

Kidney Disease For Years

This Well Known Gentleman Strongly Recommends "Fruit-a-tives" to all Sufferers.

JAMES DINGWALL, Esq.

"I have much pleasure in testifying to the almost marvellous benefit I have derived from taking 'Fruit-a-tives.' I was a lifelong sufferer from Chronic Constipation, and the only medicine I ever secured to do me any real good was 'Fruit-a-tives.' This medicine cured me when everything else failed. Also, last spring I had a severe ATTACK OF BLADDER TROUBLE, and 'Fruit-a-tives' cured these complaints for me, when the physician attending me had practically given me up.

I am now over eighty years of age and I can strongly recommend 'Fruit-a-tives' for chronic constipation and bladder and kidney trouble. This medicine is very mild like fruit, is easy to take, but most effective in action."

(Signed) JAMES DINGWALL, Williamstown, Ont., July 27th, 1908. 50c a box, 6 for \$2.50—or trial box, 25c at dealers or from Fruit-a-tives Limited, Ottawa.

BATHURST

BATHURST, Sept. 23.—Mr. Walter Veniot and bride arrived on the Ocean Limited from Edmundston on Tuesday morning and are making a visit to Mr. and Mrs. P. J. Veniot.

Mrs. Malcolm and Miss Malcolm of Campbellton, have been guests this week of Mrs. E. P. McKay.

The marriage of Mr. F. H. Eaton, manager of the Royal Bank of Canada here, to Miss McKinnon of Amherst, is announced to take place on the 28th inst. at Amherst.

The ladies of the R. C. congregation have resumed the sewing circles on Wednesday evenings, which were discontinued during the warm weather. The circles meet at the convent.

Mr. and Mrs. H. White have returned from a visit to Montreal.

A very good audience greeted 'The Volunteer Organist' in the Opera House on Wednesday evening.

Miss Harrington entertained a number of young friends at a dancing party for her guest, Miss Troy of Dalhousie.

Mrs. S. Melanson has returned from a visit to Fredericton.

Miss Clark who has been visiting friends here, has returned to Halifax.

THOSE WORRYING PILES!—One application of Dr. Agnew's Ointment will give you comfort. Applied every night for three to six nights and a cure is effected in the most stubborn cases of Blind, Bleeding, or Itching Piles. Dr. Agnew's Ointment cures Eczema and all itching and burning skin diseases. It acts like magic. 35 cents. Sold by A. E. SHAW'S Pharmacy.—16

Could I paint your old cow, ventured the city artist.

Sartini, stranger, laughed the old farmer, as he mopped his brow with a handkerchief. Paint her green and she will look so much like the grass that the tramps can't see her and milk her on the sly.

According to the report of Kent, Eng. education committee, 140 schools in the county have taken up the scheme of savings banks, and in all now there are 7,500 scholars who are members with savings totalling \$3,700.

Invest 25 cents in a box of Davis' Menthol Salve ("The D. & L.") and be prepared for a hundred ailments, which may not be dangerous but are very annoying and painful, like neuralgia, earache, sprains, burns, bruises, insect stings, cuts, piles, etc. It is a household remedy always useful for some trouble, and should be kept in the family medicine closet.

DORCHESTER MINE SOLD.

Great Development Promised. Will Employ 500 Men.

NEW YORK CO., BUYS.

Expect to Handle 1,000 Tons a Day in Near Future.

St. John, Sept. 25.—The Westmorland mine, at Dorchester, N. B., one of the richest copper mines in the province was sold this week by the present owners, the Maritime Exploration Co., Ltd., to the firm of L. Vagelstein & Company of New York, one of the largest copper dealers in the world. The new owners announce their intention of beginning work at once on a large scale for the development of the mine and expect in the near future should results prove satisfactory to erect a concentration mill with a capacity of 1,000 tons of ore daily. This industry will afford work for in the vicinity of 500 men says The Sun today.

The mine has been in prospect of development for over 20 years past, and though considerable test work has been done, has never been operated commercially. It was first taken up by a provincial syndicate in 1886 who did little with it and finally transferred their property in 1903 to the Westmorland Mining Company, composed of several prominent Americans, including H. M. Whitney, of Boston, Darius L. Goff of Pawtucket and several others. Under their ownership considerable development work was done and some ore shipped, but not as a commercial proposition. Last year the Maritime Exploration Company of New Glasgow, N. S., took hold of the mine and have now succeeded in interesting the Vogelstein people, whose purchase means certain and great development if the property is of value.

