

AGRICULTURE CAME UP FOR DISCUSSION

In the House of Commons Yesterday When the Estimates for the Year Were Brought Down.

MINISTER SAYS PROSPECTS BRIGHT FOR THE FUTURE OF THE FARMING INDUSTRY IN CANADA—MARKETS AVAILABLE EVERYWHERE WHICH ARE ONLY WAITING FOR THE PRODUCE.

Ottawa, Ont., May 14.—In bringing down the Agricultural estimates in the House, this afternoon, Hon. Mr. Tolmie, Minister of Agriculture, gave a brief survey of the agricultural situation in general. He said the future was indeed full of promise. The total agricultural wealth of Canada was estimated at \$7,275,299,000. There were 53,949,646 acres of land under tillage crops in 1919, and the value of agricultural products last year was \$1,975,841,000, compared with \$200,917,732 value of the country's mineral wealth in 1919, and timber \$182,254,740, while fisheries showed a total of \$60,221,863. Between 1811 and 1919 there had been a most marked increase in wheat crop acreage. The Minister next dealt with the great need for conserving the fertility of the soil, pointing to Great Britain as one country which had realized this necessity and had taken adequate steps to deal with the situation arising from the war. There was today in Canada a need for a vigorous and continued campaign of education on better methods of farming and the prime importance of livestock. Dr. Tolmie gave statistics showing that, by better farming methods, a general increase in the yield could be secured without a fresh acre being sown. With an increase of three bushels per acre in wheat, four in oats, four in barley, and fifty bushels increase per acre in potatoes, which it was fair to estimate could be obtained by better methods, an estimated increase of \$100,000,000 from grain and potatoes could be secured of \$230,211,082.

Better Education Needed. Alluding to immigration officials and agents, Dr. Tolmie put in a strong plea for actual workers and men of practical experience rather than what he called soap-box orators. He also alluded to a certain type of unrest among agriculturists and pleaded for stabilization of the hog and sheep industries in order to allow Canada to hold her place in the world market. After outlining the publicity work on education toward better farming methods, Dr. Tolmie estimated that the increase of \$230,211,082 in field crops, with an estimate of \$275,308,866 in livestock, would bring the total possible increase per year to \$505,519,948, which was more than one-quarter of the country's national debt per year. DETAILS OF THE APPROACHING CONFERENCE

Between German Representatives and Members of Supreme Council to be Discussed Today.

MILITARY ADVISERS WITH PREMIERS

Premier Lloyd George's Headquarters at Lympe Are Carefully Guarded.

Hythe, England, May 14.—(By the A. P.)—The quiet village of Hythe, on the English Channel, five miles west of Folkestone, with its red-roofed villas clustered on the green hills stretching up from the sea, is crowded, tonight, with British and French officials who have come here to be in close proximity to the British and French Premiers, who they expect to meet in conference tomorrow at the nearby village of Lympe with regard to the details of the approaching meeting of the members of the Supreme Council with the German leaders at Spa, Belgium. The actual participants in the conference will be limited to a half dozen, but a great number of experts and clerks have been mobilized in case they are required.

House Guarded

The grounds of the home of Sir Philip Sassoon at Lympe where David Lloyd George, the British Prime Minister, is residing, are being guarded by police, and admission to the grounds of the villa is refused to all persons except the members of Mr. Lloyd George's official family. The unloading of a motor lorry, filled with the boxes containing documents, was the sole incident of the day at the Sassoon villa.

Mc Lloyd George has not recovered from the illness which brought him to the country and he spent most of the day at bed. He rose in the afternoon, however, and was waiting on the steps of the Sassoon home to greet Premier Millerand and his party which included Mr. French, Minister of the French Ministry of Finance, when they arrived from Folkestone where they landed from a torpedo boat destroyer. The French statesmen were greeted at the door by J. Austen Chamberlain, the British Chancellor of the Exchequer, Sir Philip Sassoon and others, and were driven through the flagged streets to "Bessie's" residence. The meeting between Mr. Lloyd George and M. Millerand was marked by the utmost cordiality. The conference tomorrow will be held in a beautiful salon of Sir Philip Sassoon's home.

DESTRUCTIVE WORK STILL CONTINUES IN IRELAND

Baracks and Huts Raided and Destroyed—Post Offices Raided and Money Taken.

