Scientific and Useful.

To keep cheese from moulding rub the cut part with butter, or cover the cut with jam paper. This will keep the cheese dry.

A POTATO, with one end cut off is better than a rag for scouring the knives. A thin shave must be taken off each time to give a moist surface.

TAKE small pieces of old newspapers after being wet and sprinkle them over the carpet before sweeping. This plan is better than using tea leaves.

LYDIA E. PINKHAM'S Vegetable Compound is a most valuable medicine for ladies of all ages who may be afflicted with any form of disease peculiar to the sex. Her remedies are not only put up in liquid form but in pills and lozenges in which form they are securely sent through the mails.

STALE buns may be made to taste as nicely as when fresh, if they are dipped a moment or so in cold water, then put into a hot oven for five or ten minutes. They will turn out as light and crisp as when first baked.

LAUREL leaves ought never to be used in cookery as they contain prussic acid, and are, therefore, poisonous. The ill-effects would not be experienced unless used largely, but it is better always to use bay leaves in their stead.

THERE should be water plants in the glass globe in which gold and silver fish are kept, and the water should not be very frequently changed. Very fine bread crumbs, flies, worms and dried and powdered yolk of eggs may be given to fishes in very small quantities.

CHEESE pudding is made by grating half pound of cheese very fine, mix with two eggs, whites and yolks beaten up together and half an ounce of fresh butter, season well with pepper and salt. Bake in a small dish lined with puff paste, or else merely butter the dish before pouring in the mixture.

GOOD FOR ALL.—For all diseases of the blood, liver, kidneys and bowels take Burdock Blood Bitters. It is purely vegetable, can do no harm, and is always beneficial.

GRAHAM PUFFS.—Graham puffs for breakfast are richer and a great deal nicer than the plain gem; take one pint of sweet milk, one pint of graham flour, half a teaspoonful of salt, and one egg, beat the egg, then add the milk, and then the flour gradually, beat it very briskly for four or five minutes, then pour into buttered gem pans; bake in a hot oven.

To get the full flavour of dried or evaporated peaches, they should first be allowed to soak for at least three hours, then cook them slowly, when they are almost done add the sugar, then set them away and let them get perfectly cold. If not used until the second day they will be still better, as they will absorb the sugar and be much apparently richer.

A NICE TEA DISH.—Make a short sweetened pie crust, roll thin and partly bake in sheets; before it is quite done take from the oven, cut in squares of four inches or so, take up two diagonal corners and pinch together, which makes them basket-shaped now fill with whipped cream or white of egg, or both, well sweetened and flavoured, and return to the oven for a few minutes.

A GOLDEN OPINION.—Mrs. Wm. Allen, of Acton, declares that Hagar's Yellow Oil is the best household remedy in the world for colds, croup, sore throat, burns, scalds and other painful complaints. Her opinion is well founded.

BUFF DEVIL.—Cut slices of cold cooked beef about half an inch thick; trim them to an even size, spread them with salad oil or melted butter, mixed thick with mustard and pepper; dip them in cracker or bread crumbs, rolled and sifted; put them between the bars of a double wire gridiron which had been buttered or oiled, and just colour them over the fire. Serve with a little gravy under them.

To clean stained wood work which is also varnished, an old house wife recommends saving tea-leaves from the teapot for a few days. Drain them, and when you have a sufficient quantity put them in clean soft water; let them simmer for half an hour; when almost cold strain them out, and dipping a flannel cloth in the water, wipe off the paint, drying it with another flannel cloth. One cup of tea leaves to one quart of water is the due allowance.

Scott's Emulsion of Pure COD LIVER OIL WITH HYPOPHOSPHITES, will Build up Wasted Strength.

Dr. R. B. PESLEY, Elizabethtown, Ky., says: "I have prescribed Scott's Emulsion for nearly the last ten years, and take pleasure in commending it as a valuable remedy both for adults and children in wasting conditions."

CHAPTER I.

"I was taken sick a year ago With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I Could not move!

I shrunk! From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles, I am not only as sound as a sovereign, but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 6, '84. R. FITZPATRICK.

How to Get Sick.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised, and then you will want to know how to get well, which is answered in three words—Take Hop Bitters!

None genuine without a bunch of green Hops on the white label. Shun all the vile, poisonous stuff with "Hop" or "Hops" in their name.

CATARRH:

A NEW TREATMENT.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not a single cent. of the patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting from the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 305 King Street, west, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—Montreal Star
