Interview.

Constantinople, Aug. 10.—A dispatch received here from Taurus, Asia Minor, says that a mob attacked the American mission school at that place, maltreated several of the students, and threatened the missionaries. No details of the affair have yet reached here.

Boston, Mass., Aug. 10.—A representative of the Associated Press walked upon the Rev. James D. Burton, one of the Secretaries of the American Board of Commissioners for Foreign Missions. He said: "The St. Paul's American Institute at Taurus was instituted five or six years ago by Col. Shephard of New York. The president on the Institute at the present time is the Rev. D. Christie, D.D. The Institute does not belong to the American Board, but has been a considerable trouble among the students, and during the past year and last winter several of them were arrested and taken out of the school for being implicated in some revolutionary movement. There are about 150 students at present."

Shanghai, Aug. 10.—The Americans here have sent a cable despatch to President Cleveland protesting against the United States Minister Denby's action in consenting that the British Consul should represent America in the Chinese Institute. They also recommend that a marine escort accompany the commissioner.

**CANADA'S TRADE.**  
Increase in the Volume of Trade Especially  
With Great Britain.  
Washington, Aug. 11.—The extent of the competition of Canada with the United States in foreign markets is pointed out in a bulletin to be issued by the Secretary of Agriculture in a few days.

The bulletin is the fourth of the "World's Markets" series in course of publication by the department, and contains reports of thirty of our countries in the Dominion. It shows that the total exports of Canada increased from \$90,000,000 in 1885 to \$116,000,000 in 1894. The total imports from \$100,000,000 to \$123,000,000, or thirteen per cent, and the total trade from \$190,000,000 to \$241,000,000, or 26 per cent, during the same period. The largest proportional annual increase was in 1894, when the value of the trade exceeded that of the preceding year about eleven per cent. During the years 1888 to 1894, inclusive, the trade with the United States exceeded that with any other country, but since then the United Kingdom has again become the chief market for our goods.

An important fact is that a large share of the agricultural products shipped last year to the United States were from Canada. The total value of the exports of agricultural products to the United States in 1894 was \$116,000,000, or 100 per cent of the total value of our exports to that country. The total value of our exports to the United States in 1885 was \$90,000,000, or 100 per cent of the total value of our exports to that country.

**BERLIN NEWS.**  
Kerenski Changes His Counsel—In-  
vestigating the Customs Shortage.  
Berlin, Oct. 13.—The prisoner Kerenski, lying in gaol charged with murdering Dr. Jankovitch, has changed his counsel. At first he retained a lawyer C. Bilz, of this town, to defend him, but his friends have retained Mr. A. Movat, of Guelph, instead. Mr. Movat successfully defended Reinhardt, the Lithuanian man accused of murdering Michael Hansen some years ago, and the prisoner's friends think that if Mr. Movat can get Kerenski off he can do the same with the present alleged murderer. Detective Grieg, of Toronto, arrived in town last night to report on the case, and this morning he and Detective Klippert drove out to the scene of the murder. At the investigation of the prisoner's counsel, a number of doctors were allowed to examine the scratches and bruises on Kerenski's face this morning in order to express an opinion as to the fact as to whether they were made by a limb of a tree or by a man's hands. The prisoner will appear before the Magistrate again next Wednesday, and will then likely be finally committed for trial at the Fall Assizes.

**MANITOBA MATTERS.**  
Fined for Shooting at Bathers—Fears That  
the Cree May be Harassed by Front  
Winthrop, Aug. 13.—On Saturday morning F. W. Stober stood his trial on the charge of wounding two men, Indian and white, on the shore of Lake Winnipeg. Stober deliberately shot certain parties who were bathing near his residence at Armstrong's Point, Stober pleaded not guilty. Chief Taylor found him guilty, and imposed a fine of fifty dollars. Friday night turned very cold, and the temperature was estimated to be over a hundred degrees below zero. The Cree were damaged by frost yesterday night and to-day morning were not allowed to go out.

**THE SCHOOL QUESTION.**  
Premier Greenway's Organ on the Crisis—  
Will Not be Whipped into Submission.  
Winnipeg, Man., Aug. 13.—The declaration of an Eastern newspaper that if Manitoba did not obey the order to restore Roman Catholic parochial schools it would be whipped into submission by force has intensified the bitterness here. The Tribune, the organ of Premier Greenway, in an article published on the 11th, says: "Manitoba will not be whipped into submission to that ridiculous suggestion which supposes that governing the country, on the contrary, it proposes subjugating that aggression—let there be no misunderstanding. If the Imperial Privy Council should attempt to exercise jurisdiction, and by doing so, should infringe upon the interests of Manitoba, this province may be counted upon not to question its jurisdiction. Manitoba is a truly loyal community. True loyalty is not a blind obedience to a ruler, and true loyalty is not incompatible with resistance to the oppressive coercive restriction or deprivation of constitutional rights."

**FOREIGN.**  
The catch of codfish on the coast of Labrador is reported to be unprecedentedly large this season.  
Advice received in Constantinople from Taurus, Asia Minor, says that a mob has attacked the American mission school at that place.

**FIRE BUG ON TRIAL.**  
Past History of the Self-Confessed In-  
cendiary Fenwick.  
Montreal, Aug. 9.—The case of Hayes and Jenkins, charged with arson, was continued to-day, when some further sensational evidence in connection with the burning of Boyd, Gillies & Co.'s establishment was adduced. Fenwick continued his confession of the crime. He stated that he was an Englishman, and came to this country on May 11, 1883. He refused to state what his occupation was, but finally said he was engaged as assistant auctioneer at Oxford University for about twelve years. He was in Montreal for about twelve years. He was in Glasgow for six years in the Greenwald Observatory. Asked when he left Oxford, he answered it was in the beginning of April, 1888. He left on account of slight financial difficulties. After leaving Oxford he went to London and then to Glasgow. He was not employed at the time. His position at Oxford required a certain knowledge of chemistry and electricity as applied to astronomical physics. After arriving here he was unemployed for about twelve months. He was in a couple of weeks after arriving here, and gave him some instruction in photography at his rooms. Hayes simply took these as a matter of course, and afterwards took a degree at Chautauque in this business. After some unimportant evidence regarding his previous occupations and arrest, Fenwick denied having purchased any materials, with which he set fire to the building. He was in the prisoner Hayes was with him part of the time, and he was in the warehouse when the stuff was bought at London's. He was there with Hayes in quest of a man named Clarke to purchase the materials obtained. He did not know who received the materials at Boyd, Gillies & Co.'s. He arranged the combustibles in the warehouse. As this work was the part assigned to him, Fenwick while he was doing this, and went out for a flask of whiskey.
