"Leader" Fence

Has the
Double Grip Lock

Don't buy wire fence until you've seen our new woven fence which is so vastly superior that we have appropriately named it the Leader. It is a hard steel wire fence, heavily galvanized—both laterals and stays No. 9.

But the "Leader" Lock—that is the really great improvement. It has the double grip—makes twice as strong a binding—twice as strong and durable a fence. Of

Frame & Hay Fence Co., Ltd., Stratford, Canada

course, it takes more wire, but it makes a fence so much better that it will be that much easier to sell. Will give such genuine satisfaction that we are certain of repeat orders from all purchasers

Will You Sell "Leader" Fence For Us

in your locality? Also act as our representative for our complete line of farm and ornamental fence and gates? Write to-day for our money-making proposition.

THE DEERING

for
GRAIN CUTTING
WITHOUT
INTERRUPTIONS

WHEN the grain is ripe you want the work of harvesting to go right along. You cannot afford to be annoyed by breakages and delays.

Breakages and tinkering with the knoter or other parts to get them to work right means more than vexatious delays. It means expense and it may mean that you will not get your grain harvested in good condition.

The Deering binder comes nearer giving you insurance of uninterrupted work than any machine you can buy.

What can be more satisfactory to the grain grower at the beginning of harvest than to have a machine he knows he can depend upon?

The Deering binder is such a machine. It has stood the test in thousands of harvest fields.

It is not only dependable and

CANADIAN BRANCHES: Calgary, Alta., Hamilton, Ont., London, Ont., Montreal, P. Q., Ottawa, Ont., Regina, Sask., St. John, N. B., Winnipeg, Man.

INTERNATIONAL HARVESTER COMPANY OF AMERICA, CHICAGO, U. S. A.
(Incorporated)

right working but it harvests all the grain. It handles tall and short, light and heavy, down and tangled grain all to a nicety and with least possible loss. Machines are made in 5, 6, 7 and 8-foot cuts. In addition to grain harvesting machines the Deering line includes binder twine, mowers, tedders, sweep rakes, side delivery rakes, hay loaders, stackers, corn machines and knife grinders. Also a complete line of tillage implements and seeding machines, comprising disk drills, shoe drills, hoe drills, cultivators and seeders, smoothing, spring-tooth and disk harrows, land rollers and scufflers. Also gasoline engines, cream separators, hay presses, feed grinders, wagons, sleighs, and manure spreaders.

For all particulars call on the local Deering agent or write to any of the following branch houses for catalog:

THIS IS THE SHEET METAL AGE

All that is necessary to make a factory, warehouse, barn, shed or outbuilding of any description, wind, water, fire and lightning proof is to cover it with

Galt Corrugated Sheets

Made of the finest corrugating iron procurable; they will give at least fifty years satisfactory service.

Corrugations are not rolled; after the usual method. They are pressed, one corrugation at a time. This assures perfect uniformity—an accurate fit at both side and end laps.

Where warmth is a secondary consideration to fire, lightning and storm proof qualities; three-fourths of the wood sheathing may be saved, besides the lessened cost of the lighter frame which can be used.

Saving on lumber and labor brings cost of a building protected with Galt Corrugated Galvanized Sheets as low as if built entirely of wood. Galvanized or painted, whichever you prefer. Our Catalogue with complete information free on request.