The proposition under consideration is to erect a plant to concentrate the ore to a refined product, about 85 per cent, pure copper, which will probably be manufactured in the Vogelstein works at Newark, New Jersey. This plant will cost about \$175,000. On the property there are at present 27 inclines opened and about the same number of trial pits which will now be operated. The mine is about a mile from the town of Dorchester.

HARCOURT.

Dr. and Mrs. R. G. Girvan gave a most enjoyable bridge party to a number of friends on Monday evening last, for the entertainment of their guest Dr. Loggie, who on Tuesday returned to his home in Chatham.

Miss Augusta Campbell left this week for Oldtown, Me., to spend the winter with her brother.

Miss Margaret Curran of Grangeville was a guest for the week end of Miss Ruth Thurber.

Mr. James Wathen left on Monday for Montreal to enter McGill College for the dental course.

Mr. Robert Brown, accompanied by Mrs. Hutchinson rode through from Buctouche by automobile on Saturday and are guests of Mr. Brown's sister, Mrs. E. B. Buckerfield.

Miss Helen Buckerfield and Mr. Ernest Buckerfield came from Moncton on Saturday to spend the week end at home.

Mr. James McCleave spent Saturday in Moncton.

Mr. Robert Smallwood spent part of the week at his home here, returning to Moncton on Saturday.

Mrs. A. H. Ingram and children of Campbellton are guests this week of Mr. and Mrs. Thomas Ingram.

Mr. Harry Manaton of Wymouth is spending his vacation with home friends.

Mrs. Joseph Reid left on Tuesday for Boston where she will spend the winter with her daughter Mrs. Horne.

The largest moose captured this season and probably the largest ever shot in Kent Co., was brought into the village on Saturday. It had an antler spread of sixty-four inches.

BEAVER FLOUR

is a blend of Ontario Fall

Wheat and Manitoba Spring Wheat.

It is thus a

"Bread" Flour and a "Pastry" Flour.

Best for either.

Best for both.

WIT AND HUMOR.

Bess—She never said one sweet thing in her life.
Belle—No, she says so many sour things, she must have a pickled tongue.

At School—Now, my little dear, who can tell me the plural of child? Youngster (frantically raising his arm)—Yes, sir, I can. Twins.

What if I were one of those husbands, my dear, who get up cross in the morning and bang things about and scold like anything just because the coffee is cold? John, replied his wife. I would make it hot for you. John is still engaged in wondering whether she meant him or the coffee.

Teacher—Will some member of the class explain how we hear things? Bright Boy—Somebody tells us something down town, then he tells it to us as a profound secret, then he tells it at the sewing society meeting, and then we all hear it.

A man went home the other night and found his house locked up. After infinite trouble he managed to gain an entrance through a back window, and then discovered on the parlor table a note from his wife reading, I have gone out, you will find the key on the side of the step. What a thoughtful woman.

Strength and Vitality are combined in the invigorating tonic Ferrovim, which consists of fresh lean beef, Citrate of Iron and pure old Spanish Sherry Wine. Nothing could be more beneficial for anemic women and children, elderly people whose strength is failing and all persons run-down and debilitated. \$1.00 bottles.

Miss Kathleen Gillen, teacher of Westley street school, Moncton, and a former teacher in St. Mary's Academy here, was pleasantly surprised Monday afternoon when a number of her little pupils assembled at her residence on Wesley street on the eve of her departure for Montreal, and presented her with an address accompanied with a dressing case. Miss Gillen thanked the children and in reply gave them a few encouraging words and said during her absence she hoped her little pupils would study hard as in the past and be obedient to her successor, Miss Flanagan. After the presentation, the children sat down to five o'clock tea and during the remainder of the evening played games on the lawn.

The scrappy little Jappy is said to be building a battleship as big as two Dreadnoughts. Of course the Pacific is a large ocean.

Why We Are Stronger.

