## MUDANIA PARLEY HALTS AS KEMALISTS INSIST ON EVACUATION OF THRACE

Generals Harrington and Mombelli Ask For Further Instructions From British and Italian Governments — Negotiations May Be Resumed Late Today—Nationalists Reply To Allied Note, Suggesting Peace Conference At Smyrna, October 20.

CONSTANTINOPLE, Oct. 5.—The question of the evacuation of Thrace was the cause of the rupture in the Mudania conference, it was announced at a late hour tonight. The attitude of the Turks and the Greeks was very bellicose, threatening the success of the conference.

Ismet Pasha, in a fiery mood, upset the conference today. He declared that the Turkish army must enter Thrace immediately, and his tone was determined and defiant.

General Harrington attempted to reason with him after the fashion which had proved so effective in dealing with minor preliminaries, but Ismet was adamant.

To some it appeared tonight that the conference was at an end, but there is expectation that the diplomats will make a strong effort to smooth out the difficulties tomorrow.

"Turkey has set her heart on Thrace, and must have it immediately," said Ismet Pasha. "We will have it peacefully, if possible," he added, then paused for a minute to make more effective his next deliberate phrase—"but, if not peacefully we have the means to force our determination. And we must do it, and shall do it."

Ismet's position was completely at variance with the terms of the allied note, which is the basis of the negotiations, General Harrington explained, partly to the Turkish leader and partly to the allied associates.

General Mombelli indorsed and supported the British general's statements forcefully, when suddenly a new bombshell was thrown into the gathering by General Charpy, the French representative, who announced abruptly that he had been instructed by his government to support the Turkish demands.

General Charpy was followed by M. Franklin Bouillon, the special French envoy, who similarly supported the Turkish position, explaining with some rhetorical effect that "France places a different interpretation on the terms of the allied note than her conferees."

It was evident that the allied camp was divided against itself, and that the situation had become untenable. The British and Italian delegates conferred together for a moment, then asked that the conference be adjourned until the following day to permit them to get new instructions from their governments.

CONSTANTINOPLE, Oct. 5.—Abruptly, though not unexpectedly, the Mudania conference came to a halt this afternoon. When it will be resumed is a matter of conjecture.

Brigadier-General Harrington, commander of the allied forces and head of the allied delegation, returned this evening on the battleship Iron Duke, and the Italian delegation also came to Constantinople. It is understood that the allied generals will go into conference with the high commissioners in connection with several serious subjects which have arisen at Mudania.

Various explanations for the separation of the delegates are given in the rumors which quickly developed here. The one most generally credited related to the evacuation of Constantinople. According to unofficial information, Ismet Pasha, the Nationalist representative, suddenly raised the question at the afternoon conference of the evacuation of Constantinople. General Harrington replied that that would come after the conclusion of the peace treaty, as set forth in the joint allied note. Ismet insisted heatedly on an earlier evacuation, and it was found impossible to reach an agreement for the present on this important point.

General Mombelli of Italy supported General Harrington, but the French delegate, General Charpy, was non-committal.

At this juncture M. Franklin Bouillon, the special French envoy, intervened, declaring that he had been instructed by the French government to support the Turkish demand. The discussion grew very warm, and the allied generals adjourned to confer with the commissioners at Constantinople.

Both General Harrington and General Mombelli have asked for further instructions from their governments. If these are received in time it is possible that the conference may be resumed at Mudania tomorrow afternoon.

Another report was current, but accepted as only a partial explanation, that the stoppage of the conference sessions was due to the necessity of the Greek delegates referring all matters for decision to their government at Athens.

## Danger of Northern Fires Passes as Rain Falls

NORTH BAY, Oct. 5.—A train loaded with supplies from Toronto for the towns laid waste by fire pulled into North Bay at 6 o'clock tonight.

"Toronto always comes across," said Chairman Lee of the Temiskaming and Northern Ontario Commission. "When anyone is in trouble you can depend on Toronto."

Premier Drury accompanied the relief train as it hurried forward to Haileybury. Doctors, nurses and an abundance of supplies were on the train for the needs of the stricken people.

"I would like to express my appreciation for the whole-hearted, generous and efficient way in which the people of North Bay have rallied to the emergency," said Premier Drury before he left. "With almost a thousand refugees reaching here with scarcely any warning, they have every one been cared for in a way that is deserving of the admiration of all. I wish especially to refer to Mayor John Ferguson and Councillor T. J. Patton, who had charge of the arrangements, and I wish also to thank all the citizens who have helped so willingly."

Heavy rain fell this afternoon over the burned districts, and all danger of fire is passed. However, the weather is becoming much colder, and supplies will be greatly needed. Most of the people who escaped lost all their clothing except what they were wearing, and the people of Cobalt and North Bay have been most generous in donating clothing.

Many Interesting Features At Joint Exhibition of Farmers and Children.

Special to London Advertiser.
