The Strike at Labrador.

The most notable feature about the present depression in trade, and the very uncertain prospect for the future, is that those who most enthusiastically worked for the election of the present Government, are those who most vehemently denounce the leaders for the deplorable condition to which the whole country has been reduced. You cannot ignore fact; and fealty to party, by one who has no self-interest to serve, must give way to the blunt intrusion of probable adverse conditions, hard times, and low-priced fish in the local market. The fishermen now on Labrador, we hear from good authority, are denouncing the Government, and the Minister of Fisheries in particular, for misleading them in their hope of \$10 fish. They have struck for \$9, and it is plain to anyone who considers the cost of outfit, that less than this will not pay them. One exporter of the city was honest and fair-minded enough to say that the price set for Labrador fish in Greece and Italy, would well warrant the payment of \$9 at Labrador, and that after giving this figure and paying all expenses, the exporter could have a clear profit of \$2.20 a quintal. There was a time, not long ago, when \$1.00 a quintal was considered a good profit, and in the nineties 60 and 50 cents profit were gladly accepted.

The gentlemen who made the rules that refused to give Labrador fishermen \$9 for their fish, were quite loud in their profession of being determined that fish would be \$10 and \$12 a quintal this fall. It will not average more than \$7 and \$8, and therefore it is easily understood why the fishermen, both on Labrador and in Newfoundland, feel that they have been deceived and betrayed. We feel certain that if they had known last spring that this is the kind of treatment that was to be accorded them, there would not be many men engaged in the Labrador fishery this summer. The fishermen are now beginning to open their eyes and to realize that Mr. Coaker, the Minister of Marine and Fisheries, is a big exporting merchant and is most anxious to get the

highest profit he can. His paper, the Advocate, utters the foolish cry that we want to keep the price of fish down to \$6. Not at all. We now give profession of our wish to invite him to give the Labrador men \$9. We can't do it. He can; because he is the man that fixes the prices of fish and boasts, "the price of fish is what Coaker makes it!" A fellow exporter says that he will clear \$2.20 a quintal in Greece for this fish. Why not be merciful to the fishermen and say "boys, I'll be satisfied with \$1.00 a quintal profit, and let you have \$9." He can do it and if he fails to do it, there is no loop hole to get away from the blame; and of course \$9 on Labrador means \$10 at Port Union.

Body of Miller Boy

FOUND IN DUCK POND.
Shrouded in mystery for nearly three months, the disappearance of George, the 3-year-old son of Stephen Miller, of Port of Spain, has at last been accounted for. Yesterday Mr. Andrew Hammond, of Broad Cove, while seeking muskrat burrows, came across the body of the child on the East Side of Duck Pond, which is midway between Torbay and Port of Spain, and nearly 3 miles from the Miller home. The body was discovered with the head lying in the water. The matter was immediately reported to the Inspector General, who dispatched Head Constable O'Neill and Dr. Anderson to the scene. After an examination of the remains, which were identified by the clothes and boots, the body was removed to the parent's home. How the little fellow travelled so far is a mystery, and it is strange that of the hundreds of whoopie search parties when the child was first missed, that not one trace of him could be found, this same pond being visited by dozens of people.

Rev. G. H. Dickie, B.A.

APPOINTMENT ON S.S. COUNCIL.
The Rev. Gordon Dickie, B.A., B.D., has just been appointed general secretary of the Quebec Provincial Social Service Council. The appointment took place at a special meeting held at the Y.M.C.A. last Monday, with John T. Ross, of Quebec, first vice-president, in the chair, in the absence of W. H. Wiggs, of Quebec. The position has been accepted, and the Rev. Mr. Dickie will enter on his duties on September 1, replacing the Rev. T. W. Davidson, who has hitherto been doing the work. Headquarters of the organization will be in Montreal.

The Rev. Mr. Dickie, a graduate of Dalhousie University, Halifax, and of Harvard, has held pastorates at St. Stephen, N.B., and St. John, N.B., and is now pastor of St. Andrew's Church, St. John's, Newfoundland. Founder and president of the board of governors of the Maritime Home for Girls, at Truro, N.S., he has been a leader in social work in Newfoundland, and is at present taking a special course in sociology at Columbia University—Montreal Star, Sept. 10.

Died From Wounds.

Editor Evening Telegram.
Dear Sir—I beg to inform you that No. 2304, Pte. G. Hollett of the Royal Newfoundland Regiment, died at the Dominion Orthopaedic Hospital, Toronto, of G. S. Wounds, Tubercular, on September 7th, 1920.

