We note that Dr. J. B. Hall is out making some general improvements in his dwelling at the west end,—at present occupied by his sister, Miss Bertha. ODDFELLOWS HOME FOR BRIDGETOWN

Crescent Lodge With Support Many Others In Running Location Here

The big feature of interest I.O.O.F. Grand Lodge which at Truro on August 11th, 18th, 10th, will be the selection of a home for the Oddfellows' Home. It is expected that there will be a delegation present from all jurisdictions which embraces the Maritime Provinces and Newfoundland.

The efforts of the brethren here have now assured the selection of a suitable home for the Oddfellows and it is of interest that the first practical move in this direction was made in 1910, when President of the Rebekah Society, Sister Peters, at the Autumn Leat Rebekah Lodge town, presented Grand Lodge meeting at St. John, with \$1000. From this small sum the fund grew to its present total of \$10,000.

Of course there are several in the running for location home. Among them being Truro, and Pictou. From Pictou we understand only town at present in the Bridgetown and Crescent this place will no doubt receive considerable backing from Grand delegates in the Valley and part of the Province town as from many other lodges in other parts of the jurisdiction.

The elements which are being selected are being carefully selected by the Order to ensure strictly on merit and outstanding advantages.

One of the very strong points which is being put forth is the fact that the location of the home will be on the side of the town limits of the trunk road running through the town. The farm itself of about one hundred acres of land, which is under cultivation from seventy-five to ninety acres in pasture with water supply. The orchard of about one hundred acres with twelve hundred barrels of apples the best flavor and best such as Kings, Bishop of Russets, Gravenstein, many of the trees are young each year show increasing yield.

The home will be a two storey one 30x40 on each floor, four on two on the upper, with electrically lighted, and is equipped in the way.

The Town Council are prepared to give the county to give taxation if the home is struck in front of a striking financial advantage. It is in the garden with its beautiful scenery varied with apple blossoms in richly colored fruit climate free from what situation could be for the declining brethren who require
