CAMPBELLTON, NEW BRUNSWICK, TUESDAY, FEBRUARY 16, 1909.

ESTABLISHED: 1888. (Graphic 1907.)

HANGES IN SCHOOL BOOKS ANNOUNCED

to take effect in August—Prices to be reduced

FREDERICTON Feb. 15.—As a result of the meeting of the text book committee of the Board of Education in its city yesterday and the negotiations which have been in progress for some time, Premier Hazen made announcements as to changes in the school books. The changes will go into effect at the commencement of the next school term, in August next. The committee, composed of the members of the text book committee of the teacher institute, and the Goggin grammar will be used in the schools instead of the Melville grammar. The latter has sold at 25 cents. The committee believe as do the teachers at Goggin's grammar will prove much superior and it will be sold at 15 cents. Arrangements have been made whereby copy books will sell at 3 cents each instead of 5 cents, the present price. Extensive improvements will be made in the health reader. A chapter on the treatment of tuberculosis will be added, a much needed addition. Changes in the arithmetic text book have been considered, but it is now understood that no change will be made. The book at present in use will, however, be sold at a reduced price, of about 20 per cent. Other changes are under consideration and Premier Hazen and his committee are carrying out their anti-inflation policy regarding reduced prices for school books to the letter. Provincial Secretary, Fleming who attended the meeting yesterday, returned home last evening. Premier Hazen will go to St. John tonight.

108 Nox a cold.

E. I. DESPERADES, ON WAY TO DORCHESTER BREAK FROM JAIL

CHARLOTTETOWN, Feb. 15.—Shepherd and McDonald of Charlottetown, two prisoners convicted of robbery, all breaking etc., and sentenced to Dorchester penitentiary, have escaped from Pictou Jail and are still at large. They were taken over on Wednesday by Sheriff Coombs and Constable McKinnon and placed in jail. They fled the lock during the night and got clear of the cell, but there were other doors to force. When the janitor came in the morning to give the prisoners breakfast the desperadoes lay in wait, and seizing the janitor, shoved him into the cell and locked the door. When Sheriff Coombs learned of the escape he organized a search, telegraphed and telephoned in all directions had a man watch McDonald's home in Westville, but so far without success.

THREE SKATING RECORDS BROKEN

ST. PAUL, Feb. 14.—In a series of ice skating races today between Norval Daples and John Wilson, three professional in-door world's skating records were broken. The races took place at the Hippodrome rink at the State Fair grounds. In the half-mile event, Daples lowered his own world's record of 1:18 1/5 to 1:17 1/5. Wilson established a new world's record for the mile, making the distance in 2:39 2/5 and also lowered the two-mile record going against time and covering the distance in 5:45 2/5. The previous in-door record for this distance was 5:59. The men were matched for the three events but after the two mile race, Daples collapsed on the track and did not regain consciousness until after physicians had worked over him for more than an hour.

CHARLO

Quite a storm prevailed here on Wednesday night though not cold. Mrs. John Groux, though quite well is still slowly improving. Father Lambert of Nash Creek, returned home from Boston last Saturday. Our young men are gradually coming home from the woods.

CATARH CANNOT BE CURED WITH LOCAL APPLICATIONS.

As they cannot reach the seat of the disease, Catarrh is a local or constitutional disease and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the source and is a regular prescription. It is composed of the best tonics known combined with the best local purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials.

F. J. CHERNEY & CO., Props., Toronto O. Sold by Druggists, price 50c.

Take Hall's Family Pills for Constipation.

TO ORGANIZE A Y. M. C. A. HERE.

Committee Hard at Work in This Good Cause. Success Expected. BANQUET FEB. 23.

