

Canada's After War Problems

**Earnest Appeal for Unity and
Helpfulness Made Before
Women's Canadian Club
Yesterday by Francis Jones
—Strong Protests Against
Destruction of City Court
House.**

Reconstruction and destruction were two subjects treated of at the meeting of the Women's Canadian Club held in the Natural History Society Rooms yesterday afternoon. A thoroughly British and most inspiring address on "How Canada shall meet her after war problems" was given by Francis Jones, special Commissioner of the Overseas Club and Patriotic League and the matter of the proposed destruction of the City Court House was thoroughly discussed and strong protests made against the plan.

In the presence of Mrs. L. P. D. Tiley, Miss Pitcher, First Vice President, presided. Mrs. Dearden, secretary, presided over the minutes of the last executive meeting. Minutes of the committees for the various departments of work. Miss Mary L. Harrison read a communication from Mrs. Kuhring, bringing before the club the fact that for some years efforts had been made to preserve Fort Howe as a beauty spot for the city and as a historic park. It was decided to send Sir Arthur Meighan for the Department of the Interior was taking up just such projects. It would be advisable to see what the Dominion Government would do for St. John in this respect.

Minutes of the steps taken in the matter in 1911 were read, showing that a memorial to Lady LaFleur had been received and estimates obtained by a committee with Mrs. George F. Smith as convener when war stopped all such activities. The following resolution moved by Mrs. W. H. Shaw and seconded by Mrs. F. C. Beateay was passed:

"Resolved that the Executive Council of the Women's Canadian Club be authorized to take up the matter of making a Port Flow monument to be erected by the Dominion Parks Commission and appoint such a committee as they think best to bring the undertaking to a speedy fulfillment."

The mayor of the contemplated destruction of the Court House was brought before the meeting by Mr. J. H. Powell, who said that the sacrifice of the Loyalists who built the building forty-five years after settling St. John, its architectural claims and the lack of economy which would be shown in tearing it down. Mrs. Powell spoke on the subject bringing a message from the ladies of the Court House, calling the demolition of the building "a crime." Mr. and Mrs. Robinson and Miss Amelia Hayes were speakers who presented strong arguments for the preservation of the building. The following resolution moved by Mrs. Alfred Morrisey seconded by Mrs. H. A. Powell was unanimously adopted:

Introduced by Miss Pitcher, Francis Jones told of the ravages of the war and the necessity for the peoples of the British Empire to draw closer together for unity of purpose and for strength. He made a stirring plea for consideration to be shown the British immigrant and especially for the British brides in lonely places. With vivid convincing words Mr. Jones asked for encouragement for home industries.

His thoughtful, earnest appeal was listened to with the closest attention and his pathetic picture of war-torn France brought tears to many eyes. Lighter touches of humor pointed out other parts of the talk which ended with an appeal to patriotism that all should stand together and help in the time of rebuilding.

A very appreciative vote of thanks was moved by Mrs. Cortland Robinson seconded by Miss Tingley.

The meeting closed with the singing of the National Anthem.

MOTHERS!
NEVER NEGLECT
WHOOPIING COUGH

Many mothers make the mistake of thinking that whooping cough is not of serious importance, but unfortunately this mistake often leads to the neglect of this dangerous child's disease.

Neyer neglect whooping cough, for it may be followed by some serious lung trouble.

Dr. Wood's Norway Pine Syrup is highly recommended by mother everywhere for the relief of this trouble. It will clear the clogged air passage of the mucous and phlegm that has collected, and in this way bring on the "whoop" which brings the so-much-sought-for relief.

Mrs. Francis Burlingham, New Gate, B. C., writes:—"This spring three of my children took the whooping cough, and they had it so bad that they thought they would choke. I was getting pretty worried when my sister wrote me, telling me to try Dr. Wood's Norway Pine Syrup. I sent for some right away, and, believe me, I will never forget how it worked. I will always have it in my house."

There are many imitations of Dr. Wood's on the market. Get the genuine when you ask for it. It will pay in the end. Put up in a yellow wrapper; 3 pine trees the trade mark price 25c. and 50c. Manufactured only by The T. Milburn Co., Limited Toronto, Ont.

Employers Must Co-Operate---

Victory Loan workers are face to face with the fact that, rightly or wrongly, this year, Individual Investors are not moved to the same extent by the sentimental patriotic appeal which sold so many bonds in previous years.

Canada's war job is NOT COMPLETED and the obligation to re-establish the soldier is as binding as was the necessity of supporting him in the trenches. But not everyone can realize this. For many the sentimental appeal faded when the foe laid down his arms. Results to date show the purchasing public is limited as compared with the number of applications received in other years.

Someone must get busy and get busy quickly if St. John and New Brunswick are going over the top. It is up to the business man to see that the loan is taken up as a patriotic duty and as a good business proposition. The commercial community must absorb a very large share of the \$9,000,000 allotted to New Brunswick. This can be done only by every business man buying to the limit and by

FINANCING HIS EMPLOYEES

Several firms have already worked out a plan by which their employees may purchase bonds to the full extent of their capacity and have payments met out of their wages over a period of ten or twelve months. Such action is strongly recommended and the extra effort may mean the German gun for that employer's particular district.
