

*It's Cheaper to Paint
than Repair*

Y OUR house—if it is four years old or older—is worth at least 50 per cent more today than when it was built. Lumber and cement are so high that it would cost half as much again to build this year as it did in 1914. So it is obvious that either a new house or an old one is today so valuable a property that its owner must conserve it unless he is committed to a policy of wilful waste. Keep your house—and all your buildings—protected. And let your paint-protection consist of an economical paint. Use the paint that goes farthest—lasts longest.

B-H PAINT 70% Pure White Lead
30% Pure White Zinc
100% Pure Paint

The kind we guarantee to possess as its important base, the above correct formula. This formula, printed on every can over our President's signature, commits us to this standard. High in cost as white lead has become, we must use as much of it as before—to use less, would necessitate the removal of the guarantee from our cans and would injure the high reputation, which these paints have acquired by reason of their superior ingredients.

Other B-H Products of Sterling Worth

We carry and recommend the following B-H products:

For Interior Finishing "China-Lac" — the perfect Varnish Stain.	Plaster Ceilings and Walls. "Fresconette"—a flat tone oil paint.

**Most Heat
from Fuel**

One reason why the Kootenay Range gives the most use of the heat generated from the fuel, is that the grates have ample vents to make perfect combustion in the firebox, which is properly and scientifically proportioned according to the needs of the range.

**BIG SHIPYARD FOR
HALIFAX.**

Two of the most prominent shipping men in Canada, Mr. Joseph W. Norcross and Mr. W. M. Wolvin, both of Montreal, visited Halifax last week and made a careful examination of the harbor and are understood to have chosen a site, the location of which, was not announced, on which to build a modern drydock, and in addition a shipyard. It is reported that they consider the prospects of business with a drydock to promise as great a profit as from a shipyard, and it is thought that the drydock is their main proposition, and the shipyard an auxiliary enterprise. They returned to Montreal Sunday afternoon, and it is understood that they will return shortly and conclude all necessary arrangements.

**STEAMER TORPEDOED WAS
THE ORONSA.**

London, April 30.—It was the British steamer Oronsa which was torpedoed with the party of fifty-seven American army Y. M. C. A. workers. The first public announcement here of the torpedoing of the Oronsa, which occurred early Sunday morning, was made in this morning's newspapers.

BULGARIA'S CONCESSION.

WASHINGTON, April 30.—Bulgaria has agreed to let Turkey have the Adrianople Station on the Karagatch railroad, as well as the left bank of the Maritza River up to Kuledi Buzas, according to a despatch today from France. These territories were claimed by Turkey in compensation for the Dobrudja.

Bill Nye, the humorist, once had a cow he wanted to sell and he unblushingly advertised all her faults while naming the few virtues she seems to have possessed. His advertisement ran:

"owing to my ill health, I will sell at my residence in township 19, range 18, according to the government's survey, one plush raspberry cow, age eight years. She is of undoubted courage and gives milk frequently. To a man who does not fear death in any form, she would be a great boon. She is very much attached to her present home with a stay-chain, but she will be sold to any one who will agree to treat her right. She is one-fourth Shorthorn and three-quarters hyena. I will also throw in a double-barrel shotgun which goes with her. In May she usually goes away for a week or to and returns with a tall red calf with webby legs. Her name is Rose. I would rather sell her to a non-resident, the farther away the better."

**GERMAN IN PARIS
IN FRENCH UNIFORM.**

PARIS, APRIL 22.—Wearing the uniform of a French infantryman, a German was arrested in the streets of Paris yesterday. He told the authorities he was born in Alsace and had deserted from the German army after being brought to the western front from Galac. The police are of the opinion that the prisoner is a Gascon.

Crop reports received from Alberta indicate that conditions were never better and it is estimated that the average increase in acreage seeded will be in the neighborhood of twenty per cent.

Good Health.

The governments of both Canada and the United States have stringent regulations regarding food adulterations. Makers are now forbidden to label an article "pure" that is not just as represented.

It was the HONEST manufacturer that worked to have these laws passed.

When a manufacturer of food products advertises his goods as "pure," under the present Canadian laws, they are really pure; you can depend upon that. It will pay you to insist upon the advertised brands. If you accept substitutes you CANNOT be sure.
