Kodaks and Parasols Make their Appearance on Sussex Military Grounds -- 62nd Regiment will Arrive Today

Special to The Standard.

Camp Sussex, June 27.—Ideal weather has prevailed throughout the day for the work at Sussex Camp. A cool breeze from the west blew gently over the grounds and alleviated the intense heat that would otherwise have resulted from the clear sky, so that the weather conditions have been all but perfect.

All day long the scattered companies of infantry and troops of mounted men have been hard at work with squad drill and these combined with the natural beauty of the fine landscape to form a scene greatly appreciated by the pleasure seekers and holiday makers who are already making the annual pilgrimage to the camp.

The final touches were given today to the sanitary and other conveniences which go so far to relieve camp life when the washing troughs and mess tables were finally arranged. The high taps are erected too, and provide an excellent means of cooling the appetites of some "fresh" recruits. Showers baths are also in evidence.

The Army Service Corps lines present an unusually attractive appearance this year. The tents are situated on opposite sides of an open quadrangle. In the rear are the dining tent, store tent and bread oven, while in front facing south, a flower bed with the letters "A. S. C." in white washed pebbles adds much to the general smart appearance of the lines.

62nd Advance Party.

The advance party of the 62nd Regt. numbering 12 men in charge of Quartermaster Capt. R. A. McAvity, arrived by the morning train. They have spent the afternoon in such activities as to pitch the tents, cook houses and all are ready to receive the regiment on their arrival tomorrow morning. The camp will come into camp with a strength of about 200 men. They will remain in camp five days. What the remainder will be brought in the brass and bugle bands and drum corps. Naturally great interest is being taken in the arrival of the 62nd Regt. and all hands will be on the ground to see them march in from the train.

The Gospel meetings are being continued every evening. Last evening there was a good attendance. Tonight Chaplain (Rev.) of the 62nd Regt. will address the meeting. Music will be furnished by the orchestra of the 67th Regt.

The brigade orders for June 27th were as follows: Field officer of day, Maj. J. R. Kirkpatrick, 67th next for duty, Maj. J. E. Black, 9th Hussars. Chief medical officer, Maj. S. F. Wainwright, M. O. of 71st Regt; next for duty, Lt. G. B. Peck, M. O. 67th Regt. M. O. for the range, Provisional Lt. C. P. Dickson, A. M. C.; next for duty, Maj. L. R. Murray, M. O. 5th Hussars. 71st Regt. will provide guard picket and brigade band; next to do so, 74th Regt. Leave of absence has been granted Capt. E. Wetmore, 74th, from June 25th to June 28th; Capt. J. G. Kirkpatrick, 67th, June 27th to July 1st; Maj. H. P. Carvell, Q. M., 67th, June 26th to July 2nd; Lt. S. H. Laughlin, 71st, who had been granted leave of absence for camp having reported for duty, has been added to the strength of the regiment.

Baseball Games.

Baseball has started in earnest with two games this evening. The first was between the Supply Company and Bakers of the A. S. C. play in their own lines. A team from the 67th Regt. defeated a team picked off from the 71st. In a five inning game to the tune of 3 to 5. The batteries were, for the 67th, McIntosh and Holston, for the 71st Smith and Mudge.

Shooting is being carried on at the ranges every day. The cavalry regiments have about finished shooting and the infantry will start soon. A sub-target gun has been set up in a large tent near the Staff lines, and some of the novices are at work there.

Tomorrow the infantry regiments will begin company drill.

Among the attractions for Dominion Day are a series of field sports for which a handsome trophy has been donated by Capt. McAvity of a company 62nd Regt. The 62nd have a strong team that they expect will win the cup, but there will be strong competition from other regiments to become effective at once.

THREATENS PACKING INDUSTRY

Bill Before French House May Affect Lobster Canners.

Will Require Name of Country of Origin Embossed on Tin—Goods Packed Here Possibly Debarred.

Special to The Standard.

Halifax, June 27.—The French chamber of deputies have before them a bill which provides that all species of canned fish shall have the name of the country of its origin embossed on its tins in which they are packed. This particularly affects the lobster packers of these provinces. It is pointed out that several thousands of cases of canned lobsters are now on the way from Canada to France, and if the bill becomes operative at once, these would be liable to be refused admittance and the trade demoralized for some time. The goods already packed for that market without any knowledge of the proposed condition would affect about 50,000 cases of Canadian lobsters. This would mean if the bill carries, that this additional quantity being debarred from the French markets would be forced on others and prices elsewhere would be reduced very considerably and the trade demoralized for some time. The 50,000 cases of lobsters at present market prices, would be worth \$900,000.

WILL INVESTIGATE MARINE DISASTER ON THE ST. CROIX

Steamer Grand Manan Escaped Without Injuries But Circumstances of Collision Will be Probed.

Special to The Standard.

St. Stephen, June 27.—Investigation into the cause of the collision between the steamer Grand Manan and the Bay State Dredging Co. dredge revealed the fact that several fathoms of new six inch hawser were closely wrapped about the propeller of the Grand Manan. The supposition is that it had been insecurely fastened to the dredge and had gone adrift. It was quite new and would float near the surface where it was picked up by the blades of the steamer's wheel. It would have tied up the machinery of a Titanic and certainly made the Grand Manan unmanageable.

The steamer was towed to St. Stephen this afternoon and reached in order to enable the crew to be removed from the vessel. This operation took three members of the crew several hours to perform. The Grand Manan escaped without injury except that a small portion of the rail on her upper deck was carried away. The steamer is being held here pending an investigation by the marine department.

The story of the accident appearing in yesterday's Standard summarized the circumstances of the accident as accurately as possible at the early hour when the news reached St. John. The information used did not originate with The Standard's correspondent.

Defendant Steamship Lines Claim Government Turned Passengers Back.

SEEK TO LAW DAMAGE UPON THE GERMANS

Immigrant Passengers for America Forbidden to Cross Frontier Without Health Examination.

New York, June 27.—At the continued hearing in the government's suit to dissolve the so-called "shipping trust" today, attorneys for the defendant steamship companies sought to bring out through one of the government's witnesses that the German government, and not the alleged pool was responsible for the fact that steamer passengers who were to sail on an independent line were turned back at the German frontier.

Previous testimony had indicated that passengers to Rotterdam to take passage on ships of the independent Urania Line were not allowed to go through Germany but were forced to get new tickets on lines alleged to be concerned in the "pool." Paul G. Fourman, passenger agent of the Urania line was the government witness questioned.

"Isn't it a fact that since 1908 immigrant passengers bound for America are not allowed to cross the German frontier to reach Rotterdam, unless they pass a health examination at the German frontier?" asked John C. Spooner, of counsel for the defense.

The witness said his line never objected to its passengers being examined as to health at the German frontier, and he did not know why they had not been permitted to pass through Germany. They were stopped at the frontier "control" stations, he said.

"Don't you know that without examination of passengers the German government would not permit passengers to pass its frontier?"

"All I know is that the passengers were turned back when they presented tickets for our lines," said Mr. Fourman, "and our tickets came back stamped 'Not Valid,' but there was nothing said about health examinations. The same passengers from whom our tickets were refused were also advised to buy tickets by other lines."

United States Assistant District Attorney Dorr asked Mr. Fourman if he had information to the effect that the German government is interested in the Hamburg-American line or the Holland-American line.

Witness said he did not know, or had he ever heard it said that the German government was interested in these lines or in the North German Lloyd line.

The hearing will be resumed on Monday.
