A HOME DRUGGIST

TESTIFIES.

Popularity at home is not always the best test of meril, but we point proudly to the fact that no other medicine has won for itself such universal approbation in its own city, etate, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best-known Massachusetts Druggists should be of interest to every sufferer:—

interest to overy sufferer:—

"Eight years ago I had an attack of the land an attack of vere that I could not more from the bed, or dress, without help. I tried several remodies without much if any relief, until I took AYEN'S SANSAPARILLA, by the use of two bottles of which I was completely cured. Have sold large quantities of your RAMALA, and it still retains its wendering popularity. The many notable cured thas effected in this vicinity convince in that it is the best blood medicine ever offered to the public.

WHAT IS CATARRH?

WHAT IS CATARRH?

Catarrh is a muco-purulent discharge caused by the presence and development of the vegetable parasite ameeba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are:—Morbid state of the blood, as the blighted corpuscle of ubercle, the germ poison of syphilis; mercury, toxomeca, from the retention of the effected matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat; up the "ustachian tubes, causing dealness: burrowing in the vocal cords, causing dealness: burrowing in the vocal cords, causing hourseness; usurping the proper structure in the bronchial tubes, ending in pulmonary consupption and death. Many attempts have been made to discover a cure for this distressing disease by their of shalents and other ingentous devices but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucus tissue. Some time since a well-known physician of forty years tranding, after much experimenting, succeeded in dircovering the necessary combination of ungredients which never fail in absolutely and permanently eradioating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease, should, without delay, communicate with the busness managers. Toronto Matt. Massas. A. H. DIXUN & SUN. 305 King St. West, Toronto, Canada.
