Let WRIGLEY'S be the guardian of your mouth and throat.

It will combat trouble of various kinds. It helps to keep the teeth free from food particles that ferment and cause decay.

It has an antiseptic effect. It relieves acid mouth and thus not only prevents harm to the teeth, but serves to sweeten the stomach.

It stimulates digestion and helps to prevent the forming of gas that causes dyspepsia.

Read from a widely known medical work:

Engineer," is the way a nautical observer would describe the Coaker political ship. Mosdell edits the Advocate and also the Journal, and is mentally so poverty-stricken that he has no subject but the Rum frauds, upon which he has harped for three days in both papers. This is the Mosdell who is Chairman of the Pension Board, member of the Lunatic Board and the General Hospital Board, and a sharer in the public printing plunder, so he is not financially poverty-stricken, only mentally. His brains have run to fat. He is not now the man he was when he signed a cheque for \$46,000 cheque for Besco, knowing that there were no funds to meet it. His morals have not improved, but he has grown fat on public money, and he raves at the thought that soon he will be cut off from the public treasury. This is the man whom Coaker thinks fit to be leader of the ernment in the Legislative Counthis is the man who is put up to lead the Coaker-Hickman forces for Reform!
