

THE ACADIAN

THE SCIENCE OF MEDICINE.

Wonderful Advances Made In the Last Few Years.

Mr. John McGovern of Toronto relates an experience of Deep Lumbago—Utterly Helpless and Suffered Greatly Before Relief Came.

Very little is known by the general public of the great discovery of medicine, and the scientific roots of life, that are saved by the advancing knowledge of medical science. People who a few years ago were led to drag out a miserable existence as hopeless invalids, or habitually afflicted now, thanks to the advance medicine has made, are able to live a normal life.

Mr. John McGovern, who resides at No. 2 Alpha Avenue, in the city, has good cause to appreciate the truth of the above statements. Mr. McGovern was formerly an agent for agricultural implements, and is well known in different parts of Ontario. A Globe reporter, who had heard that he had been referred to by a doctor, after an illness which threatened to leave him a hopeless cripple, called upon him at his residence recently, and was given the following interesting account of his case:

"My trouble first began," said Mr. McGovern, "two years ago when I was living in the village of Bolton, in the County of Peel. The trouble was in my elbows and knees, and the doctors thought it was rheumatism. I couldn't walk a block without wincing at the pain, and even to walk down stairs was hard work. It afflicted me terribly. I was all right in other ways but for this terrible weakness. For a year and a half I suffered from this, but by sheer force of will held out against it, and managed to get about; but six months later I broke down completely, and had to give up my business. I then removed to Toronto, and for three months after this I was in terrible shape. I was almost always confined to my bed, being able to come downstairs for a while perhaps once a day. I suffered from the time from a terrible lumbago in the back, and at this juncture my appetite began to fail, and I was only able to eat the lightest food, and not much of that. I could find nothing to help me or give relief. All this time I was unable to do anything, and had not for some time had a little money laid by which enabled me to go on, I would have been dependent upon my family for support. Well, while I was in this state of things, my eldest son prevailed upon me to try Dr. Williams' Pink Pills, and I began to feel better. Before the first box was finished I began to get relief, and from that out I steadily improved until I was able to discontinue the use of the Pink Pills, feeling that I was fully restored to health. I am so glad in my own mind that had it not been for Dr. Williams' Pink Pills, I would have still been helpless and suffering, and I have much reason to be thankful that my son persuaded me to use them. Thanks to Pink Pills I am now a new man and intend soon to resume my work."

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the like. Feeling therefore, the after effects of a long illness, the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for the trouble peculiar to the female system, and in the case of many they effect a radical cure in all cases arising from mental worry, overwork, or excess of any nature.

Dear Sir: In mind Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Ask your dealer for Dr. Williams' Pink Pills for Pale People and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had from the Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y., at 50 cents a box, or six boxes for \$2.50. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

It is generally the saddest thing in the world to drive a horse without spirit where there is one recorded instance where a stage coach driver covered himself with glory by doing just that thing. He was an old-timer, this driver, and one afternoon in the days of long ago he and his coach and four came riding up to the door of the tavern like an avalanche. As the coach stopped one of the horses dropped dead.

"That was a very sudden death," remarked a bystander.

"That sudden!" coolly responded the driver. "That was died at the top of the hill nine miles back, sir; but I wasn't going to let him down till I got to the regular stopping place."

I think you have such a pretty name, Miss Leroy, said the cheerful idiot.

Do you? Thank you.

I do, indeed. Edith Loren Leroy.

Why it is absolutely music to my ears, I don't wonder that you have not changed it in all these years.

Small Jack's father does not smoke, and hence it was that when he saw his uncle smoking a cigar he was full of wonder. Later on, in a candy shop, he asked for "Some of those chocolate sticks what has smoke in 'em."

How can you call Timmie's poetry parables? Nobody reads it.

I didn't mean that it was the kind that everybody reads; I mean that it is

Next meeting in Temperance Hall, Thursday, July 10th, at 8:30 p.m. Meetings are always open to any who wish to become members.

Gospel Temperance meetings, conducted by members of the W. C. T. U., are held every Sunday afternoon at 4:15 o'clock, in the vestry of the Methodist church. All are welcome.

DOMINION W. C. T. U.

The seventh annual convention of the Dominion W. C. T. U. was held recently in London, Ont. The following paragraph is taken from an editorial report of the proceedings which will be of interest to our readers.

"We were sorry that our space would not permit of the whole report being published."

