**BUT DODD'S KIDNEY PILLS MADE HIM A NEW MAN.**

Richard Quirk Doctored for a Dozen Years and Thought His Case Incurable—Dodd's Kidney Pills Cured Him.

Fortune Harbor, Nfld., Jan. 1.—(Special).—Scores of people in this neighborhood are living proofs that Dodd's Kidney Pills cure all Kidney ailments from Backache to Bright's Disease. Among the most remarkable cures is that of Mr. Richard Quirk, and he gives the story of it to the public as follows:

"I suffered for over twenty years from Lumbago and Kidney Disease, and at intervals was totally unable to work. After ten or twelve years of doctor's treatment, I had made up my mind that my complaint was incurable. Reading of cures by Dodd's Kidney Pills tempted me to try them. I did so with little faith, but to my great surprise I had not taken more than half a box before I felt relief, and after the use of seven or eight boxes, I was fully cured and a new man.

"Yes, Dodd's Kidney Pills cured my Lumbago and Kidney Disease, and the best of it is I have stayed cured."

**HUNGARY IS IN DANGER.  
Money Spent for Drink and Taxes are Ignored.**

Baron Fejervary, the Hungarian Premier, said in an interview recently that the present Governmental anarchy in that country might end in absolutism.

"There are people to be found," he stated, "who say that absolutism for a while is better than chaos forever.

"The programme of the Coalition—to pay no taxes and to furnish no recruits—appeals to the masses, especially to the more worthless members of the community. Nevertheless, it is a short-sighted policy, which brings its own punishment. The arrears will have to be paid some day, and the Coalition will be the first to exact them if ever it comes into office.

"But the money is gone—chiefly in drink. Since the passive resistance began, the yearly deficit in regular taxation is at the rate of thirty millions, and the annual increase under the head of spirits is over twenty millions. That means that the peasants, instead of contributing to the needs of the Coalition, and the money which ought to go into the treasury, finds its way into the spirit shops.

"The present state of affairs is one that cannot continue without political, commercially and morally ruining Hungary. All sense of discipline and public duty is being corrupted."

**PRESENCE OF MIND.**

Old Bachelor (concluding story)—Thus I was saved by mere presence of mind. Young Friend gloomily—Great thing—presence of mind. I might have been a rich man to-day if my presence of mind had not failed me at one time. Old Bachelor—Indeed! When was that?

Young Friend—You remember my uncle George—rich old duffer? Well, sir, I was with him one day when he was taken with a fit. I was so frightened that I lost my presence of mind and called in a doctor, and uncle George is living yet.

**MALARIA ???**

Generally That is Not the Trouble.

Persons with a susceptibility to malarial influences should beware of coffee, which has a tendency to load up the liver with bile.

A lady writes from Denver that she suffered for years from chills and fever which at last she learned were mainly produced by the coffee she drank.

"I was also grievously afflicted with headaches and indigestion," she says, "which I became satisfied were likewise largely due to the coffee I drank. Six months ago I quit its use altogether and began to drink Postum Food Coffee, with the gratifying result that my headaches have disappeared, my indigestion has been restored and I have not had a recurrence of chills and fever for more than three months. I have no doubt that it was Postum that brought me this relief, for I have used no medicine while this improvement has been going on." (It was really relief from congestion of the liver caused by coffee.)

"My daughter has been as great a coffee drinker as I, and for years was afflicted with terrible sick headaches, which often lasted for a week at a time. She is a brain worker and excessive application together with the headaches began to affect her memory most seriously. She found no help in medicines and the doctor frankly advised her to quit coffee and use Postum.

"For more than four months she has not had a headache—her mental faculties have grown more active and vigorous and her memory has been restored.

"No more tea, coffee or drugs for us, so long as we can get Postum." Name given by Postum Co., Battle Creek, Mich.

**VALUE OF HERRING.**

The herring is more largely used as an article of food than any other fish both in its fresh and cured states. More than 250,000 tons of herrings are landed on the coasts of Great Britain every year, representing a money value of about \$6,000,000.

While more prevalent in winter, when sudden changes in the weather try the strongest constitutions, colds and coughs and ailments of the throat may come in any season. At the first slight derangement use Bickel's Anti-Consumptive Syrup. Instant relief will be experienced, and use of the medicine until the cold disappears will protect the lungs from attack. For anyone with throat or chest weakness it cannot be surpassed.

Sermons that are easy on the pulpit may be hard on the people.