Dublin, May 14.—An official report, issued this evening, says that on Thursday night 17 military police barracks and huts were raided and wholly or partially destroyed. Five post offices also were raided, the officials being held up by armed masked men. The money in the offices was taken and the instruments destroyed. In addition, five revenue offices were raided and the income tax books reserved. Notices were posted in various districts conveying threats against persons who fail to abstain from speaking to policemen. In the raids on the revenue offices no documents relating to old age pensions were disturbed. Notices were left behind saying that nothing had been taken from them "except matter harmful to the Irish Republic." The Mayothon Town Hall, which was the property of the Duke of Leinster, was destroyed by fire this morning. Bodies of constabulary and military reinforcements are arriving in the counties of Leitrim and Roscommon. At Carrickshannon, the Board of Guardians, today, unanimously adopted a resolution, proposed by its chairman, refusing to attack any government in Ireland except the Sinn Fein Parliament.

MINISTER OF AGRICULTURE IN EXHAUSTIVE

Review of the Work of His Department Places Value of Experimental Farm Work at \$60,000,000.

IMPORTANCE OF FIRST CLASS SEED

Proper Cultivation and Judicious Use of Fertilizers Cannot be Overestimated.

Ottawa, May 14.—The value of the Experimental Farm system to Canada was placed today at \$60,000,000 by Hon. S. P. Tolmie, Minister of Agriculture, in discussing the agricultural estimates. Dr. Tolmie gave an exhaustive review of the work accomplished thus far through the support of the farm system and laid stress on the value of educating the farmer and helping him in the choice of better seed and better farming conditions. The addition of a few bushels per acre to the crop from every farm, and the addition of a few pounds to the weight of every bushel of grain killed would mean an immense sum to the country. Dr. Tolmie stated. He quoted estimates showing that \$223,211,082 could be added to the value of grain and potato crops by the use of first class seed, while by careful selection of breeding sires and expert feeding of cattle, sheep and hogs for slaughter and also by the improvement of breeding and laying hens, that sum could be brought to \$608,500,000 in a year. Seed Importance. The importance of first class seed, proper cultivation and the judicious use of fertilizers could not be overestimated, Dr. Tolmie stated. He informed the House that the illustration farm system, whereby a man in certain districts undertakes the operation of his farm to the Department and worked it himself under Departmental supervision, had proved a success where it was in operation, and the illustration farm work could be gradually extended to other provinces. To demonstrate the value of pure-bred stock, Dr. Tolmie mentioned a Vancouver man buying a heifer calf for \$150.00 and later selling her with her calf for \$160,000.

Dr. Tolmie emphasized that good breeding and proper care were both essential. Members Pleas. Hon. T. A. Crerar urged that care be taken to prevent overlapping between Federal and Provincial Departments. There were witnesses in places at present. The description of the illustration farm plan pleased the members so well that not only was Dr. Tolmie complimented on the work of his department, but in the case of many such quarters he was urged to extend the system to their constituency as a whole. J. H. Burnham (Peterborough) wanted a Dominion farm in each county. The amount to be voted for Agricultural estimates is \$3,034,000 of which \$1,200,000 was for experimental farms; \$18,000 for the branch of entomology, \$150,000 for administration and enforcement of the game laws and pest act, and \$165,000 for the department of the dairy industry and the improvement of transportation, sale and trade in food and other products. These items all were carried.

During the evening debate, J. H. Burnham (Peterborough) protested that when agricultural estimates were being discussed there should be a full attendance of farmer members, instead of which very few were in attendance. Latest Word. El Paso, Tex., May 14.—The latest official word received up to a late hour today was from General Alvaro Obregón, who is only a matter of hours and that a trait of six hundred soldiers of the President's escort had been captured by forces under General Guadalupe Victoria, representative of Obregón's strongest supporters in Vera Cruz. General Obregón said that the States of Colima and Jalisco were entirely in the hands of the revolutionists, who had 12,000 men operating in that region. Antonio Hernandez Ferrer, Minister of Cuba, had announced his adherence to the revolutionary movement. Saltillo, capital of Coahuila, was in the hands of the Obregon command. General Luis Gutierrez, it was announced.

FRENCH OFFICIAL CIRCLES STIRRED

By Discovery of Plans for Concerted Action by Gov't Employees to Cripple Public Services.

(Overseas Service, Copyright) By Henry William Francis

Paris, May 14.—Discovery by secret judicial inquiry here of plans of a concerted action by government employees with the object of crippling all national public services simultaneously with the general strike of the General Labor Federation, caused grave concern in official circles. Disclosures show wide ramifications of activities. The Federation also aimed to promote strikes in the army and navy. Initiation of the movement was only awaiting a favorable moment. "Bolshevism is in action and the movement is absolutely illegal," noted French jurist declared. "For ten years, even during the war, the Federation preached antisemitism, anti-patriotism, sabotage and all varieties of revolutionary gymnastics," he said.

