**LONDON, To-day.**  
An order is being received in the South Wales Colliery districts from the Home Office, ordering all boys under the age of fourteen to leave the mines at once. This decision has caused consternation among the miners of South Wales. There are at present hundreds of lads employed in the mines, earning good money as lamp boys and helpers, but the new Coal Act which came into operation on July 1st, prohibits any one under that age from being thus employed. It is estimated that in Rhondda Valley and along there, there will be a withdrawal of approximately one thousand boys from collieries, causing an assisting to fill coal waggons, consequently collieries who have compiled employ older boys and pay higher rate of wages, while hundreds of families will find resources from \$10 to \$12 a week smaller.

## Hr. Grace Notes.

The Highlanders are having a good time, and good weather for camp life. The program for to-day is an entertainment in the Court House grounds by the friends of St. Andrew's Church, and a grand dance given in honour of the kiddies in the Masonic Hall to-night. Friends in St. John's may feel assured that they are all well and having a pleasant outing.

The British Band played for a couple of hours on Wednesday night at Donnelly Hall grounds. A large number of our citizens were present to enjoy the music and the beautiful surroundings.

Mrs. Susan Keefe, one of our oldest citizens passed away on Tuesday last, at the old Keefe homestead at Bear's Cove. Mrs. Keefe had reached the good old age of 94 years, and leaves several sons to mourn her death.

Mr. H. H. Archibald is ahead of all the other farmers we know here or at St. John's, he having had new turnips in the market two weeks ago. The demand is greater than the supply, and the entire patch has been cleaned up to-day, and we hear it is Mr. A's intention to put another crop—probably clover—in now.

Mr. Thomas Griffin, one of the Water Company's employees, found himself in a trap on Wednesday morning. It appears that some repairs were being done to the water service in the West End, and Mr. Griffin was sent in to turn off the water at 5 a.m., and to wait an hour and then turn it on again. He turned off the water, but in taking the key up he noticed a small stone falling in the stop-case. Fearing it would cause trouble he put his hand down in the pipe to secure it when his arm got jammed and he thus found himself a prisoner, where he remained until 8 o'clock when with an extra effort he freed himself.

The news that the Rev. Father Finn had been promoted to the important parish of Grand Falls was received in town during the week with mingled pleasure and regret—pleasure and gratification at his promotion but regret that the rev. gentleman is severing his connection with this parish. Father Finn has been curate of the Cathedral for the past six years, and has endeared himself not only to the people of his parish but to all denominations as well. We take this opportunity of bidding good-bye to Father Finn and to wish him much success in his new mission.

**CORRESPONDENT.**  
Harbor Grace, July 20, 1912.

## Sagona Refloated

**RETURNS HERE.**

The S. S. Sagona which went ashore on the Bar at Harbor Grace, Saturday morning early, was re-floated at noon yesterday, the steamers Prospero and Ethie with lincs from the stern and the S. S. Fogota working at the bow taking her off. Late Saturday night the steamers endeavoured to tow her off the shoal but without avail, and then to lighten her, her cargo was transferred to the Fogota. The passengers were ashore at Harbor Grace Saturday and visited the historic places in the town. The ship arrived here at 6 a.m. to-day as she is somewhat damaged and will be dry docked for repairs.

## Thunder Storm at Grey Islands.

A letter was received in the city on Saturday saying that early last week a fierce thunder storm, accompanied by heavy rain showers and vivid lightning raged at Grey Islands, resulting in considerable damage to property. A number of fishing boats were on the grounds and the wonder is that some were not swamped, as a strong north-east wind and mountainous sea prevailed. While running to the shore for shelter a mishap occurred in the upsetting of two boats with two men in each. All four would have met watery graves but for the exertions and timely rescue of the landmen. One of those saved is a son of Mr. William Broaders, the well-known planter at Grey Island, and ever since the accident has been very ill.

A few stages were swept away and boats and other gear belonging to the fisher folks suffered damage.

## Narrow Escape.

While Dr. McDonald, of Bonavista, with some friends were returning from a trip in a gasoline launch at Bay de Verde, a few days ago, the party had a narrow escape from being drowned. They overloaded their boat with cod taken from the trap and a big lop being on the boat shipped so much water that she came near being swamped. Most of the fish had to be thrown over to lighten her.

**BELL ISLAND FOOTBALL.**—Owing to a heavy downpour of rain the final football match for the season between the Dominions and Nova Scotians did not come off at Bell Island on Saturday night.