There is at present a movement being made towards the development of the young men and boys of the town socially, physically, intellectually and spiritually. In this movement it has been considered best to discuss the matter of organizing a Young Men's Christian Association at a general meeting of citizens, and for this purpose arrangements have been made to hold a Banquet on Tuesday evening, February 23rd in Grey's Restaurant. Invitations to the banquet have been sent out, and the arrangements committee would esteem it a favor if any desirous of attending and who through oversight of the committee have not been invited, would apply to Mr. R. Malcolm Hope, secretary, before Saturday 20th February. Several gentlemen connected with the Y. M. C. A. work in other cities are requested to be present and address the meeting. The committee desire to thank the store keepers for their courtesy in consenting to close their stores at 6 o'clock on the evening of the banquet.

Rev. P. J. Slattery.

Mr. Max M. Mowat.

Mr. John McLean.

Rev. R. J. Coleman.

Mr. W. J. Appleton.

Mr. R. D. McNair.

R. Malcolm Hope, secretary.

CHALEUR BAY MILLS, P. Q.

The Church has been reopened Sunday for the first time for four or five weeks since it was closed on account of smallpox existing among the Indians. We hope that the church will not be closed again, as it makes the Sunday very lonely. There is a much better condition than when they closed the church. When they closed the church, the place was not clean of the disease. The announcement of the marriage of Mr. Frank Champleux to Miss Michael of St. Gabriel, P. Q. was heard yesterday in church. The happy couple are expected here soon and it is said that they will reside here in the future.

A VERY PLEASANT EVENING WAS SPENT AT THE COMPANY'S COOK HOUSE HERE ON FRIDAY.

When about fifteen young men and boys from Campbellton drove over to about eight o'clock in the evening. Mr. G. Gaudin, the chief cook and manager of the house was very pleased to offer a good reception to the party. At nine o'clock it was proposed to make taffy and Mrs. Bernard and Mr. Peter Landry took charge and it was a success. The evening was spent in singing and other enjoyments. The party were joined by some of the young girls and boys from this place. At eleven o'clock Mr. J. O'Leary drove to the door and drove the party over to Campbellton. All the visitors left well satisfied and promised to come again. The chief cook was very proud of the visitors and said he felt thirty-five years younger.

IT IS SAID THAT AN OPEN AIR RINK WAS OPENED AT CROSS POINT WHERE SOME OF OUR BOYS ENJOY SKATING EVERY EVENING.

Mr. E. Bergeron, manager at Chaleur Bay Mills Co. was here on business Thursday and Friday of last week.

THE CHALEUR BAY MILLS CO. HAVE MADE A GENERAL REPAIR ON ALL THEIR HOUSES DURING THE WINTER.

Twelve carpenters have been at work during the winter. The repairs were made on the dwellings and a painter at work all the time. This is a credit to the company. The families who occupy these houses are now very comfortable. The water works have been installed in the houses. Also during the winter two fine houses have been erected, and an ice house and large barn. A planing mill has been erected and will run next summer.

THE COMPANY'S LARGE COOK HOUSE IS UNDER THE MANAGEMENT OF CHIEF COOK DAVID GODIN.

Everything is up to date and always ready to serve a good meal to any one in need. This house is next to a hotel although it is only for the mill men. Great credit is due to the company for the manner in which they wish to use the workers. Credit is due to Mr. Godin the chef, for running the house to such a satisfaction to all.

Mrs. Simon Fleury arrived last week and reports having made several good sales among the white people.

Monna, McNeil and Maloney of Campbellton drove over on Wednesday and spent a few hours visiting Mr. Carter and family. They are expected again.

Nox a Pain Tablets cure rheumatism and neuralgia pains in five minutes. See Box at White's Drug Store.

THE SPEED OF SPECIAL MAIL TRAINS

Subject of Number of Questions from Hon. Mr. Emmerson in Parliament

In the House of Commons, Hon. Mr. Emmerson has given notice of the following questions: February 9.—1. Have any instructions ever been issued by the Department of Railways or by the management of the International railway, with reference to the speed of special mail trains, so-called? If so, what were such instructions? 2. Is it true that orders were issued at any time to the effect that such trains should run at a rate of speed not less than fifty-five miles per hour, and is the rate of speed authorized in inclusive or exclusive of stops at stations and for taking water?

