

HAIL INSURANCE

Many who read this will remember what a trouble Hail Insurance was in Western Canada eleven years ago. How certain companies had secured patronage on promises that were never fulfilled, how insurers were sued for their promises when they could not get a dollar of indemnity for loss, and how the Provincial and Territorial Governments were obliged to take action to straighten out the tangle.

No less and general was the distrust of Company Hail Insurance when our plan was first introduced in 1900 that we found it most difficult to get anyone that we had something based on sound business principles and which could be relied upon to do what we claimed for it. But we had the courage of our convictions, and under the closest scrutiny and most severe criticism by actual dealers, stations, and the merits we gradually won for our plan and the manner in which we administered it the confidence of all classes in any way concerned with Hail Insurance, with the result that when the Government system of Hail Insurance was established in Saskatchewan two years ago our plan was the first to receive permission to transact business in that Province, and in 1910 there was more business written on this plan than on all others combined.

Anything that could win out against such odds must have the qualities people look for in good business, and those who know the history of Hail Insurance in Western Canada and what our plan has done to put it on a sound business basis are our staunch friends, yet

"Fools rush in where Angels fear to tread"

and certain competitors from outside, with little or no experience in Hail Insurance business, having no knowledge whatever of conditions in Western Canada, undertake to point out the weaknesses of our system and extol the merits of what they have to offer. They may win a place after a while if they make good, but in the meantime the majority of those who give thought to these matters will decide that what has been tried and proved to be all right is what they want.

Standard Wire Fence

Here's the Fence That is all Steel—
Steel wire, steel locks, steel posts. Standard Woven Wire Fence is all No. 9 hard steel wire, well galvanized. "The Tie That Binds" is hard, smooth steel that holds uprights and running wires absolutely secure without injury. Standard Patent Posts are 12 gauge steel, bent at right angles, and so constructed that wires are held without staples. Let us sell you a lot of other things about the Standard Wire Fence and our Metal Gates of Galvanized Tubing. Our fences are full of fence facts. Write for free copies and sample lock.

Ask the Man Who Owns

AN AVERY UNDERMOUNTED ENGINE

Or a YELLOW FELLOW SEPARATOR

TESTIMONIAL

Winkler, Man., May 14th, 1910.
Haug Bros & Nellerhoe Co., Ltd., Winnipeg, Man.
Dear Sir—
The motor that my father, Mr. Isaac Dyck, bought of you last fall is the handiest machine that ever came to Winkler. It is a 20 H.P. Undermounted and a Yellow Separator. I ran the motor the whole season, and it is the best motor I ever worked at. The engine is a beauty, he is just as strong as any 25 H.P. of other makes, and is easier to steam. It has a great power both under the belt and on the road. If some one would ask me what machine is the best, I would surely say the Avery, and if I ever buy a machine it will be an AVERY and a YELLOW FELLOW.

I remain, very truly yours,
(Signed) JACOB E. DYCK.

It will pay you to get full particulars before placing your order
