House of Assembly.

(Continued from 7th page.)

MARCH, 28, 1913.

When the House opened yesterday afternoon Mr. Clift presented the following petitions from: —1. Andrew Manuel and others of Salt Pond and Little Burnt Bay; 2. Thomas Luscombe and others of Loon Bay; 3. Michael Morey and others of, Port Anson; 4. James Jones and others of Little Bay Hands; 5. Enos Ludlow and others of Rattling Brook; 6. Robert Gillott and others of Pike's Arm; 7. R. W. Fudge and others of Pilley's Island. Petitioners were all officers and members of the F. P. U. of these places and they asked for different sums of money to provide various utilities and public works for these different centres. It afforded Mr. Clift great pleasure to present these requests on behalf of such an influential body and he gave them his most earnest support, hoping at the same time that the Government would be able to see its weay clear to grant the several requests contained therein. He would ask that the petitions be received and be referred to the departments to which they had relation.

The Minister of Agriculture and Mines (Hon. S. D. Blandford) presented a petition from the inhabitants of the North Side of Bonavista Bay, on the subject of railway extension. He heartily supported the petition, as did Hon. Mr. Morison. He also presented several petitions from the members of the Fishermen's Protective Union for various public requirements.

Hon. Col. Secretary presented petitions from several places in Trinity Bay for railway extension from Heart's Content to the Grates. Quite a number of other petitions were presented.

Hon. Minister of Marine and Fisheries (Mr. Piccott) presented a petition from Bay Roberts, largely signed, setting forth the great danger that accrues to the people of that place and neighbourhood owing to the reckless driving of automobiles and other motor vehicles over the narrow roads in that section. Petitioners asked that legislation be enacted to prohibit the driving of such vehicles there except from noon on Tuesday of each week until the same hour on Thursday. Mr. Piccott pointed out the great danger that occurred from the abuse of the privilege of driving over the roads and earnestly supported the petition as did Messrs. Parsons (who referred to the same danger in Harbor Grace), Squires and F. J. Morris, the latter characterizing them as an unmitigated nuisance, while Mr. Squires said that carts and carriages should also be compelled to use lights at night.

Mr. Kent expressed himself strongly on the matter, showed the constant danger from the speeding of such vehicles on the streets of St. John's and the roads in its suburbs and those leading to extern localities. It was true that some drivers were careful but others gave the machines speed and cared not what damage was done. He had several complaints from his district of St. John's East, and he hoped that the provisions of the law relating to the speed limit would be rigidly enforced. They not only frightened horses in this and other ways and endangered human life, but when speeding over roads and bridges at an inordinate rate considerably damaged them. If the nuisance of careless and reckless driving does not cease then the Government should take drastic measures to stop it.

Supplemental Supply for $227,815.37 was passed.

The Col. Secretary laid upon the table the correspondence between the railway contractor and Government asked for by Mr. Kent.

Mr. Squires asked leave to introduce a Bill to amend "The Newfoundland Medical Act, 1893" and Acts in amendment thereof.

Rt. Hon. the Premier asked leave to introduce a Bill to amend the St. John's Municipal Act.

Minister of Marine and Fisheries asked leave to introduce a Bill to amend the Act 8, Edward 7, Capt. 8 entitled "An Act for the Encouragement of Shipbuilding."

Hon. Minister of Finance and Customs asked leave to introduce a Bill respecting the survey of Passenger Steamers on inland waters.

The Bills relating to the amending of the Registry of Deeds, Consolidation of the law relating to the Election of Members and relating to the Labrador Railway passed their third reading.

The Bill to amend the Postal Telegraph Service passed the Committee stage; the Bill to amend the Customs Act was read a second time, as was also the Bill to amend the Education Act.

The Bill referring to the operating of Marine Docks was read a second time and will be taken into Committee on Monday.

The House adjourned until Monday afternoon.

Hair Stops Falling, Dandruff Disappears 25c. "Danderine."

SAVE YOUR HAIR! BEAUTIFY IT! INVIGORATE YOUR SCALP! DANDERINE GROWS HAIR AND WE CAN PROVE IT!

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy and first—yes—but really new hair—growing all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself to-night—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

BERLIN, To-day.

The Bill, increasing the German army by four thousand officers, fifteen thousand Non-Coms., 116,965 privates, was adopted by the Federal Council to-day.

CONSTANTINOPLE, To-day.

Recent fighting between Bulgarian and Turkish army on the Tchatalja lines led to a complete reverse of Turkish troops, who, after a short but stubborn defense of their advance position, began to retreat which soon became a panic-stricken route. In spite of stories of long continued desperate fighting, only five hundred wounded soldiers have been brought to hospitals in the capital. The news of the capture of Adrianople by Bulgarians and Servians has cast a gloom over official circles, while the press generally express the opinion that recent events will make the task of the European Powers harder. Peace is believed to be further away now than it was some days ago.

LONDON, To-day.

British Ministers of State were more interested than was at first thought in stock transactions at the time of the agreement made by the British Government with the Marconi Company, to erect a chain of wireless stations throughout the British Empire. The second deal by Lloyd George and the Master of Elibank, chief Liberal Whip of the Commons, involving an additional three thousand shares in American Wireless Co., which was revealed during the day's meeting of the Parliamentary Committee of Inquiry, created a great surprise among both committeemen and the public. The deal was first divulged in evidence by Sir Rufus Isaacs, Attorney General, just before he left the witness stand this morning, and was subsequently confirmed by Lloyd George himself.

Indian Island Notes.

A sad accident occurred on March 10th when little Flora Bixby was burned to death. Her mother went to the well to get some water and when she returned her little daughter was nearly burned to death, only lived about two hours; it is a great blow to the parents who loved her dearly. The funeral service was conducted by Rev. W. Vey.

An old and respected resident of Easter Cove, Mrs. A. Perry, aged 83 years, has passed away to the great beyond; she will be greatly missed as she served her age and generation faithfully.

Quite a number of our residents have gone to Carmanville to-day to take part in the demonstration to be given on the arrival of the President of the F. P. U. Some say he has arrived, as the firing of guns has been heard in that direction all day.

What a blessing it would have been to the fishermen had the duty been taken off sugar two or three years ago; or even last year; it is almost too late to enjoy a cup of good tea on the eve of an election.

The L. O. A. held their annual parade on February 25th and attended Divine Service at Perry's Island Methodist Church, where an appropriate sermon was preached by the Rev. W. Vey.

Since writing last, the Methodists have held their annual Missionary Meeting. The deputation being Revs. Vey and Young, both gentlemen taking for his subject: "China." Owing to so many people being sick, the congregation was small; the collection will equal that of last year.

SUDDEN SEIZURE.—Mr. James J. Bates, of Jas. Baird, Ltd., was seized with hemorrhage yesterday afternoon while attending the funeral of the late Patrick Murphy, and at present is confined to his room. While the cortege was passing down Military Road Mr. Bates was seized. He was taken into Mrs. Summers' store and a priest and doctor summoned to attend him. Later he was driven home and is much improved to-day.

Vanity Fair on Monday Night.

The Nickle Theatre re-opens on Monday night with what might justly be termed a marvellous programme. It is nothing less than the great novel of Thackeray's "Vanity Fair." This wonderful play was secured by the Vitagraph Co., and has been an immense success wherever shown. The situations, scenes and artists are the best that could be procured, and none should fail to see it. Miss Gardner will sing the latest rag-time that New York went crazy over—"Row, Row, Row." Miss Guerin will sing "In the Vale of Dreams." The first show starts at 2.30 in St. Patrick's Hall.