3. At what rate of speed was the special train which recently met with disaster between Dalhousie Junction and Campbellton, when one of the locomotive engineers of the train was killed and others injured, running?

4. Was the speed in accordance with the instructions or regulations in such cases?

5. Whose duty was it to direct as to the average speed to be maintained with the train in charge of such train or any of them?

6. Is it true that any engineers or conductors of such special trains have been penalized for not maintaining the average rate of speed, inclusive of stops, or excessive thereof?

7. Were any instructions issued as to the average rate of speed to be maintained by the train referred to, if so, what were they and by whom issued?

8. In the regulations, if any, provide for any difference to be made in the average rate of speed to be maintained by such trains as between winter and summer road conditions and rail conditions?

9. What was the result of the inquiry?

OPENED BRANCHES AT JACQUET RIVER.

Thriving Manufacturing Centre now well served With banks KEEN COMPETITION

Jacquet River, that thriving manufacturing town, now has two banks at which the business men can transact business. On Saturday last the Royal Bank of Canada started a branch at the Bank of Nova Scotia, and sent a manager with an outfit to open a branch there. The branch was opened in one of Doyle's sample rooms, and soon the bank was doing business. Manager Tupper of the bank of Nova Scotia, advised of this move, and at once made preparations to meet this competition. J. F. McLeod, the popular accountant here, was named as manager of the new branch, and an equipment hastily packed and sent to Jacquet River. Quarters were secured at McLeod's store, and the first office was established at Jacquet River. Formerly the business firms were obliged to come to Dalhousie or Campbellton to transact business, so that the new order of things will be pleasing to patrons in this section. Of late years Jacquet River has gained some of the importance of the important manufacturing centres of the North Shore, but it is doubtful if there is sufficient business there for two banks.

MINARD'S LINIMENT CURES COLDS, ETC.

Dear Sir:—

Please allow me the space in your paper to make a few remarks about the colds which I have contracted. I am a son of Robert Jeffrey, who was found dead on the Upsalquich road on Friday, the 5th inst. I notice by the local papers that he died of a cold, which is not in accordance with the facts. I saw the body Friday night and it had not the appearance of being frozen. One ear was undisturbed, frozen and was discolored, while the other was only slightly frosted. From particulars I have since learned that the cause of the tragedy was not a cold, but a severe attack of diphtheria, which was not recognized until it was too late. I am of the opinion that the young man died suddenly.

I would like also to know if it is lawful to take the remains of any person from their home and take them twenty miles to a coroner, and then have a coroner's jury sit on the body and find the cause of death to be a cold, which is not in accordance with the facts. Then in driving the twenty miles in an open sleigh in the cold, the body would naturally be frozen by the time it reached the coroner, and he could not tell whether he had been frozen to death or died a natural death. Thanking you for space in your journal, I remain, Sir, very truly, WM. E. MANN

FOUGHT LIKE BEASTS TO SEE MAN SLAIN

Revival of the Guillotine in Paris is Witnessed by Remarkable Scene of Despair

PARIS, Feb. 15.—The man Denvers, who was sentenced to death for the murder of his benefactor, was executed at Carpentras at 7 o'clock this morning, amid the same unpleasant popular hysteria which was seen at Bechupe a fortnight ago. An immense crowd waited for six hours to see the execution, and fought like beasts to get a glimpse of the condemned man. When the guillotine arrived about four o'clock the crowd charged in and cheering wildly, attempted to force an entrance with it to the place of execution. Men lunged to the guillotine, under the shaft, and to the wheels like hungry men to a banquet. M. Delber, the executioner, and his assistants, tried to beat them off, the wagon came to a standstill until a way for it was cleared by the soldiers. Denvers gave no trouble. When one of the assistants of M. Delber pointed out to him that he was putting on his boots without socks he merely laughed and jerking his thumb at M. Delber said: "He won't give me time to get cold feet." He then heard Mass, insisting on smoking a cigarette while Denvers was going on, and a few moments afterwards he had paid his debt to society.
