In the Springbank Incline Railway Matter-Mr. Powell's Proposal Before the Water Commissioners.

Mr. Joseph Powell, of Hamilton, has been in the city for several days past in connection with his scheme to construct an inclined railway in the waterworks park at Springbank. At the meeting of the water commissioners yesterday afternoon, Mr. Powell presented his proposal in writing, by observatory should be built near the "It is our intention," said Mr. Powell, "to build an attractive, safe and convenient railway with double tracks. The hoisting apparatus will be provided with loose safety or accident. The roadbed will be equipped with 60 or 65 pound T rails, with a woven steel wire fence six feet high between the double tracks, and also on the outside. As this undertaking is a speculative venture, and the profits altogether problematic, and as the city is bound to be greatly benefited by it, the promoters feel that the city should meet them in the enterprise in a liberal manner by granting them the lease for 30 years, re-

newable at no greater amount than would make them tenants of the prop-Mr. Powell added that it would cost between \$30,000 and \$40,000 to build the railway, and that to make interest on the sum the promoters would have to mustle.

The commissioners were puzzled as to the conditions on which they should allow the line to be construct-Mr. Powell finally agreed to pay \$200

a year, and the commissioners asked time to consider the matter. TWO TROLLEY VICTIMS In Toronto - One Dead, the Other

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood,

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
