YELLOW FEVER REPORTS.

Chicago, Oct. 10.

The threatening aspect of European war question on the Fashoda issue, was the excuse the bulls made for an upturn in the market. As consols improved at close in London, the matter has not grown in gravity during the day. Wheat, however, gained 1c and Corn remained steady.

Provisions declined on reported increase in yellow fever. They, however, close very much the same as on Saturday.

AFTERNOON BOARD.

The feeling at the afternoon board was quite buoyant. The general list closed strong. The news from abroad was not encouraging and advance should be taken advantage of, to sell shares on. MONTE CRISTO.

The reason of the closing down of the mine is this:—Some recent developments have brought the directors to the conclusion that their superintendent had not been acting squarely. Two directors went out to Rossland with power to act, and the result is, that they have discharged the superintendent and suspended work until his place is filled. In the meantime an expert is to examine the mine and the work done and to report on it.

I cannot say when work will be started up again, as there is no particular hurry until the Railroad and Smelter are in shape to take the ore; but I know they are after a good man for superintendent and are pretty sure to get him.
