ELECTRICAL CONSTRUCTION

The brilliancy of the many electric lights at the exhibit of the Electrical Construction Company of London of all, but for those interested in elec-tric lighting the exhibit was particularly fascinating. It included one of the company's new type of direct curpere, or 100 16-candle power lights carpacity, which gives a very high degree of efficiency, and can be changed from miles from this city.

Preston Heward, a well-to-do citi-The best time in these heats was isolated lighting plants. The lamps in house and home, and among the rules of the Trotting Association, all connection with the exhibit were kept of the building lie the charred remains and Schriver. stables. This left the contest between Alice, King Santon, and Robert Hend the pole and the starts terested in electrical work will find John Henry led in the an examination of these dynamos and

given a fresh impetus by their magnifi-cent displays. This is a natural con-impossible. The whole lower part of these takes up no more space than a got out by way of windows, with only piano; it looks thoroughly proportion their night clothes on them.

ARMS. London Daily Mail.

A sad little tragedy in real life was unfolded before the coroner at Lime-house. The deceased was a painter named Trickett, aged 27, and he had been "keeping company" with Rosetta She told the coroner that on Saturday her lover called upon her in the evening, and they had tea together, after which they went for a ride on an omnibus. On returning home they had he has performed this feat, but never some music and singing in the parlor. Trickett then sat with her on the The Coroner—What happened?

Witness—He clied in my arms. The Coroner—What was he doing

just before that?, Witness—He was singing "There's Only One Girl in This World for Me, taken away. The main building was and he took hold of me and said, "You are my only girl, aren't you?" and I replied, "Of course I am." He then said, "Give me a kiss," and I kissed him two or three times. Then he turned a funny color, and I thought he had fainted, but when the doctor arrived he said my Fred was dead.

The witness here broke down and sobbed bitterly. She was taken out The booths did well. Plenty of red of court screaming hysterically, "Let me see him; O my Fred.' Dr. Allen stated that death was due to rupture of an aneurism of the aorta, causing laceration of the lung and syncope: The jury returned a verdict of "natural death."

HIS REASON.

"Why don't you go to work?" asked the housewife.
"It all comes o' bein' too well eduher, was not serious. She, with her two "A proper education does not en-"I don't despise it. I've made up ance, and fell. Mrs. Flood, in attempting to eatch the child, fell off herself, work. But without fail, jes' ez I'd got it all settled dat I was goin' to ask only partial use of my arm, caused by a had quit." Third race, % mile, for maidens—
Mantie 1, Thad 2, Proteen 3. Time, seaworthy coffin, fastened the lid, in order to turn it into a deck, leaving a Just how this dreadful tragedy happened will never be known, though the supposition is that the fire originated from some live coals, which had been thrown into an ash barrel adherent from the supposition is that the fire originated from some live coals, which had been thrown into an ash barrel adherent from the supposition is that the fire originated from some live coals, which had been thrown into an ash barrel adherent from the supposition is that the fire originated from some live coals, which had been thrown into an ash barrel adherent from the supposition is that the fire originated from some live coals, which had been thrown into an ash barrel adherent from the supposition is that the fire originated from some live coals, which had been thrown into an ash barrel adherent from the supposition is that the fire originated from some live coals, which had been thrown into an ash barrel adherent from the supposition is that the fire originated from some live coals, which had been thrown into an ash barrel adherent from the supposition is that the fire originated from some live coals, which had been thrown into an ash barrel adherent from the supposition is that the fire originated from some live coals, which had been thrown into an action of the supposition is that the fire originated from some live coals, which had been thrown into an action of the supposition is that the fire originated from some live coals, which had been thrown into an action of the supposition is that the fire originated from some live coals, which had been thrown into an action of the supposition is that the fire originated from some live coals, which had been thrown into an action of the supposition is that the fire originated from some live coals, which had been thrown into an action of the supposition is that the fire originated from some live coals, which had been thrown in the supposition of the supposition of the supposition is the supposition of the suppos Sixth race, % mile, for 2-year-old Without much difficulty he reached the maidens—Mongolian 1, Ennomia 2, Char- water's edge. Then he launched his bark and crawled on board. Assisted by the tide, he paddled his sepulchral craft. Silently and slowly he proceedreaching either

ed, in the hope of reaching either Venezuela of British Guiana. Now, 150 nautical miles in a coffin did not constitute a very tempting en-terprise, but Lupi was full of confidence. At the penitentiary it was soon discovered that he was missing. boat had been taken away. The boats were always well guarded, and nobody ever dreamed for a moment that any man would go to sea in a coffin. It was thought that he had either committed suicide or concealed himself

Fortunately, or unfortunately, for s slowly dying at his home in Mount Lupi, the steamer Abeille, returning Vernon, avenue of lockjaw, brought on, the physicians say, by the failure of a broken bone to knit. On Labor Day an object that looked like a piece of Gobeth took part in the bicycle races wreckage, around which a flock of seaat Williamsbridge. While making his gulls were circling and screaming. last lap a child ran in front of his Naturally that excited his attention. He He was thrown to the ground steered the boat in the direction of the and his right arm was broken in three object. As he came close to it his curiosity was increased. The thing which at first he took to be a piece of wreckage turned out to be a coffin, and in addition to its noisy winged escort it was accompanied by two guards that traveled on either side of it like mounted escorts at the doors of an official carriage. These two guards were enormous sharks, whose great dorsal fins from time to time seemed to touch the sides of the box. The captain of the Abeille stopped the vessel and ordered a boat to be launched and man-Two of the sons also had narrow vote for a return next spring to two ly on bicycle racing in this county. A coffin the birds continued to hover When the boat approached the about, but the sharks went down. The men in the boat looked into the box, and what was their astonishment to find a man in it half drowned and almost in a fainting condition. Syracuse has now won eleven games receipts be added the total sum will hauled him into the boat and took him on board the vessel, and a few hours later he was in irons in his cell. Unseaworthy boats are sometime called coffins, but Lupi is perhaps the only man who ever went to sea in a

# Constructed

In hardly any line of manufacture has science more truly entered than in that of piano making. Think you anyone can manufacture a piano that will measure up to the exacting requirements of the world's great. est musicians? Our pianos are constructed on thoroughly scientific principles, and it is for this reason that artists like Madame Albani, R. Watkin-Mills, Plunkett-Greene and many others will sing before no other instrument.

The stomach is just below the chest, and above the abdomen-the popular idea is, it is situated lower down-and many who have Dyspepsia think they have Chest or Lung trouble. If you have pain, soreness, sinking or distress in the region of the Chest, a dose of No. 10 will relieve, and its The Lasting Qualities continued use cure. This is quickly demonstrated in Smokers' Heart-burn when the relief is instantaneous.

No. 10 is for sale at every drug store from Canada to Cape Horn, is even more widely distributed than Dr. Humphreys' famous "77" FOR COLDS.

Dr. Humphreys' Homeopathic Manual of Diseases at your Druggist's or Malied Free. Sold by druggists, or sent on receipt of 25c's, 50cts, or \$1. Humphrys' Med. Co., Cor. Wil-liam and John ats, New York.

the qualities that count. A poorly made piano is dear at any price. Let us show you a piano that will last a lifetime-a long lifetime. Our special terms will make possession easy.
