No Dirty Type to Clean,

The New Yost combines the life long experience of the Inventor, G. W. N. Yost, who invented the "Remington" in 1873, the "Caligraph" in 1880 and the "Yost" in 1883; the latest and best improvements have been added during 1892, making the New Yost an ideal, perfect typewriter. The New Yost prints direct from steel type; its work is never burred but is clean cut and beautiful. The alignment is absolutely perfect and permanent. The paper feed is an ideal success, the best ever applied to a typewriter. The line spacing absolutely perfect.
