It would not surprise the scientific world if a much simpler means were found for manufacturing alcohol than that which now prevails. As a than that which now prevalls. As a matter of fact, a very simple and inexpensive method of producing alcoholnas been announced by a French scientific journal, and it is a curious thing that the newly discovered illuminant that the newly discovered illuminant acetylene is the chemical agent from which alcohol is produced by the new method. M. Moissan, a noted French electrician, says he expects to revolutionize the distillation of alcohol. He produces a cetylene by the same process as that used for making it for lighting purposes. Having obtained the gas he finds that ammonio-chromus sulphate absorbs the gas, and by the aid of heat transforms it into ethylene. The ethylene is passed into both sulphovinic acid and sulphovinic.

EXTRAORDINARY SERMON IN TORONTO CHURCH.

The Old Parties Support the Pope, the ast to the Lord to Save the Country," Says Boy Preacher Cobourn-Savage

Attack on Roman Catholic Numeries.

One of the most extraordinary sermons of recent times frem an evangeli
(Appleus) protest against an invidious and unjust law is certainly strong evidence that the law in question is invidious and unjust. This is what troubles and unjust. This is what troubles Bother Courtice and his friends. But we think they are doing their cause no good by taking legal proceedings to prevent people who wish to do right and to pay their own way from doing the catter of the curse of Canada; and Roman Catholic nunnerles were repeatedly stigmatized as consecrated brothels.
