SUGAR MAKERS' ATTENTION

You are not giving your
maple grove a show to bring
you good returns when you
spend twice the amount of
time and fuel, and make a
poor grade of syrup using
primitive methods. Why not
try a

"Champion Evaporator"
and make syrup-making not
only a pleasure, but profitable.
We have a size just suited for
your maple grove

PEERLESS - PERFECTION

MEANS FENCE PROTECTION

Peerless Wire Fence does not serve
only as a mere boundary line for your
farm and pastures but gives real fence ser-
vice as a permanent barrier to trespassing and
wandering of stock.

You Should Fence Your Land With PEERLESS

We use high grade fence wire well galvanized. The joints are
united by the non-slippable Peerless Lock, making a fence that will
stand up against the most severe and sudden shocks without damage.
The horizontal wires are all crimped, making ample protection for con-
traction and expansion, keeping the fence always tight even under
extreme variations of temperature.

We also manufacture a wonderful line of poultry fencing and farm gates.
Agencies almost everywhere. Agents wanted in all unassigned territory.

RELIABILITY A feature you can count on when you buy a "BAKER" WIND ENGINE.

Baker mills have no freak features
to exploit. The man who buys this
mill makes a good investment. He does
not take a chance. The quality, effi-
ency and reliability of the "BAKER"
are "known quantities" in keeping
with our past record of over 30 years.
We invite honest comparison in every
way. The wheel is built on a hub re-
volving on a long stationary steel spindle.
As a result less friction. It has a large
number of small sails without rivets.
The small sails develop the full power
of the wind. The engine is so con-
structed that the gears cannot wear
out of mesh, and is provided with a
ball-bearing turntable and self-regulating device. All working parts covered with
a cast iron shield, thus protecting same from ice and sleet. We make a full line of
steel towers, galvanized steel tanks, pumps, etc. Write for catalogue.