"Eating and Lumbermen" of which department, Mrs. Brough, Antigonish, N. S., is superintendent, presented an interesting review of the year's work.

It was read by Mrs. John Cameron, of this city. The work of the twelve months had been given great encouragement.

In many camps thousands of pages of literature were distributed and many kind letters of acknowledgment had been received. More than 28 unions in Ontario were carrying on the evangelistic work and 34 Naudy had been engaged for three months to visit the lumbermen.

Heid and secured a large number of the woodmen. In the Maritime Province the work was also being carried on with vigor.

Mrs. Barney received an ovation which surprised that given her at Victoria Hall on Sunday afternoon. She chose as her subject "Clean hands," and throughout the address gave many beautiful and touching illustrations.

By her earnest manner and pleasing delivery she commands the attention of her auditors. Mrs. Barney introduced her friend, a quotation from Deuteronomy, 21st chapter, referring to the murder of a man, and how she felt of the city in which he lived came, it was the custom, and wash their hands to clear themselves from all concern on which the crime.

The quotation of Mrs. Barney was excellent opportunity for a practical lesson, and she took advantage of it with great effect. And in this nineteenth century, the lecture did it not recur to every person that here we men who in consideration of a sated sin we give the privilege to commit murder in a certain way? It was so. And if that ancient law could be applied to the present, it would be a great help to our national legislators come forward and declare their hands clean from guilt?

No; they could not. The prayer offered by Christ on Calvary, "Forgive them, for they know not what they do," could not be offered for the people of this era. They know what to do, and the only one who could claim innocence in connection with the crime were those who have steadily been at work to stop the downward trend of the nation of violence men and women. This temperance question, Mrs. Barney said, could never be solved without the cooperation of women.

Mrs. Bullock represented the Maritime Province in the absence of the president. She said the temperance movement was growing rapidly, and the fact that the Atlantic seemed to be taken it could help it to grow stronger. The department of evangelistic work was being taken up more and more. The lady superintendent was doing good work among the prisoners in the city of Nova Scotia and New Brunswick.

Mrs. Bullock's address was a held men's and in some districts weekly, which proved very interesting and instructive. They also had a "Ladies' Club" for wives and wives pick up all the streets, and whose presence gladdens away all claim to them. In connection with this a mother's meeting for working women was held on Sunday afternoon. Good work was also done in connection with editors, fabricators and tamblers, and this branch was not only called on by the society unions, but inland societies also sent a message. Another item of work was a "Women's Exchange," where working women could sell their work with a little commission charged that it was almost a charity. In closing, Mrs. Bullock earnestly asked that the children be taught to temperance.

"Hygiene and Heredity" was the subject of a report by Mrs. Craig, Comptroller, N. B. It was read by Mrs. Sanderson, in Montreal, since the work of Mrs. Craig, a teacher had been made in the work of the department. Since the lady was a teacher of ten children, it was a very interesting and instructive.

"The Summer Deities"—The poetical evidence of the danger of Cholera, Measles, Diphtheria, and Typhoid, is the increase in the death-rate of all the leading cities during the summer months. Men and women cannot be too careful of their habits of life during the hot term, and particular attention should be paid to the diet of children. A couple of "Penny Darts" from Kingston should always be at hand, for this is the only medicine that can be relied on at all times of acute, sore, and speedy. A feast of powerful will, one very ordinary case, but in severe cases it is a life-saver, and it is a very good thing to have it at hand.

"I hope, for, you will assist a poor man whose house and everything that was in it, including me family, was burned up two months ago last Thursday, sir."

The merchant to whom this appeal was addressed, while very philanthropic, is also very cautious, so he said: "Have you any papers or certificates to show that you lost anything by the fire?"

"I don't have a certificate, sir. I lost before a notary public, to that effect, but it was burned up, sir. In the house which was burned up, the rest of me family."

"I don't have a certificate, sir. I lost before a notary public, to that effect, but it was burned up, sir. In the house which was burned up, the rest of me family."

"I don't have a certificate, sir. I lost before a notary public, to that effect, but it was burned up, sir. In the house which was burned up, the rest of me family."

"I don't have a certificate, sir. I lost before a notary public, to that effect, but it was burned up, sir. In the house which was burned up, the rest of me family."

"I don't have a certificate, sir. I lost before a notary public, to that effect, but it was burned up, sir. In the house which was burned up, the rest of me family."
