Mary's Point Quarries.

THE ARCHIBALD QUARRY.—FIVE NEW

wheat raisers and flour dealers. Mr. dip south of 45%. Their strike frontage, 8 storeys high, cor. Broadsupply of red stone. The Co. also Blake said at Cartweight: "I think easterly is towards Cape Maranguin, way and 19th, is being built of this own an extensive property at

some of their other quarrying pro-perties. There is but little ming-house for 30 men, and are building perties. There is but little mirgling of different colors in the same
bed, that so often ruins quarry specsulations. On the contrary, the uniformity of color in each bed is very
striking. These distinct and different shades give the architect fine
scope for his ingenuity in designing.
And the monument he builds of this
stone, whether over the resting place
of the departed, some palace on 5th
Avenue or princely mercantile cdifice, will speak for ages his praise.

There on men, and are building one 80 feet front, with wings, &c.,
to accommodate 150 men. They intend to build a church and school.

Mary's Point not only is a fine uparrying property but with ordinary
labor could be made one if not the
most productive upland farms
in Albert County. It is a
delightful place, finely located,
smidst some of the richest
scenery ever beheld, and to wander
through its pleasant groves is a

would have preferred suffering for their country, to having their country, to having their country, to having their country to have a coun try suffer for them.

As soon as the Land League proclamation forbade tenants to pay sloping 45 ° some 175 feet, has been a sustain League proclamation forbade tenants to pay sloping 45 ° some 175 feet, has been Austin J. Roberts. The foreman of clamation forbade tenants to pay any rents whatever, which meant for every man to quietly confiscate all the land he could get hold of, the the tide out, they have constructed an abutment or coffer dam, some chief engineer. He has seven assist and some "Macrame work." In

the land he could get hold of, the English Government issued a counter proclaimation of which this is a part:

Whereas, the said association has now arowed its purpose to be to prevent the payment of all rent, and to effect the subversion of law as administered in the Queen's name in Ireland:

Aow, we hereby warra all persons that he said association styling itself. The lish National Land League." and by whatever other name it may be called or known, is an unlawful and criminal association, and that all meetings and assemblies to carry out or promote its designs or purposes are alike unlawful and criminal, and will be prevented, and if necessary dispersed by force.

Both Polyaga, Nr. B. Quality, Nr. Getallog of the pleader; Mr. J. J. Gallagher is chief engineer. He has seven assistants. The boss carpenter is Mr. D.

Mr. Blake at Home.

Since leaving these Provinces the Liberal Leader has been "spreading himself" in his own riding, West Durham. He spoke at Orono on the 19th inst. His remarks on the manufacturies of Nova Scotia and New Bunnswick may be of interest to the people of these Provinces. A glass factory had been established in New Glasgow, Pictou Co. Nova Scotia. There was a glass factory had been established for a long time in Hamilton. A considerable quantity of coal was required in this manufacture. The New Scotia coast low which they had haid down at their furnace for forty centage for the dutyl was since I and land on the dutyl was since I and low by hould the Government add to the matural disadvantage under which these imens the factory?

Mr. Blake at Home.

Since leaving these Provinces the Liberal Leader has been "spreading himself" in his own riding, West the extent of the operations that are mapped out the extent of the operations that are mapped on the quarry is worked by a powerful steam crane, while another runs one cranes, while another runs one cranes, while another runs one cranes, while another runs one part of the quarry has a based with rail track, cranes, &c. The N. W. end of the garry is worked by a powerful the extent of the operations that are mapped out the manufacture in the Maritime Provinces. A glass factory had been established in the Maritime Provinces. A glass factory had been established for a long time in Hamilton. A considerable quantity of coal was required in this manufacture. The New and the work of the provinces and the work of the provinces and the work of the provinces and the provinces and the work of the provinces and the provinces and the provinces. A glass factory had been established for a long time in Hamilton. A considerable quantity of coal was required in the development of the provinces and the provinces and the provinces and the provinces are with reference for forty center for the market of the provinces. A glass factory had been established for a long time in Hami Mr. Blake spoke in New Glasgow, the Nova Scotia coast, Cape Marin-shipped to Boston, and it has been the stone being of a brick red in color, we believe. It does not appear that guin, and the shores up to the Mem-leading brown stone in the Boston But the beds are thin. Samples we believe. It does not appear that he said anything of the sort to the people there. He did not tell them how much they would lose in comparison with the older manufacturies in Ontario by taking off the coal tax. In fact, he did not say that it was a part of scheme to take off the duty on coal. But it was not only in the matter of glass that Nova Scotia was helped by the coal tax. Nova service was recognized over 40 years. Scotia was helped by the coal tax. ago. In November, 1840, Alva W. ly opened. It is on Ha Ha Bay land at Wood Point and commands He instanced also the case of iron Andrews shipped the first cargo, to across which it looks at Harvey. an extensive marine view. The

He instanced also the case of iron works:

There are iron works in Hamilton and in New Glasgow. The latter paid \$2 for the coal they required tin Hamilton they pay sometimes double, or even three times that rate, besides the duty. It was calculated that three tons of coal were rused in turning out one ton of finished iron firer tons would be \$1.80, so that every ton of iron produced in Hamilton Scotia, to say nothing of the vast difference in the price of coal naturally. The propertors of the cotton factory in St. John, N. B., said that coal such as they required could be laid down at their works for 82 cents, having thus an advantage which they claimed would enable them to compete with western cotton met., who can be recompeted the first cargo, too Portland, U. S. The stone were marked to the looks at Harvey. This place has a wharf and cranes. But here also the Co. expect before another spring, to have a powerful gantry, spanning 125 feet. This refer or bed is 250 feet wide and extensive speculators this country ever probable of a mile scross the property. The stone shews itself a the surface in solid beds admirably adapted for working. It is thought by the superinterized the working at wast amount of rough surface quarrying work, of which the present season for the workmen. The Company's at Mary's Point. The stone is of a benefit to a large extent. He shipped the effect and one with the finer and more valuable stone.

In Moremeter, 1040, Alva W. Andrews shipped the first cargo, to portland, U. S. The stone were that there also the Co. expect before another spring, to have a powerful gantry, spanning 125 feet. This part of the summer it has been occurred to the notice of the late Chas. D. Archibated with other summer in the sum of the summer it has been occurred to the notice of the summer in the sum of the summer it has been occurred to the summer in the sum of the summer in the sum of the summer which they claimed would enable them to compete with western cotton men, who had not only to pay three times that for their coal, but had also to pay a duty equal almost to what the New Brussick man's coal costs him.

I mostly near the surface, thus leaving stone "known as "Belleville," out Devousing St., is in charge of our compete with western cotton men, who had not only to pay three times that for the finer and more valuable stone superior in quality, and can be estermed friend Francis Rodman, to be taken out by the present worked for one half the cost of the Operators. The deeper the quarry Belleville stone.
