is absolutely the only Appliance that can be worn day and night, and is embodied the principles that inventors have sought after for years.

2. The Appliance or retaining the rupture cannot be thrown out of position.

3. Being an air cushion of soft rubber it clings closely to the body, yet never chafes or causes irritation.

4. Unlike the ordinary so-called pads, it does not chafe, it is not cumbersome or ungainly.

5. It is small, soft and pliable, and positively cannot be detected through the clothing.

6. The soft, pliable hands holding the Appliance do not give one the unpleasant sensation of wearing a harness.

7. There is nothing about it to get foul, and when it becomes soiled it can be washed without injuring it in the least.

8. There are no metal springs in the Appliance to torture one by cutting and bruising the flesh.

9. All of the material of which the Appliance is made is the very best that money can buy, making it a durable and safe Appliance to wear.

HOW THE OLD ADMINISTRATION SQUANDERED PUBLIC RESOURCES

Continued from page 1.
Some Honorable Member—And they say we want reciprocity. Hon. Mr. Morrissy—There is too much reciprocity talk in this House. I don't come here to talk reciprocity or talk against it. My interests are not in politics, but in the upbuilding of the province.

Continuing, Mr. Morrissy said that according to the letter written by Mr. Lowell himself, it cost the country \$2 for every load of gravel that went out on the Marsh Road when the work was done in 1906.

Resuming after recess, Hon. Mr. Morrissy said that there was \$214 paid out without an account for the expenditure. Did the opposition want the money? Did they call that good business? Was it business like? Was it even common honesty for the chief commissioner of public works of the province to be making drafts on one of his clerks? Would the leader of the opposition be so kind as to ask the hon. member for the province whether he thought that they were going to turn the present administration out of office and put the old set of men back in charge of the treasury?

Another thing the opposition charged was that all the bridge work should be put up to tender. We would ask the hon. gentleman opposite to put his finger on one single bridge built by days work the past four years, that could have been constructed more cheaply under contract. It was impossible to do repair work by tender and contract for the reason that it could not be told how much work had to be done. For instance, bridge requires new flooring and when the old flooring was stripped off it was found that the stringers were rotten and then something else would show up, and if a contract had been let in the first place for flooring there would be great bills for extras. The government would have to do as the old government did, employ lawyers to adjudicate upon claims for extras and pay lawyers two or three hundred dollars. The miserable rotten state in which the old government left the bridges of the province made it impossible to repair them by tender and contract. There were about 4000 ordinary bridges in the province and this government had repaired 2500. They did not rot in three years but were left in a rotten condition. The old government spent thousands of dollars but letters and memoranda left by them in the department showed where the money went.

Hon. Mr. Morrissy read a letter from ex-Chief Commissioner LaBelle, dated at Campbellton on Feb. 19, 1908, in which he instructed Mr. Winslow, secretary of the board of works, to send \$75 to Adolphe Hache, road superintendent at Lameque to pay damages to R. A. Noel and Phillip Degard for injuries sustained by an accident at a rotten bridge. There was not an account nor voucher of any kind in the department and these claims were paid on a simple order of Mr. LaBelle. More than that, they paid Adolphe Hache 10 per cent commission for spending that money. The only authority for paying such an account was a letter from Joseph Poirier, who was running the elections in Gloucester county for friends opposite.

Another simple transaction was the payment of \$5 to Andrew Nash in February, 1908, for work which he claimed he had done six years previously. The only warrant for such payment was the memorandum signed "C. H. L." in which he ordered the Secretary of the Board of Works to send \$5 to Mr. Nash and wrote "This is the first knowledge I have of that claim and I order payment on it." Another simple bribe was the payment of \$45.00 to Hugh Cowen in March, 1908, the only authority for such payment was the following letter:

Carleton, N. B., February 26, 1908.
Hon. C. H. LaBelle, Dalhousie, N. B.
Dear Sir—There is an amount of \$45.00 due Hugh Cowen of Pocomoche. Kindly send cheque to him.
Yours truly,
(Signed) P. T. M. BURNS.

Would the House believe it, would the country believe it that solely on the authority of that letter the money was sent to Mr. Cowen? No account was rendered, no voucher was ever given, nothing to show that any services were ever rendered. It would be noticed that payment was just on the eve of an election and no doubt they needed Mr. Cowen's services.

The remainder of Mr. Morrissy's instructions from you. I wrote me some time ago in regard to the Misses Road that Mr. McAvity was writing to you about it. I have arranged with the Highway Board of Simonds that we will spend \$300, which will put it in fairly good condition.

Mr. Lowell when the Hazen Highway Act was before this House had denounced the act as not needed in the County of St. John, and had said that they had such fine roads there that the Highway Act would spoil them, and in this letter he said that they had to spend \$55 to make one of the roads passable.

Mr. Bony asked what the date of the letter was. Hon. Mr. Morrissy said it was June 28th, 1906, the second year of the suspension accounts. The honorable gentleman opposite had boasted that they were the friends of the Highway Act and according to this letter they only paid the men \$1.20 per day while this government was paying the way from \$1.75 to \$2.50 per day.

Mr. Bentley—But that was six years ago.

CONTRACTED HEAVY COLD Was in Bed Two Months.

DOCTORS DID NOT SEEM TO DO ME ANY GOOD.

A cold, however slight, should never be neglected, for if it is not treated in time it will, in all probability, lead to bronchitis, pneumonia, asthma, or some other serious throat or lung trouble.

Dr. Wood's Norway Pine Syrup contains the lung healing virtues of the Norway Pine tree, which, combined with other absorbent, expectorant and soothing medicines, makes it without a doubt the best remedy for all coughs and colds.

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, three pine trees the trade mark; price 25 cents. Manufactured only by The T. M. Bony Co., Limited, Toronto, Ont.
