The Trade Bulletin's London cable of May 1st, re Canadian bacon reads thus:

"The market is firmer and is higher for Canadian."

A fairly good trade was done in horses at Grand's last week nearly 100 in all being sold. Prices were about as usual there being no tendency towards lower values so far as good horses are concerned. better class of horses will be offered this week and values may go higher. Among the shipments that left Toronto last week was a car load of specially selected standard load of specially selected standard bred trotters, fast roadsters, and matched pairs. These were shipped by W. Harland Smith to Messrs. J. & E. Brown, Portage La Prairie who buy the best of this class to be found in the market regardless of price.

Canadian Ham Sold as English

At the Oxford Police Court on Friday, Edward Radbone, grocer, and an assistant named Souche were summoned for a breach of the Merchandise Marks Act by selling on November 6th a Canadian ham and representing it to be English, and were fined respectively £25 and 40s. and costs, or one month's imprisonment, this being Radbone's second conviction. The prosecution was directed by the treasury.

To Avoid Colds

A writer in the Lancet says: "Since I began to study diet, I have been astonished at the number of cases of which I have heard, even of medical men, who, by eating less and not so often, have found that their susceptibility to colds has quite gone. Such facts as I have met with point to the conclusion that it is the system overcharged with the products of food which was not required, and can act only as a poison to every organ in the body, which is most susceptible to colds."

A Wheel that Lived

The Wheel that has done the 'lion's share' to cause the great revival in wheeling is the Massey-Harris.

Every one now realizes that a bicycle is as necessary as a horse when you have a distance to cover, and there are no horse shoe or oat bills either.

It's a convenience, and there's exercise to touch it. Nor is it a difficult proposition as far as

price is concerned, for our wheels are within easy reach of the most delicate pocket-book.
