FARM AND DAIRY

EXPERIENCE THE BEST TEACHER

an old but yet a very true saying.

162

Many farmers have learned by BITTER experence that the cheap, low-grade separator is a positive nuisance, and a direct loss, when not in proper running order.

Even at its best the poor machine does not "hold a patch" on the service that can be had from a high-grade separator, like the "Simplex."

And then, too, the "Simplex" will outwear two, and perhaps, three or four of the poorer products.

To buy the BEST at the start (a Simplex) is surely money your pocket.

We don't want to rush our machine on you all at once, but e do want you to read reasonable arguments about a separ that has proven its efficiency as a money producer and laborsaver on the farm.

Drop a post card to us for literature.

Holstein Breeders Hold an Enthusiastic Meeting

An Increase in Membership, an Improvement in Finances, and Greater Interest in the Breed Proved Causes of Satisfaction

A NOTHER mile post in the his- Directors, Dr. Tolmie, Victoria, B. tory of Holstein-Friesian cattle C. W. B. Allion, Chesterville, Ont ; in Canada was passed last week G. A. Brethen, Wood ; Yeit Sauge on the occasion of the holding in Tor- ster, Ormatown, Oue; ; A editors, J. onto of the annual meeting of the B. Mallory, Belleville; A. C. Hall-Holstein-Friesian Cattle Breeders' As- man, Breslau. Holstein-Friesian Cattle Breeders' As-sociation. The reports presented were encouraging. They showed increas-ed membership, and increased regis-trations. Under the new secretary, Mr. W. A. Clemons, the office of the Association has been re-organized, and its efficient management was a and its efficient management was a matter of frequent favorable comment during the meetings. Feeling that the time had come

when the work of the Association should be placed in the strongest possible position the members took two important steps when they adopted practically unanimously a motion introduced by Mr. George A. Laidlaw, of Aylmer, Ont., cancelling the existing rules governing the Record of Merit and substituting the Record new set of rules. These rules provide among other things, that when breeders find that animals of theirs entered in the test are making more than a usualy cood test they must immediately advise the secretary of the Association in order that he might arrange to send another supervisor to conduct a new test in order that the authenticity of the test should be be-yord dispute. The new rules proyord dispute. The new rules pro-vide also that during the official test no condiments, condition powders, tonto condition to condition powders, ton-ics or drugs may be given any cow, nor any other liquid than pure water. It will be permissable to moisten dry foods with water but not with any other liquid.

SHOW BORROWING

resolution introduced by Mr. R. F. Hicks was also adopted. It pro-vided that Holstein cattle exhibited at any fair or exhibition must be the bone-fide property of the exhibitor, and recorded in his name in the books and recorded in his name in the books of the Association, before they can be exhibited. Any animal that has been owned by the exhibitor for a period of less than 12 months prior to the date of being judged at a fair or exhibition shall not there-firer he alicible to be transferred after be eligible to be transferred to any previous owner, provided that objection has been made in writing to the secretary of the Association within 10 days following the date u.on which the animal was judged. Breeders violating these rules will be subject to a fine of not less than \$25 or more than \$100, and in default of payment may suffer the forfeiture of all rights or benefits from the Association

MOTION DEFRATED

A motion introduced by Mr. H. Bollert, of Cassel, regarding the impor-tation of bulls from the United States was defeated. A report of the discuson will be given later. A motion by fr. Herrick to prevent by-bidding at Mr public sales was laid over. Mr. Her-rick was not present to introduce it. The motion of Mr. J. W. Richardson favoring the obtaining of legislation, tending to discourage the running of

PRESIDENT'S ADDRESS

President James Rettie of Norwich, in his presidential address, stated that on account of the greatly increased business being done by the Association, it had been found necessary to close the books at the end of th calendar year, thus only 11 months work was shown in the financial statement. In spite of this, gains had been shown in almost every deput-ment. January had been one of the busiest months in the office and its exclusion from the year's report was responsible for a great decrease the annual dues collected as well as in other branches of the work. In spite of this over \$1,000 had been added to the assets during the eleven added to the assets during the eleven months. During the year \$4,073.55 had been expended in the purchase of bonds of the city of Waterloo, which made the total securities of the As-sociation exceed \$12,000. The new bonds will yield a return of 5 per cent, per annum.

The increase in the number of official tests entailed the expenditure of more prize money. Larger and larger tests were being made and in order to guarantee their accuracy Mr. Rettie advocated the adoption of the new rules to be proposed by Mr. Rettic advocated the adoption of the new rules to be proposed by Mr. Laidlaw, which had been drafted in cooperation with the president and cretary. Their adoption will neces-sitate the making of provision for the services of a supervisor to make retests when desired by the secretary. I Lengthy extracts from the president's address will be published in a later issue of Farm and Dairy. Secretary W. A. Clemons read the

Secretary W. A. Clemons read the annual report. Two hundred and and annual report. Two hundred and sixty-seven new members were ad-mitted during the year. In the Rec-ord of Merit 676 official tests had been accepted, an increase of over 140 over the previous year. During the year 134 cows qualified in the Record year 134 cows qualified in the Record of Performance bringing the total number to 436. Ten bulls qualified for admission by siring four tested daughters, all from different dams. In the dairy test 1913 proved a ban-ner year for the Holsteins. As far as it has been possible to discover the biokace standing in guard doire the highest standing in every dairy test held in Canada during the year had been taken by a Holstein. These had been taken by a Hoistein. I nese included contests at Winnipeg, Bran-don, Calgary, Red Deer, Victoria, Vancouver, New Westmögter, Sher-brook, Charlottetown, Toronto, Guelph and Amherst. The demand for Holand Amherst. The demand for Hol-steins continued unabated. Good cows were never so high in price be-fore. Grade Holsteins had sold at auction for as high as \$275 a head. During the year Mr. Neil Sangster had made two shipments of Holsteins, numbering 57 head, to New Zealand. REGISTRATIONS