Holloway's Corn Cure destroys all kinds of corns and warts, root and branch. Who, then, would endure them with such a cheap and effectual remedy within reach?

Opportunity makes the man after the man has made the opportunity.

Ma—"Certainly, my dear."

Tommy—"All right; gimme some cake for him then."

Tested by Time.—In his justly-celebrated Pills Dr. Parmelee has given to the world one of the most unique medicines offered to the public in late years. Prepared to meet the want for a pill which could be taken without nausea, and that would purge without pain, it has met all requirements in that direction, and it is in general use not only because of these two qualities, but because it is known to possess alternative and curative powers which place it in the front rank of medicines.

**THE EAR OF THE BABY.**

London Physician Gives Pointers to Fond Parents.

Dr. Francis Warner, physician to the London Hospital, in an address at a meeting of the National Association for the Feeble-minded, has given some extremely interesting points to be studied in children with a view to gaining some knowledge of their mental condition.

The absence of the pleat ridge from the outside ear, said Dr. Warner, is a sign of a defective child. Among 100,000 children whom he had examined he had noticed that defective ears were five times more numerous in boys than girls.

The small mouth, so often praised by novelists, is also, said Dr. Warner, a sign of a defective child.

The movements of the fingers and toes of a week-old child are spontaneous and cannot be arrested by a sound or anything held up before its eyes. If, however, at the age of five or six months, the sound of a voice or some object, such as a red doll, failed to arrest the movements for a few seconds, then there was reason for anxiety.

The face, and after that the hand, affords the best index to the state of the brain. Horizontal furrows on the brows of a group of loafing boys can often be seen, formed by the working of the frontal muscles. "Go into the monkey house at the Zoo," said Dr. Warner, "and you will see the frontal muscles of the monkeys working in the same way, and the same thing can be seen in an asylum for idiots."

A well-balanced hand, level from the wrist to the finger tips, indicates a well-balanced mind; if the hand drops at the wrist or if the thumb droops, it shows some degree of mental weakness.

His Mother—"What are you moping about the house for, Tommy? Why don't you go over and play with Charley Pinafore?" Tommy—"Cause I played with Charley Pinafore yesterday, and I don't s'pose he's well enough yet."

"All the good jokes have been written."

60 Specialists on the Case.—In the ordinary run of medical practice a greater number than this have treated cases of chronic dyspepsia and have failed to cure—but Dr. Von Stan's Pineapple Tablets (60 in a box at 35 cents cost) have made the cure, giving relief in one day. These little "specialists" have proven their real merit.—72

"Your father is certainly the politest man I know." "What makes you say that?" "He's pretending that he's cured of his dyspepsia in order that he shall not hurt his doctor's feelings!"

Its Power Grows with Age.—How many medicines loudly blazoned as panaceas for all human ills have come and gone since Dr. Thomas' Electric Oil was first put upon the market? Yet it remains, doing more good to humanity than many a preparation more highly valued and extending its virtues wider and wider and in a larger circle every year. It is the medicine of the masses.

**PUMPS**

Mrs. Hix—"Mrs. June strikes me as being entirely too masculine for a woman." Mrs. Dix—"Yes, indeed. Why, every time she has a ache or pain she makes as much fuss about it as a man would."

It is a Liver Pill—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ particularly susceptible to the disturbances that come from irregular habits or took care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmelee's Vegetable Pills. Their operation though gentle is effective, and the most delicate can use them.

20 Years of Vile Catarrh.—Chas. O. Brown, journalist of Duluth, Minn., writes: "I have been a sufferer from Throat and Nasal Catarrh for over 20 years, during which time my head has been stopped up and my condition truly miserable. **MOUNTAIN STAIRCASE.**

For the ascent of Mount Omi, on the borderland between Western China and the Tibetan plateau, there is an artificial staircase consisting of 20,000 steps, cut in slippery limestone. Wh: made these steps is largely a matter of surmise, but they were probably formed by religious enthusiasts to provide a means of access from the hot plains, out of which the mountain mass rises abruptly to the heights, 5,000 feet to 11,000 feet above, amongst which the Buddhist abbey of Omi embodies some of the holiest traditions of the religion professed by its inmates. Anyhow the staircase is there, and by it many pilgrims attain the shrine.

"I've got a washing-machine here," began the inventor. The capitalist looked at him in the cold, calculating manner common to capitalists, and answered: "Well, if I were you, I'd run straight home and use it." That night the anarchist band received another application for membership.