The old Greeks and Romans were great admirers of health and strength; their pictures and statuary made the muscles of the men stand out like cords.

As a matter of fact we have athletes and strong men—men fed on fine strength making foods such as Quaker Oats—that would win in any contest with the old Roman or Greek champions.

It's a matter of food. The finest food for making strength of bone, muscle and nerve is fine oatmeal. Quaker Oats is the best because it is pure, no husks or stems or black specks. Farmers' wives are finding that by feeding the farm hands plentifully on Quaker Oats they accomplish a double result; the men go to their work with greater vigor and the expense of such feeding is less than with other foods.

Mrs. Stubb—John, how about the new shades?

Mr. Stubb (pettishly)—Oh, hang the shades.

Mrs. Stubb (sweetly)—Why, John, that is just what I have been trying to get you to do for a week.

Young Wife (at the theatre)—Now, John, what did you go out for? Husband—To get a breath of air, dear, Young Wife (after considering the matter awhile)—Well, John, there wasn't any air on my father's farm that smells like that.

A good old man went to prayer meeting the other night, and unwittingly fell asleep. He was called upon to offer up prayer, and, being dutifully punched by his better half, belabored out: Goldarn it, kindle it yourself.

Consolation—I wouldn't cry, little boy said a kind old gentleman consolingly, you may be unhappy for the moment, but it will soon pass away. You wouldn't expect me to cry, would you, every time I'm a little unhappy? No, sir, responded the tearful lad, you'd go an' get a drink.

HUNTING FOR BIG GAME.

The Highlands of Ontario is an ideal spot for the sportsman during the open hunting season for big game. In the Temagami region moose are plentiful and may be killed during the period from October 15th to November 15th. This territory is a forest preserve of vast expanse, and in addition to being the hunter's paradise, its waters abound with game fish of many species. The home of the red deer is located somewhat to the south of Temagami, particularly in the districts known as "Muskoka Lakes," "Lake of Bays," "Maganetawan River," "Lake Nepissing," and "Kawartha Lakes" territories.

Write to J. Quinlan D. P. A. Montreal for a copy of "Haunts of Fish and Game" issued by the Grand Trunk Railway System which fully describes the hunting territories reached by this line, giving game laws, maps and all information.

Everybody interested in football are cordially invited to attend the meeting to be held in Mersereau's Studio at 7.30 this evening.

Messrs. Hickson's and Ritchie's mills were down Monday and Tuesday on account of the heavy rains.

Poor Spain feels like the fellow who helped himself to a wasps' nest under the impression that he was picking a new kind of fruit.

The woman who wants to be beautiful shouldn't talk too much, said the beauty specialist. Too much use of the facial muscles produces untimely wrinkles.

Hill and Morgan, it is said, have made arrangements to humble Harri-man. The great railroad man is in the clutches of a foe that will in due time humble all three.

According to a certain Dr. Wiley, the human race ought to have become extinct at about the second generation. It is the miracle of miracles that we are on earth at all.

FARMER'S COLUMN. OWES HER LIFE TO

The term "Scientific Farming" is in pretty general use, but the meaning of the term is not always clear. However, if we study the matter closely it seems that a man is farming scientifically when he does four things, viz measures, records, studies and experiments. As for measurement, it is the basis of all the sciences, and seems to be also the basis of scientific farming. Consider the case of two dairy farmers for example: the first keeps a number of cows cares for them to the best of his ability, and sells his milk to the creamery, cheese factory, or to the city; the second keeps the same number of cows cares for them equally well and sells his milk in the same way but in addition he measures the milk given by each cow, by weighing it at every milking. He measures the food given and the labor used, so that at the end of the season he knows exactly the profit from each cow, or whether some of them have been a loss to him. He knows which cows are yielding a profit, and to what extent also which cows, if any, are living at his expense. We will all agree that the second farmer is the more scientific of the two. Again in growing field crops, the scientific farmer will measure the size of each field, the amount of grain planted, the amount of labor expended on each crop, the amount of harvest in grain and straw, thus is in position to know exactly the profit obtained from each crop. Measurement then is the first step in scientific farming.

The second is to keep an orderly record in which the measurements for each cow and each field are entered when made. These records give the scientific farmer an exact knowledge of the results he is obtaining from his farm, and his exact knowledge is the starting point in the search for improvement.

