

Snow Affects Military Work Very Seriously

Heavy Guns May be Lost in Big Snow Storm, So Are Not Used.

Geneva, Switzerland, Nov. 20.—(Correspondence of The Associated Press)—In the semi-circle from Trentino to Trieste where Austro-Germans and Italians are fighting for supremacy, military operations will be seriously affected by snow. Neither side dares to advance large guns which may be

lost in a night owing to a heavy snowfall. On the Austro-Italian frontier where fighting is taking place at ten thousand feet above sea level over several miles of mountains where every little pass means a small battle, weather conditions and snow are important factors. On these mountains ordinary regiments, however brave, are practically useless as they cannot stand the climate and only Alpine troops on both sides are being utilized. Since the beginning of October, several feet of snow has fallen in the Swiss Tyrol and Italian Alps above 9,000 feet and there is besides always the danger of an avalanche. Under these conditions Alpine warfare will be impossible even for a strong force. The men and mountain artillery are practically buried in deep snow in the higher Alps and the attack must be

postponed until Spring. Thus Italy feels secure from an invasion of Lombardy and Venetia during the winter and can employ her reserve forces for other spheres. On the Isonzo however, it is another matter for the country around is a plain and there is little doubt that the Italian army will attempt to force its way to Trieste and Fiume via Tolmino and Gorizia this winter. Daily attacks on these two towns on the main railway are becoming fiercer. The Italians continue to bring up more heavy artillery which now is in a semi-circle around both cities.

The Inward Effects of humors are worse than the outward. They endanger the whole system. Hood's Sarsaparilla cures all humors, cures all their inward and outward effects. It is the great alterative and tonic, whose merit has been everywhere established.

HALF MILLION POUNDS OF HALIBUT COMING FROM PRINCE RUPERT

Prince Rupert, B.C., Nov. 17.—A new fishery record for the port has just been made, over half a million pounds of fresh halibut being landed here in two days. Just as fast as the fish can be packed in ice and placed in refrigerator cars, they are sent to the eastern markets. Seventeen carloads of halibut, the greatest sin-

gle shipment ever made, left on two trains over the Grand Trunk Pacific. The big catches have followed a period of rough weather on the fishing banks. With better conditions prevailing the water front here presents an active appearance both day and night, many of the ships bringing in over 100,000 pounds of halibut. There is little difficulty in disposing of even these big catches as the markets in Chicago, New York, Montreal, Toronto, and other large cities now look forward to consignments of Prince Rupert halibut, the method of transportation in Canadian-Express refrigeration cars guaranteeing perfect condition.

HUNS RELEASE SON OF GOSCHEN

Lieutenant Freed Out of Confinement of Former British Envoy to Berlin.

Berlin, Nov. 24.—Out of consideration for his father, Sir William Edward Goschen, former British Ambassador to Germany, the government has authorized the release of Lieut. Gerard Goschen, who was wounded and captured in the early stage of the war in France.

Lieut. Goschen was among the British officers who, after they had apparently recovered from wounds, were selected to undergo solitary confinement in Germany in retaliation for the treatment of officers and crews of German submarines by the British. Lieut. Goschen and the other officers were visited in the early summer by representatives of the American Embassy, and later it was announced that the Lieutenant, whose health had suffered severely, would probably be transferred to a sanitarium.

Dropped Dead.

Kingston, Ont., Nov. 23.—William Henry Cassidy, aged 58, shipyard foreman for the Montreal Transportation Company, dropped dead from heart disease while at work this morning. His brother, Andrew Cassidy, saw him fall and was the first to reach him. A wife and five children survive.