Kindly have the above information published in your paper at your earliest convenience.
Yours truly,
W. F. RENDELL,
Lieut. Col.,
Chief Staff Officer.

League Football.

A large number of spectators attended last evening's football match between the B.I.S. and Fieldians. The game was well contested and much enthusiasm was displayed by the supporters of both sides. A win for the Fieldians would give them the championship. The B.I.S. won by 3 to 2. The victory for the B.I.S. means they will have to play off with the Cadets for the honors, each now having thirteen points.

Diocesan Synod.

FRIDAY, Sept. 17.
AFTERNOON SESSION.

The afternoon session was called to order by His Lordship the Bishop at 3.30. Prayers were read by the President.

The Roll having been called by the Secretaries, the House proceeded to business.

The minutes of the previous Session were read and adopted.

Canon Bolt added some other names to the Committee appointed yesterday to enquire into other questions of Finance. Agreed.

Canon Smart nominated a Committee concerning which he gave notice yesterday to enquire into the relations of the Board of Missions to the Executive Committee, and to define the powers of the Board of Missions.

Mr. Withers gave notice that he would on Monday evening move the Synod into a Committee of the Whole on the subject of Education and submit certain resolutions for consideration and adoption.

Canon Jeeves gave notice that he would on Monday evening move the Synod into a Committee of the Whole on the subject of Education and submit certain resolutions for consideration and adoption.

Canon Bolt moved the second reading of the Bill to amend Chapter I. of the Constitution and Rules of the Synod, entitled "Sessions of the Synod." Canon Bolt explained that the object of the Bill was to test the Synod to whether an Annual Session of the Synod should be held instead of a Biennial Session. The House did not see its way clear to the holding of an Annual Session, and the Bill was lost.

Dr. Blackall read the Report of the Standing Committee of the Synod on Education. The Committee, at the commencement of its report, records with regret the loss of the cause of Education has sustained through the death of Hon. John Harvey, for a long time a most valued member of the Committee. The report deals fully with the subject of Education generally in a very able manner, and sums up its decisions in recommending to the Synod the adoption of the following resolutions appended to its report:

1. That the country should be divided into suitable districts for the supervision of schools;
2. That some method of compulsory attendance be enacted;
3. That it is most important that provision should be made for the medical supervision of schools;
4. That teachers' salaries should be standardized;
5. That it is imperative in the interests of the country that facilities be organized for affording to its young men and women means of advancing well beyond the matriculation standard and of studying the application of science to the industries of the country. It is of opinion that this work might be provided for in the same building as the professional training of teachers and under the same general management, and further that the erection of a suitable building for all this work—so important to the welfare of the country—would form a most fitting memorial of the gallantry of those who fell in the great war.

Dr. Blackall, in moving the adoption of the report, was occupying the attention of the House at closing time, when the Synod rose for recess.

NIGHT SESSION.

The House resumed at 7.30, when Prayers were read by the President.

After roll call, Dr. Blackall moved the reception and adoption of the report of the Standing Committee on Education, read in the afternoon.

After discussion it was agreed that Mr. Brian Dunfield read the report of the Directors of the Church of England Colleges, and after certain explanations, moved its reception and adoption. The report noted with gratitude the remarkable display of enthusiasm in connection with Education by the large pledges given in the great Educational Drives in this city last year. Some \$350,000 were pledged by church people for higher education, a sum unprecedented in the history of the Church of England in Canada, as a voluntary contribution to any single public object.

Upon the work of the Colleges the Directors report satisfactory progress. As an advertisement is running in the daily papers in connection with the Church of England Colleges, there is no need here for much further report as to their scope and work.

The Directorate regretted that Miss E. G. Stirling had been compelled to resign her post as Head Mistress of Bishop Spencer College, and paid a warm tribute to her work and services.

The report was adopted.

Canon Bolt gave notice that the Committee on Finance would meet at 11 o'clock to-morrow.

The Bishop announced that the reception of His Excellency the Governor would be at 4.30 to-morrow.

At 10.30 motion to adjourn was agreed to, and the Session closed with the Benediction.

Labrador Fish.

It does not seem likely that Labrador fish will fetch the price demanded by the market. The highest price spoken of to be given here is \$9 for prime No. 1 and \$8 for No. 2.

The Sugar

Mandamus Appeal.

