Superintendent. Water Works Department Pumping House ALONZO W. SPOONER, Esq., Port Hope. ALONZO W. SPOONER, Esq., Port Hope.

DEAR SIR: I am pleased to say that after three years' constant use, day and night, on our largest engine your Copperine has stood its work well. I have not had to renew any of the heavy bearings yet, so I consider that speaks for itself. I am pleased to recommend it to any one in need of metal to stand heavy work.

I remain, yours truly,

J. C. FERGUSON,

Chief Engineer Toronto Waterworks.

LONDON STOCKS AND BONDS. LONDON STOCKS AND BONDS.

LONDON, Jan. 28, 1246 p.m.—Consols, 9746 for money and account; U.S. 4's, 12242; U.S. 44's, 10544; Erie, 2044; Erie 2d, 10146; St. Paul, 55%; Pac. Cen. 5346; Reading, 1646; Can. The Future Mining, Smelting, **Manufacturing and Business** Centre of Northern Ontario

NATURAL ADVANTAGES This important point has many natural advantages not possessed by any of the other towns and villages of the district. To begin with it is in the very heart of the great mineral range that extends from Lake Wahnapitæ to the north shore of the Georgian Bay.

WATER POWER

Another great natural advantage of this point is the fine water power right beside the town site, on the Vermillion River. The power is practically unlimited and can be utilized at little or no cost. Then it is almost certain that in the near future electricity will be applied to the reduction of ores, and water power is in every way more preferable for driving electric motors. For this reason alone Nickel City is bound to become the great smelting centre of the range. The mines can also be lit by electric light for at least ten miles around it. ECONOMY WITH COMFORT

General Canadian Agent, 37 Yonge-st., Toronto IN A TIMBER BELT The timber of seven large limits (each 36 square miles) has to be brought down at this point, four by the river from the north and three by the lake from the Indian reserve to the east. As the railway crosses the town site at the junction of the river and the lake, afford-

vantage here.

THE TOWN SITE

medicine ever made.

AS A SUMMER RESORT

There is no other spot on the

west indies

West indies the river and the lake, afford-ing shipping facilities in all directions, the timber and lum-ber for the mines and towns of New York to St. Croix, St. Kitts, Antigua, Do-pinica, Martinique, St. Lucia, Barbados, Gren-da and Trinidad every 10 days. the district can be cut and manufactured to the best ad-

Cuba, Florida, Jamaica, Mex-ico, West Indies, etc. For beautifully illustrated pamphlets, rates,

There is no other spot on the range that can in anyway compare with Nickel City as a summer resort. In the first place it is more free from mosquitoes and black flies, the twin pests of the district in the mid-summer months, owing to the altitude of the land, distance from swamps and the constant breeze from the lake. Prospect Point, which is a high rocky bluff projecting into the lake over a quarter of a mile, commands a magnificent view of the rapids and falls in the river, the winding lake in front and the amphitheatre of towering cliffs and ridges that surround the lake on three sides. A fine large hotel and a number of cottages are to be built on this point next summer to on this point next summer to accommodate the capitalists and others interested in min-ing in that part of the district. In short, the inherent attrac-

tiveness, convenient situation and many advantages of this point will assuredly make it the favorite summer resort of the

range. MINING OPERATIONS Anyone familiar with the district knows that the richest part of the range is in the townships of Denison, Graham and Drury, and of which Nickel City is the natural centre. Over 50 mining claims have been taken up within five miles of the town site, for nickel, gold, silver and platinum. A great deal of development work will be done on many of them this coming season, and the reduction works in the town will be completed and in operation by next Anyone familiar with the dis-

thus greatly increasing the comfort and safety of traveiers.

New and elegant Buffet Sleeping and day cars are bun on all through express trains.

Canadian-European Mail and Passenger Route.

Passengers for Great Britain or the Continent leaving Montreal on Thursday morning will join outward mail steamer at kimouski the same evening.

The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise intended for the Eastern Provinces and Newfoundland; also for shipments of grain and produce intended for the European market.

Tickets may be obtained and all information about the route, also freight and passenger rates, on application to N. WEATHERSTON,

Western Freight and Passenger Agont, Toponia.
