

The Model Farm.

We have already said that the only grievance the Opposition can lay their hands on this year is that referring to the past management of the Model Farm.

only three and others four weeks on their place, as some remained three weeks in the sheds before they selected a place.

Arthur Correspondence.

The Narrow Gauge Company have again resorted to coercive measures against the Township of Luther by refusing to take any grain away from the Arthur station, which has been purchased from the residents of that township, thereby causing considerable annoyance to our grain buyers, injuring the trade of our village, and seriously affecting its interests.

Our new grist mill is not going ahead quite as fast as the business portion of the village would like to see it, but although slow it is sure; Mr. Keason is not one of those quick, light-headed men who does everything in a balloon style, but goes in for a good substantial building, on a good foundation, which looks like permanency and stability in our midst.

The village having voted the By-law enabling the Council to borrow a thousand dollars for a fire engine, the Council last week concluded a bargain with a firm in Toronto for a steam fire engine, and are busy digging water tanks. Labor has been plenty this fall and wages good. Business of all kinds appears to have been good. Our taxes will be 27 mills in the dollar, 12 for school purposes and 15 for municipal.

Our temperance friends are going to organize a Good Templars Lodge again. The "Independent Order." It is to be hoped they will be successful this time. A village without a Temperance Society is like a man without a newspaper, behind the age.

Revival meetings have been held in the Wesleyan Church for three weeks past, under the auspices of the Rev. Mr. Phillips, resident minister, and Mr. Harper, assistant minister. Considerable good has been done, and there is an indication of more before they terminate.

Reformers around here are well satisfied with the choice of Mr. James Ross for Centre Wellington, believing him to be a man of sterling worth, who will exercise a beneficial influence among politicians, and a man whom every elector can depend upon as reliable.

FARMERS' DIARIES. — If our farmers knew how little trouble it is to keep a diary, and with what satisfaction they would look over it in a few years, we feel sure they would, many of them, be induced to begin one. A simple record of the weather and the operations of the farm, the writing of which would not occupy two minutes a day, will, in after years, be not only a source of pleasure, but also of great practical benefit; by reference back to the record of former years, one can see how late he planted certain crops, and at what time they matured, also items of interest to the family prices, &c. At Day's Bookstore will be found a large stock of Diaries and Farm Account Books. Day will sell you a large foolscap Diary for 35 cents, and Pocket Diaries from 15 cents upwards. Begin now, and it will pay you well for the few minutes'lost in entering your day's work.
