### Run on Coal Oil—6c for 10 Hours

Little Engines develop more power at cheap than all other engines do on high priced gasoline. Will also operate successfully on diesel, kerosene, alcohol or gasoline. Strongest, simplest, most powerful engine made only have working parts. No clutch, no gears, no valves, no carburetors, no vibration, easy to operate.

Have patent thrills, giving three engines in one; from foot other automobile type. In last bearing governor adjustable while running and other sensitive features. Every engine and in day's approval with freight and duty paid. In-power guarantee. Write for this catalogue, "Ellis Engine," showing how models with special prices. Shipments made from Windsor, Ont. **ELLIS ENGINE CO., 2857 E. DUNDAS ST. W., WINDSOR, ONT.**

## Service and appearance cover every fence virtue

Into FROST FENCE is built service and appearance. These two qualities sum up every good feature of fence, because:

Service covers durability, which demands good hard wire of full size, Al extra heavy galvanizing, tight stays and laterals positively locked against all possible shift.

Appearance includes even spacing of laterals and stays, and no sign of that hall-mark of "cheap" fence—bowed stays. The fact that FROST FENCE is straight and flat when being unrolled is strong evidence of this point.

Judged by any standard, farmers and dealers alike are a unit in pronouncing solidly in favor of

## Frost Fence First

WE MAKE OUR OWN WIRE—a fact that enables us to guarantee every rod of our output. There are no fence bargains except the fence that gives you permanent service at a fair price. Write for our catalogue. It goes to the heart of the fence question.

If you can't get FROST FENCE, write us direct. We may need an agent in your district.

**Frost Wire Fence Co., Limited, Hamilton, Ont.**

## Many Homes Opening for Needy Children

H. Bronson Cowan, Managing Director Rural Publishing Co. Ltd.

THE hearts of the readers of Farm and Dairy opened in a wonderful manner to Harry Dunn, whose likeness was published in our issue of January 26th, with an intimation that he was one of the boys for whom we were arranging to find homes. Although we intimated under Harry's picture that we had several applications for him and that therefore there would be no use of other people writing about him, some 25 of our people either wrote us direct stating that because he was such a bright, manly looking little fellow they would like to adopt him, or else they wrote to Mr. J. J. Kelso of Toronto, to the same effect. As Mr. Kelso had agreed to hold Harry for a certain length of time for us, he did so and the result is that a splendid home in Dundas county has been found for Harry with the family that was the first to make application to us for Belgian children should we be able to obtain them.

Farm and Dairy has received assurances that we will be able to obtain bright young boys from 7 to 10 years of age for all those who applied to us for Harry. Already we have found homes for quite a number of the boys, and we expect to see the remainder of the applications during the next two or three weeks. This will give "Our Folks" a little idea of the value of the work we are doing on your behalf.

We continue to receive many applications for girls and boys from 13 to 16 years of age. This is a class of application that we do not care to handle except in exceptional circumstances, as there are very few children of that age in need of a home, as the demand for such children is much greater than the supply. We expect to fill most if not all of the applications for such children that we have received to date, but cannot undertake to supply children over 12 years of age hereafter.

At the time of going to press we have not had time to hear from our readers regarding the children whose pictures we published in last week's issue. By next week we hope to be able to report results about them, and also to publish the pictures of a number of other children for whom we are securing homes.

### What Canadian Live Stock Men Are Saying and Doing

(Continued from page 7)  
membership fees paid by each province. The motion was lost on the grounds that "a cast iron rule in this matter of executive representation is not in the best interests of this association." A test vote, however, showed the meeting to be in favor of the principle of representation according to membership and a committee was appointed to draw up some practicable scheme.

The annual report showed the association to be in a flourishing condition with a balance on hand of over \$10,000, and an excess of assets over liabilities of over \$34,000. Resolutions were passed changing the rule regarding the registration of Short-horns in accordance with the English herd book and giving the executive a freer hand in the allocation of prize money to exhibition boards. A rule was added to the effect that no application for registration be considered when the sire and dam of the animals concerned were less than nine and eight months of age respectively at time of service. The association voted \$100 towards the Red Cross Fund. The elections resulted as follows:

Pres., J. M. Gardhouse, Weston; First Vice-Pres., W. A. Dryden.

Brooklin; Second Vice-Pres., J. F. Mitchell, Burlington; Sec.-Treas., H. M. Pettit, Freeman. Directors: R. W. Caswell, Saskatoon; S. Dymen, Barrington; W. D. Cargill, Calgary; R. Elliott, Guelph; L. Washington, Niagara; M. W. C. Sutherland, Saskatoon; C. A. Archibald, Clifton; N. S. John Garhouse, Highfield; J. A. Watt, Elora; P. M. Bredt, Calgary; W. Smith, Columbia; G. Harbison, Carberry; Man; R. Amos, Moffat; J. A. McClary, Lennoxville; Que.; James Kyle, Drumbo.

### A New Swine Organization

The Dominion Swine Breeders' Association, at their annual meeting of the Ontario Swine Breeders' Association, the object of which is the more effective control of local conditions, so that the local swine breeders may cooperate to advance in the sale of stock in the Western and Maritime provinces. An arrangement was made whereby the Dominion Swine Breeders will cooperate with the Dominion Cattle Breeders' Association to ship as many calves of live stock to points in Quebec and the Maritime Provinces, so that the sales of swine and cattle in that part of the Dominion may be conducted more economically.

The following officers were elected for the ensuing year in the Dominion Association: Pres., J. D. Brien, Ridgeway; Vice-Pres., J. C. Stuart, Osgoode; Directors, P. J. McEwen, Kenora; W. C. Brien, Brant; William German, St. George; W. F. Wright, Glanworth; George Campbell, Chatham; George Gould, Essex; Alex. Hastings, Crosshill; Prof. Geo. Day, Guelph; Dr. Tolson, Victoria, B.C.

With the aid of the Society The Berkshire men had the unpleasant duty of outlawing one of their number for fraudulent practices. Officers were elected as follows: Pres., R. M. Vandalier, J. S. Cowan, A. Thompson, Stratford; Sec., R. W. Wade; Directors, W. W. Brownridge, R. M. Vandalier, J. S. Cowan, A. Thompson, S. Dobson, H. A. Dobson, T. W. Brown. The Ontario Swine Club elected officers as follows: Pres., J. C. Stuart, Osgoode; Vice-Pres., J. K. Featherston, Streetsville; W. J. M. Wade, Directors, W. Jones, Mount Ligin; J. Flatt, Hamilton; Wm. Manning, Woodville; H. L. McDiarmid, Fingal; Wm. Murdoch, Palmerston.

### Sheep Talk

"Let us talk sheep, not dogs. We have talked dogs until we are 'dog-tired'." So said Mr. Teller at the annual meeting of the Ontario Sheep Breeders' Association. Dogs, however were talked, and talked continuously for some time, but the general consensus of opinion seemed to be that the country dogs are responsible to the extent with which he is generally credited for the falling away in sheep husbandry. Hon. J. S. Duff, who arrived while the discussion was at its height, expressed the opinion that sheep killed by dogs should be paid for at their commercial value.

Motions were passed voting \$200 to the Ontario Winter Fair, \$100 to the Ottawa Winter Fair, and \$500 to the Belgian Relief or the Red Cross Society, providing the executive finds that the association can legally vote such money. It was the desire of the meeting that the contribution be in the form of woolen goods made in Canada. R. W. Wade was appointed secretary and Messrs. Campbell, Stobbs, Whitelaw and Bryan were added to the directorate.

Green cut bone will make hens lay in winter. Get a bone cutter, you cannot buy them already ground.
