ATTENTION CHEMISTS!

Have you ever heard of Trent University?
If you haven't, well, Trent is a small but good university on a beautiful campus in a small city about 80 miles northeast of Toronto.
If you have, you've probably heard nice things about the rather personal attention Trent gives its undergraduates.
But have you ever considered doing graduate work at Trent? Perhaps you should. Why not drop a line to the Chemistry Chairman, Trent University, Peterborough, Ontario? Or phone him at (705) 748-1505. You'll probably be glad you did.
