To the cold December heaven
Came the pale moon and the star
As the yellow sun was sinking
Behind the purple bars.

The snow was deeply drifted Upon the ridges drear That lay for miles around me, And the camps for which we

Twas silent on the hillside, And by the solemn wood, No sound of life or motion To break the solitude.

To break the softude.

Save the wailing of the moose-bird
With a plaintive note and low.
And the skating of the red leaf
Upon the frozen snow.

And said 1. Though dark is falling.
And far the camp must be.
Yet my heart it would be lightsome
If I had but company.

And then I sang and shouted, Keeping measure as I speed, To the harp-twang of the snowshoe As it sprang beneath my tread.

Not far into the valley
Had I dipped upon my way
When a dusky figure joined me,
In a capuchin of gray.

Bending upon the snowshoes, With a long and limber stride; And I hailed the dusky stranger As we travelled side by side.

She was at a party. He had not yet arrived, but she was momentarily expecting him. The hum of conversation through the room had no significance for her; all her faculties were bent on the front door.

Every time it opened, at every step in the hall, she would start, while her face would flush and her eyes light up with feverish expectation. Then the color would go back from her cheeks, her eyes would dull and her heart sink when another than he came into the room.

Mr. Avard Beeler is interested in a lucky gold strike at Chester Basin. At the solicitation of his cousin, Mr. E. F. Beeler, of Berwick, who is something of a mining expert, he invested a few dollars in prospecting. A rich lead was unearthed in the Gold River district, adjoining the well known Lawn property and the new field is undoubtedly worth a lot of money. Monitor