MATAMOROS FALLS IN WITH OBREGON

Brownsville, Tex., May 14.—Matamoros, opposite Brownsville, quietly surrendered to Mexican revolutionary forces shortly before noon today. It was the last Northern border point remaining in the hands of Carranza officials. Its surrender was in accordance with an agreement arranged yesterday between General Rafael Cobiaga, Matamoros garrison commander and General E. Reyes, representing the revolutionary government. Despatches from the Embassy said the Mexico City papers of May 12 stated that General Gonzalez and Obregon had issued formal statements favoring Antonio Villarreal for Provisional President. Other candidates mentioned were Aguilera Calderon, a Mexico City lawyer; Juan Sanchez Azcoeno, acting Secretary of Foreign Affairs, and General Jacinto Treviño, Chief of Staff for General Gonzalez. Azcoeno was quoted as having stated that direct relations with the present diplomatic corps would not be established until a Provisional President had been appointed. Carranza's train was said to be about 130 miles from Mexico City toward Vera Cruz. General Dignea, Carranza Commander in the Guadalupe district, and his staff were reported as taken prisoner.

A despatch from Nogales said Governor De La Huerta, of Sonora, had forwarded to Washington a communication in which he stated that military officers of the revolutionary forces had given full guarantees to both Mexican citizens and foreigners, and that the revolutionary forces would not be established until a Provisional President had been appointed. Carranza's train was said to be about 130 miles from Mexico City toward Vera Cruz. General Dignea, Carranza Commander in the Guadalupe district, and his staff were reported as taken prisoner.

Foreigners Flee. Hon. Dr. Reid, Minister of Railways, said that, so far as any legal proceedings between Mr. Hanna and Mr. Cahill were concerned, the Government had no interest. As a matter of fact, the suit was to go on it probably was well to clear up the charges which Mr. Cahill had made. He regards the Inverness Coal Company, the price at which the contract with that company was made were fixed by the Fuel Controller of Canada, based on the cost of production in the mines. The cost was not the same in all mines. The Intercolonial Railway had been buying coal from the West for many years, and had received at Point Tupper, which was sixty miles from the Intercolonial line, and the Government paid \$1.00 or \$1.25 per ton extra for the haul of the coal. If they bought elsewhere and hauled it to the place where it was needed it would cost just as much. Dr. Reid continued that he was only aiming to show that the prices were fixed by the Fuel Controller. Neither Mr. Hanna nor Mr. Cahill had anything to do with the contract. He said that the Inverness Coal Company had not been in the hands of Mackenzie and Mann for six years past. During that time the mines had been in the control of a liquidator. Dr. Reid said that when his estimates come down he would be prepared to give exhaustive information on the transactions of the Government railways and its officials. He has Mr. Hanna's assurance that the General Manager did not own land in the West nor had he an interest in townships. He must accept Mr. Hanna's word until some proof could be brought that it was incorrect. The matter was then dropped, and the item under discussion was carried.

WARRANTS ISSUED IN BOND CASE

Montreal, May 14.—(By Canadian Press)—Four warrants were issued today for the arrest of the New York \$5,000,000 bond plot were sworn out today, but the greatest secrecy was to maintain it still being observed, and noting that the case was not officially beyond the fact that the men involved were residents of Montreal and vicinity. The impression is growing here that Armstrong is in the Laurentian near here on a fishing trip.

POPULATION OF VANCOUVER INCREASED BY OVER 20,000

Vancouver, B. C., May 14.—The population of greater Vancouver increased by over 20,000 according to figures obtained by the Henderson Directory Company. The population of the city and suburbs, it is believed, will exceed 200,000. Last year the population was estimated at 173,000.

HOUSE MEMBER LAYS SERIOUS CHARGE AGAINST

President Hanna of the Canadian National Railways—Status Aired Before Commons.

ALLEGES HANNA USING POSITION

To Further His Personal Interests as Member of a Realty Co. in North.

Ottawa, May 14.—(By Canadian Press)—While the House of Commons was sitting in committee on the Agriculture estimates this morning, Hon. J. D. Reid moved the adjournment so as to permit F. S. Cahill (Pointe) an opportunity to make a statement with regard to the Department of Railways and Canals. The statement had reference to a threatened suit for damages made by D. B. Hanna, President of the Canadian National Railways, against Mr. Cahill over recent utterances of the latter before the Montreal Reform Club. A non-contentious item in the Railway and Canal estimates was taken up to permit of the statement being made. Mr. Cahill drew the attention of the House to a news despatch, which appeared on April 27, and which stated that D. B. Hanna was suing him (Mr. Cahill) because of some statements alleged to have been made at the Montreal Reform Club.
