

# WARNER & CO'S SUGAR-COATED Phosphorus Pills.

Phosphorus is an important constituent of the animal economy, particularly of the brain and nervous system, and is regarded as a valuable remedy for the following diseases:—

**Lapse of Memory, Impotency, Softening of the Brain, Loss of Nerve Power, Phthisis, Paralysis and Neuralgia.**

**THE PILULAR FORM HAS BEEN DEEMED THE MOST DESIRABLE FOR THE ADMINISTRATION OF PHOSPHORUS.** It is in a perfect state of subdivision, as it is incorporated with the material while in solution, and is not extinguished by oxidation.

**THIS METHOD OF PREPARING PHOSPHORUS HAS BEEN DISCOVERED AND BROUGHT TO PERFECTION BY US,** and is thus presented in its elementary state, free from repulsive qualities, which have so long militated against the use of this potent and valuable remedy. This is a matter requiring the notice of the physician, and under all circumstances the administration of Phosphorus should be guarded with the greatest care, and a perfect preparation only used.

Its use in the above-named complaints is supported by no less authority than Prof. Delpech, Prof. Fisher of Berlin, Dr. Eames, (in the *Dublin Journal*), Dr. Burgess, and Dr. Hammond, of New York. The special treatment indicated in these cases is: 1st. Complete rest of mind, especially abstention from all occupations resembling that upon which the mind has been overworked; 2d. The encouragement of any new hobby or study not in itself painful, which the patient might select; 3d. Tranquillity to the senses, which expressly give in these cases incorrect impressions, putting only those objects before them calculated to soothe the mind; 4th. A very nourishing diet, especially of shell-fish: 5th. *The internal administration of Phosphorus in Pilular form prepared by WILLIAM R. WARNER & CO.*