In looking for improved methods the scientific farmer compares his own methods and results with those of successful farmers in his locality, and in all parts of the country. He studies the methods used and the results obtained along its lines, by the scientific experts of the government, and of the Agricultural Colleges. He tries to learn why these methods give the results they do, so that he may be in a position to judge of their applicability to his own case.

If, as a result of this study, he decides to try certain new methods to see if they will produce improved results, he does not apply them to his whole farm, or whole herd, but to one field or one or two cows; that is, he makes an experiment that has a bearing on the result. If the experiment shows that the new method gives increased results, he applies it to his whole farm or herd, keeping up his measuring and recording of measurements, to see what the results are on a large scale. These new measurements are then studied for further improvement. The scientific farmer then, is one who measures, records, studies to throw out the bad and keep the good and to bring in more good, and experiments.—C. J. Lynde.

It is said that more than five million women are earning their living as well as that of others dependent upon them, in the United States today.

CHILDHOOD AILMENTS.

Most of the troubles that afflict little ones may be traced to the stomach and bowels, and if these are put right the child will get well and thrive well. Baby's Own Tablets cure all stomach and bowel troubles and all the other minor ailments of babyhood and childhood. The Tablets are easy to take and are guaranteed free from opiates. Mrs. H. Matthews, Canfield, Ont., says: "I have used Baby's Own Tablets for my little girl who had a weak stomach and was badly constipated. The Tablets cured her of both troubles, and I really feel as if they had saved her life." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."—Mrs. EMMA WHITEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

QUEBEC, Sept. 21.—The following messages were exchanged between the Plenary Congress in session here and King Edward VII. today:—
His Majesty King Edward VII, London.

"The apostolic delegate and the Catholic archbishops and bishops of Canada in plenary council assembled in the city of Quebec, desire to convey to your majesty the expression of their loyalty and that of all your other Catholic subjects in this dominion, as well as their grateful appreciation of the religious and civil liberty which they enjoy under your gracious rule. All pray that your reign may be long and peaceful."

(Sgd) MONSIGNOR SBARETTI, Apostolic Delegate.
The reply from His Majesty was as follows:—
Monsignor Sbaretti, Apostolic Delegate, Quebec.

"I thank your excellency and the archbishops and bishops associated with you for your telegram of loyalty, which is in all the best traditions of the church of which you are the hierarchy and of the dominion where you are assembled. It is my constant desire that religious and civil liberty should always be enjoyed by my subjects in all parts of the empire."

(Sgd) EDWARD R. AND I.
The fathers of the plenary council met in secret conclave this morning and this afternoon were the guests of Lieut. Governor Pelletier at luncheon at Spencerwood. Only one toast was proposed and that was a joint one. The King and Pope. The lieutenant governor and Mgr. Sbaretti spoke in the name of the church and state and the harmony and peace to be desired therefrom. While the toast was drunk the R. C. E. A. band played the national anthem and the papal air then.

Caterhall, Nfld.

MINARD'S LINIMENT CO., LIMITED.
Dear Sirs,—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disfigured for a couple of weeks. I was advised to try your Liniment to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the mosquitoes.

Yours truly,
W. A. V. R.

The Misses Davidson gave a most enjoyable little drawing room tea last Friday. Mrs. J. W. Davidson presided at the tea table, assisted by Miss Florence and Miss Hazel Hickson. Those present included Mrs. Watt, Mrs. Harley, Mrs. Sinclair, Mrs. Hubert Sinclair, Mrs. Miller, Mrs. Fleming, Mrs. Hickson, Mrs. Nicholson, Mrs. Nichols, Miss Ritchie, Miss Parker, and Miss Fleming. During the afternoon Mrs. Miller sang and Miss Hickson gave a short reading.

Does your back ache?—Don't experiment with liniments but get the genuine, "The D. & L." Menthol Plaster. It cures. Davis & Lawrence Co., makers.

On Wednesday evening next, Sept. 29th, the Rev. C. T. Phillips, D. D., Special Missioner of the Baptist Board of N. B., will preach in the United Baptist Church Newcastle. Service will commence at 7.30. All are cordially invited.
