

WELLS, RICHARDSON & CO'S
IMPROVED BUTTER COLOR
A NEW DISCOVERY.

For several years we have furnished the Dairy men of America with an excellent artificial color for butter; so meritorious that it met with great success everywhere receiving the highest and only prizes at both International Dairy Fairs.

But by patient and scientific chemical research we have improved in several points, and now offer this new color as the best in the world. **It Will Not Color the Buttermilk. It Will Not Turn Rancid. It is the Strongest, Brightest and Cheapest Color Made.**

And, while prepared in oil, is so compounded that it is impossible for it to become rancid.

BEWARE of all imitations, and of all other oil colors, for they are liable to become rancid and spoil the butter.

If you cannot get the "Improved" write us to know where and how to get it without extra expense.

NEW Vegetables A Specialty

GREGORY'S SEED CATALOGUE

My Vegetable and Flower Seed Catalogue for 1883 will be sent FREE to all who apply. Customers of last season need not write for it. All seed sent from my establishment warranted to be both fresh and true to name, so far, that should it prove otherwise, I agree to re-ship the order gratis. My collection of vegetable seed is one of the most extensive to be found in any American catalogue, and a large part of it is of my own growing. As the original introducer of Early Ohio and Hubbard Squash, Marblehead Early Corn, the Hubbard Squash, Marblehead Cabbage, Philney's Melon, and a score of other new Vegetables, I invite the patronage of the public. In the gardens and on the farms of those who plant my seed will be found my best advertisement.