The appeal to the full Bench of the Supreme Court in the Sugar Mandamus case was opened at 11 o'clock this morning. Mr. L. E. Emerson announced that he appeared with Mr. E. L. Carter for the Minister of Finance and opened his argument against the issuance of the Mandamus by submitting that there is no legal right to the issue of the prosecution of the Mandamus; that it is not an application on the part of Hickman & Co.; C. C. Pratt is the applying party and there is no reason why the warrant should issue to him; Hickman & Co. should be the prosecutor. There has been no proclamation in the Royal Gazette showing that the War Measures Act is not in force. As far as the country is concerned we are still at war and the Governor in Council has complete discretion and power to do as he may think necessary under this act. The Court has no power to go behind his acts. As far as the Food Control Board is concerned, there has been no proclamation in the Royal Gazette showing that the War Measures Act is not in force. Justice Johnson—The Food Control Board, I think, has enabling powers and not restricting powers.

Mr. Morine, K.C., supported by Mr. Bradley, for the prosecution submitted that the legal right was a new point not raised before the Chief Justice and could not now be submitted. It is sufficient to show that the prosecution has a substantial interest in the right. An incorporate body could not make the affidavit. The War Measures Act is dragged in to prevent a decree which otherwise would be made under the War Measures Act. His Excellency has no right to approve of regulations under the War Measures Act. The War Measures Act does not in itself give power to make regulations in this way.

After Mr. Morine had presented his argument Mr. Emerson replied. The Court took time to consider judgment.

Mr. W. H. Peters leaves by the Rosalind to-day on a visit to the States.

Mr. J. W. Penney, European buyer of the Royal Stores Ltd., leaves for Liverpool to-day by the Sackem.

Mr. T. A. Hall, Government Engineer, who had been visiting Ottawa, is a passenger by the incoming express from New York. He is a brother of Capt. T. Bonia, and is one of the foremost Gloucester fish killers.

Rev. Fr. Kerwin, Whitebourne, who had been undergoing medical treatment at New York, reached Port aux Basques by the Kyle yesterday.

Mr. T. J. Kennedy, of Messrs. Furphy & Co., Mr. J. Forbes, American Bureau Surveyor, Mr. C. S. Nye, and Mr. D. C. Chapman, of the United States Shipping Board, left here this morning by motor for St. Mary's, to hold survey on the steamer S.S. Basan.

Mr. Pierce Hann left Liverpool yesterday on the Sackem for a short visit here, en route to Bermuda.

Constable, now doing guard duty at the police station, to-day celebrates his 36th year in the service, during which long period he has rendered efficient service, and not one day has he been absent from duty against him. He joined the service in 1884. We wish him many more years and the promotion which faithful performance of duty deserves.

Reports From

Northward.

The S. S. Prospero reports that at Grise Harbour, in Deep Bay, there is good fishing with book and line, though at Quispion when the steamer was leaving, squid had struck off. The weather on the whole is little better than yesterday. The fishermen have done well and will be returning to their homes by the next trip. At Greenspond the fishermen "hang out" on the price offered for fish; they are demanding \$10 per qt. for Labrador. The return from Grisequon was made last Sunday night. Bay de Verde was not called on by the along, the weather being too stormy.

The Broad Cove Case.

THE CHARGE DISMISSED.

The hearing of the charge against Mrs. Tucker of Broad Cove was resumed in the Magistrate's Court yesterday afternoon. At the conclusion of the evidence for the defence, Mr. Higgins, K.C., on behalf of his client, addressed the Court at some length. He asked for dismissal, mainly on the ground that there was absolutely no proof that any of the acts complained of were done with the knowledge of the accused. She had for about twenty-five years conducted a respectable house at Broad Cove, which had been resorted to by all classes of people all these years, and which was in fact the only place in the settlement that could be called a regularly established house for serving meals. It is utterly absurd to take the position that those who ran houses for catering to the wants of travellers as regards meals should be held responsible for the improper conduct of casual visitors to the place when it was clear that this conduct was unknown to the proprietor. He then dealt with the evidence that had been given by the witnesses for the prosecution, showing that not alone was there no wronging on the part of the accused, but that on the contrary she had on one occasion ordered persons from the premises that were intoxicated. Mr. Higgins' address was an interesting one as regards his dealing with the position under the law, and generally with the whole situation as recently disclosed as existing in the community because of the late cases.

Inspector General Hutchings replied for the prosecution, after which the Judge dismissed the charge.
